

# GENERAL NOTES

ROYAL SOCIETY OF MEDICINE.

1 *Wimpole Street, London, W.1.*

## SECTIONS OF LARYNGOLOGY AND OTOTOLOGY.

The Summer Meeting of the Combined Sections will be held in Bristol on Friday and Saturday, June 14th and June 15th.

Papers will be read on the mornings of Friday and Saturday, and there will be a Clinical meeting on the Friday afternoon. A Dinner of the Combined Sections will be held on the Friday evening.

*Section of Laryngology. President:* W. M. Mollison, M.Ch., 23 Devonshire Place, London, W.1.

*Honorary Secretaries:* L. Graham Brown, F.R.C.S., 32 Devonshire Place, London, W.1, and F. C. Ormerod, 22 Upper Wimpole Street, London, W.1.

*Section of Otology. President:* E. A. Peters, M.D., 41 Wimpole Street, London, W.1.

*Honorary Secretaries:* F. C. W. Capps, F.R.C.S., 99 Harley Street, London, W.1, and C. P. Wilson, F.R.C.S., 15 Upper Wimpole Street, London, W.1.

\* \* \*

At a General Meeting of this Society, held on May 21st, Sir St Clair Thomson was elected an Honorary Fellow by the unanimous vote of the Fellows. It was the only new British nomination this year.

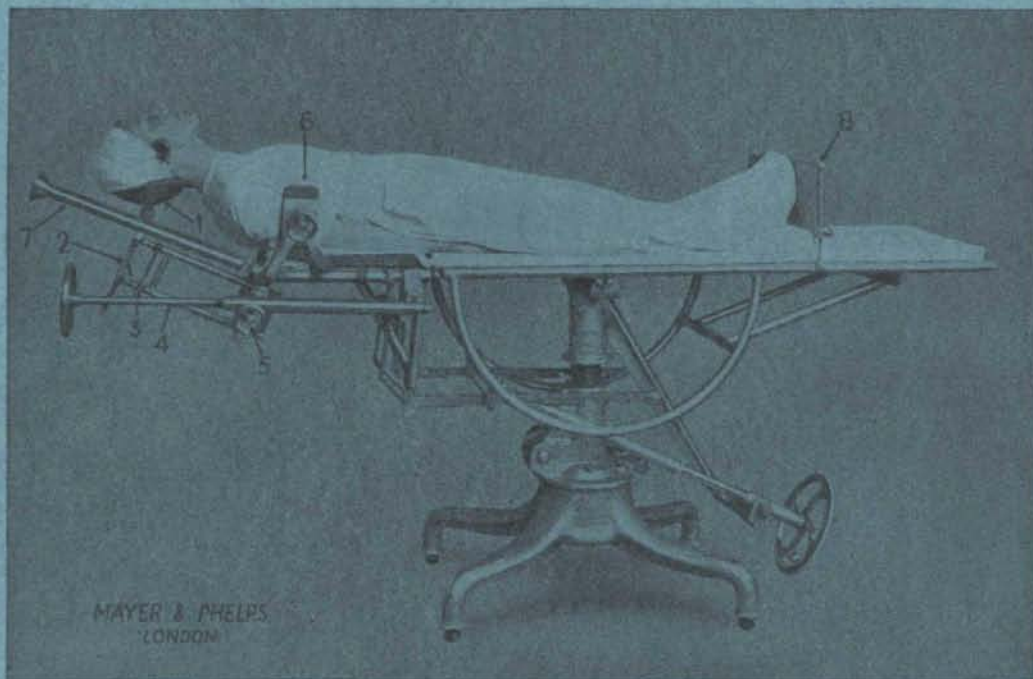

It is worthy of note that, with a membership now approaching five thousand, there are only twenty-three British honorary fellows of this Society. Sir St Clair Thomson is the first Laryngologist—indeed, we believe the first Specialist—on whom this distinction has been conferred. It is also noteworthy that the Society has twenty-seven Honorary Foreign Fellows and, of these, one is a Laryngologist, viz. Professor Chevalier Jackson. No other speciality has received such distinction.

# Peroral Endoscopy Table

Fitted with Head Rest for BRONCHOSCOPY, ŒSOPHAGOSCOPY,  
NASAL OPERATIONS Etc.

Designed by V. E. NEGUS, M.S., F.R.C.S.

The head rest enables the operator himself to place the patient in the desired position for a variety of operations. All parts touched by the operator are sterilisable.

The apparatus is an elaboration of Haslinger's Bronchoscopic head rest, but its range of utility is extended to enable the patient to be supported with the shoulders beyond the end of the table for œsophagoscopy, and to be kept in the correct attitude during operations performed in the sitting or semi-sitting position.
