The London Hanged

Crime and Civil Society in the Eighteenth Century

Peter Linebaugh

"Contesting the current view of the eighteenth century as that of a prospering consumer society, and revealing its polar opposite in the desperate poverty and strategies for survival of the labouring people of the growing imperial metropolis, The London Hanged gives us exceptional insights, pitiless and without moralising, into the conditions of labouring life among those whom consumer society consumed."

Paris Sewers and Sewermen

Realities and Representations

Donald Reid

"In an act of unparalleled intellectual daring, Reid has set out not only to tell the untold story of the sewers of Paris and [those] who made them the sewers they are, but to analyze the relationship between the civilian population above the ground and the sewer cleaners below ... A fascinating study of the City of Light's sanitation system since medieval times, replete with details about poisonous spiders, prison breaks, sewermen's sit-down strikes and acrobatic rodents."

The Key of Liberty

The Life and Democratic Writings of William Manning, "A Laborer," 1747–1814

Edited and with an introduction by Michael Merrill and Sean Wilentz

A farmer, foot soldier, and political philosopher, William Manning was a powerful democratic voice of the common American in a turbulent age. His most notable contribution was the first known plan for a national political association of laboring men. That plan, and Manning's broader conclusions, open up a new vista on the popular origins of American democracy and the invention of American politics. In this new and complete presentation of his works, the often arid debates over "republicanism" and "liberalism" in early America come to life in vivid human detail.

Social Responsibility and the Liberal State

Alan Dawley

"Thoroughly researched, beautifully written and ambitious in scope ... Dawley here answers the many calls issued by ... historians over the past decade for a politically centered, synthetic narrative of a large chunk of U.S. history; and for a general analysis in which race, class and sex are not just included but integral."
