

# Institution of Aeronautical Engineers.

## JOURNAL

---

### Editorial.

---

**I**N view of the growing importance of the Institution of Aeronautical Engineers and its rapidly increasing membership, the Council feel that the time has now arrived to provide a more satisfactory medium for keeping members and others informed of its activities than hitherto accomplished by means of the “ Minutes of Proceedings ” and “ Members’ Circular ”

Consequently, it has been decided to publish a Monthly Journal which will incorporate the above-mentioned publications, and will also contain other matter of interest to the aeronautical engineering profession

The Editor will be very pleased to receive contributions for future issues from members, which should be of a technical nature and of general interest

The Council hope that the journal will be of interest to members, that it will be of value to them in their profession, and that they will show their appreciation by making contributions to subsequent issues, and by bringing it to the notice of their friends
