The T.M.C. Asser Institute was founded in 1965 by the Dutch universities which offer courses in international law in order to promote education and research in the fields of law in which the Institute specialises: private international law, public international law including the law of international organisations, international commercial arbitration and the law of the European Union. The Institute discharges this task by organising educational programmes, by the establishment and management of documentary compilations and by undertaking academic research, in some cases in cooperation with international organizations and academic institutions, as well as by the dissemination of information deriving therefrom and by the publication of monographs and series.

The Institute organises *Asser College Europe*, a project in cooperation with East and Central European countries whereby research and educational projects are organised and implemented.
