EDITORS-IN-CHIEF / RÉDACTEURS-EN-CHEF

Antonio Lei & Javad Mashreghi

Département de mathématiques et de statistique

Université d'Ottawa & Université Laval

cmb-editors@cms.math.ca / bcm-redacteurs@smc.math.ca

ASSOCIATE EDITORS / RÉDACTEURS ASSOCIÉS

Amir Akbary
University of Lethbridge

Kathrin Bringmann
University of Cologne

Guillaume Chapuy
Université Paris Diderot

Benoit Collins
Kyoto University

Dmitry Jakobson
McGill University

Ailana Fraser
University of British Columbia

Alex Iosevich
University of Rochester

Krzysztof Kapulkin
University of Western Ontario

Rahim Moosa
University of Waterloo

Dmitry Panchenko
University of Toronto

Marek Ptak
University of Agriculture in Krakow

Hadi Salmasian
Université d'Ottawa

Valentino Tosatti
McGill University

Deping Ye
Memorial University of Newfoundland

Fabrizio Andreatta
Universita Studi di Milano

Lia Bronsard
McMaster University

Jingyi Chen
University of British Columbia

Octav Cornea
Université de Montréal

Shaun Fallat
University of Regina

Philippe Gille
CNRS & University Claude Bernard

Michael Jury
University of Florida

Matilde Lalin
Université de Montréal

Monica Nevins
Université d'Ottawa

Julia Plavnik
Indiana University - Bloomington

Frédéric Rochon
Université du Québec à Montréal

Alistair Savage
Université d'Ottawa

Shawn XianFu Wang
University of British Columbia

Yingfei Yi
University of Alberta

Hans Boden
McMaster University

Lucy Campbell
Carleton University

Adam Clay
University of Manitoba

Michelle Delcourt
Toronto Metropolitan University

Ilijas Farah
York University

Slim Ibrahim
University of Victoria

Joel Kamnitzer
McGill University

Monika Ludwig
TU Wien

Robert Osburn
University College Dublin

Malabika Pramanik
University of British Columbia

William Ross
University of Richmond

Terry Soo
University College London

Liam Watson
University of British Columbia

Printed by Sheridan, a CJK Group Company.

The geometric figure on the cover, a four-dimensional polytope, was redrawn by Javad Mashreghi from the inside cover page of the celebrated book 'Regular Polytopes' by Harold Scott MacDonald Coxeter (1907–2003), one of the greatest geometers of the 20th century. Coxeter, a Fellow of the Royal Society of Canada and a Fellow of the Royal Society (London), joined the University of Toronto in 1936 and worked there enthusiastically for 60 years. Since 1978, the Canadian Mathematical Society has awarded the Coxeter-James Prize in his honor.

La figure géométrique sur la couverture, un polytope en dimension quatre, a été reprise par Javad Mashreghi du plat intérieur du célèbre ouvrage Regular Polytopes de Harold Scott MacDonald Coxeter (1907–2003), l'un des plus grands géomètres du XXe siècle. Membre de la Société royale du Canada et de la Royal Society (Londres), H.M.S. Coxeter s'est joint au corps professoral de l'Université de Toronto en 1936, où il a travaillé avec enthousiasme pendant 60 ans. Depuis 1978, la Société mathématique du Canada décerne le prix Coxeter-James en son honneur.

2025, 68/2

359	On the binomial transforms of Apéry-like sequences	Ji-Cai Liu
377	Presentation of an Iwasawa algebra: The pro- p Iwahori of simple, simply connected, split groups	Aranya Lahiri and Jishnu Ray
395	A characterization of the existence of zeros for operators with Lipschitzian derivative and closed range	Biagio Ricceri
401	Generalized torsion orders and Alexander polynomials	Tetsuya Ito
421	Product of two involutions in quaternionic special linear group	Krishnendu Gongopadhyay, Tejbir Lohan, and Chandan Maity
440	Biderivations of Lie algebras	Qiufan Chen, Yufeng Yao, and Kaiming Zhao
451	Buried points of plane continua	David Lipham, Jan van Mill, Murat Tuncali, Ed Tymchatyn, and Kirsten Valkenburg
461	The isotrivial case in the Mordell-Lang conjecture for semiabelian varieties defined over fields of positive characteristic	Dragos Ghioca
477	A characterization of virtually free groups among hyperbolic groups	André Carvalho
484	Spectral identities for Schrödinger operators	Namig J. Guliyev
492	Spectral ratios and gaps for Steklov eigenvalues of balls with revolution-type metrics	Jade Brisson, Bruno Colbois, and Katie Gittins
512	Products of commutators in matrix rings	Matej Brešar, Eusebio Gardella, and Hannes Thiel
530	Control theorems for Hilbert modular varieties	Arshay Sheth
550	Hilbert matrix operator acting between conformally invariant spaces	Carlo Bellavita and Georgios Stylogiannis
568	Realizations of free actions via their fixed point algebras	Kay Schwieger and Stefan Wagner
582	On the gluing of germs of complex analytic spaces, Betti numbers, and their structure	Thiago Henrique Freitas and Johnny Albert Lima
598	A characterization of inner product spaces via norming vectors	Guillaume Aubrun and Mathis Cavichioli
603	Small Mahler measures with bounds on the house and shortness	Salma El-Serafy and James McKee
620	A note on Hayman's problem	Jiaxing Huang and Yuefei Wang

628	Order-automorphism groups of Archimedean ordered groups	<i>Greg Marks</i>
634	Torsion points and concurrent exceptional curves on del Pezzo surfaces of degree one	<i>Julie Desjardins and Rosa Winter</i>
