PAST PRESIDENT	John Boyce, MD	PRACTICE COUNCILOR	Alan Tice, MD
SECRETARY	Larry J. Strausbaugh, MD	INTERNATIONAL COUNCILOR	Didier Pittet, MD
TREASURER	Loreen A. Herwaldt, MD		

PMI Initiative Update

At present, the Project to Monitor Indicators (PMI) initiative is responding to an AHRQ priority area looking at medication errors in hospitals. PMI proposes a trial to "Reduce Antimicrobial Prophylaxis Errors" (TRAPE) in 32 to 50 hospitals. The

proposal was prepared by Steve Solomon, MD, Bryan Simmons, MD, Peter Gross, MD, John Burke, MD, Steve Kritchevsky, PhD, and Barbara Braun, who presently seek SHEA's official support of the project.

European Training Course

Last chance to plan your trip to Europe this summer and to see more than the mountains and lakes of Switzerland or your Swiss bank account: the European SHEA/CDC/ESGNI training course in

Hospital Epidemiology will be held August 25-29, 2000, at the Cartigny Meeting Center, Geneva, Switzerland.
