The Dionysian Conspiracy

#### DON DOMBOWSKY

"This is a ground-breaking study of Nietzsche's Caesarism and Bonapartism—two of the most promising inlets into Nietzsche's political thought.... Drawing upon a wealth of sources, both scholarly and literary, Nietzsche and Napoleon has all the hallmarks of becoming a reference work in the field."—Hugo Drochon, University of Cambridge

### Politics and Teleology in Kant

Edited by PAUL FORMOSA, AVERY GOLDMAN, and TATIANA PATRONE

The fourteen essays in this volume explore the relationship between teleology and politics in Kant's corpus. Among the topics discussed are Kant's normative political theory and legal philosophy; his theory of history; his theory of natural teleology; and the broader relationship between morality, history, nature, and politics.

# Hegel and Marx After the Fall of Communism

DAVID MACGREGOR

Second Edition

"MacGregor illustrates the continuing relevance of Marx and, even more importantly, Hegel, for comprehending and combating a rapacious free market global capitalism.... Scholarly exegesis is excitingly combined with biography and a critical assessment of debates, both in Hegel's and Marx's time and since."—Political Studies

# New Political Philosophy Texts for Spring

### The Key Texts of Political Philosophy: An Introduction

Thomas L. Pangle • Timothy W. Burns

ISBN 9780521185004 I \$34.99

Pangle and Burns introduce readers to analytical interpretation

of seminal writings and thinkers in the history of political thought, including Socrates, Plato, Aristotle, the Bible, Thomas Aquinas, Machiavelli, Bacon, Hobbes, Locke, Montesquieu, Rousseau, Tocqueville, Marx, and Nietzsche. Chronologically arranged, each chapter in the book is devoted to the work of a single thinker. The selected texts together engage with 2000 years of debate on fundamental questions, which include: What is the purpose of political life? What is the good life, for us as individuals, and for us as a political community? What is justice? What is a right? Do human beings have rights? What kinds of human virtues are there and which regimes best promote them?

### Political Philosophy: What It Is and Why It Matters Ronald Beiner

ISBN 9781107680555 I \$29.99

Ronald Beiner makes the case that political philosophy is centrally defined by supremely ambitious reflection on the ends of life. We pursue this reflection by exposing ourselves to, and participating in, a perennial dialogue among 12 epic theorists who articulate grand visions of what constitutes the authentic good for human beings. In this sense, Political Philosophy attempts to draw up a balance sheet for political philosophy in the twentieth century, by identifying a canon of towering contributions and reviewing the extent to which they fulfill their intellectual aspirations.
