

The International Psychogeriatric Association (IPA) invites national and regional organizations in the field of Psychogeriatrics to apply for affiliation.

We believe much can be accomplished when organizations work together to achieve shared goals. Together we can find ways to support more effective research efforts, better educational and informational activities, and enlightened public policy in all nations.

Organizations that have goals addressing mental health and aging issues are eligible to apply for affiliation. Affiliate organizations can be from any of the various disciplines associated with IPA. IPA also welcomes multiple organizations from any country.

Below we acknowledge these outstanding organizations as IPA Affiliates and our joint commitment to the common goal of better mental health for older people.

IPA Affiliates

Royal Australian & New Zealand College of Psychiatrists - Faculty of Psychiatry for Old Age
Brazilian Association of Geriatric Neuropsychiatry
Canadian Academy of Geriatric Psychiatry
Psychogeriatric Interest Group, Chinese Society for Psychiatry
Hong Kong Psychogeriatric Association
Indian Association for Geriatric Mental Health
Israeli Association for Old-Age Psychiatry
Asosiasi Psikogeriatri Indonesia
Associazione Italiana de Psicogeriatría
Japanese Psychogeriatric Society
Korean Association for Geriatric Psychiatrists
Korean Geriatric Society
Latvian Psychiatrists Association
Associação Portuguesa de Gerontopsiquiatria
Associação Portuguesa de Psicogerontologia
Sociedad Española de Psicogeriatría
Taiwanese Society of Geriatric Psychiatry
The Dementia Association (Thailand)
Thai Society for Geriatric Psychiatry and Neuropsychiatry

IPA ... Better Mental Health for Older People

Scope and contributions

International Psychogeriatrics is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to *International Psychogeriatrics* are spontaneously written and submitted by authors. Papers are reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about half of the papers submitted are accepted for publication. The journal's Science Citation Index impact factor is 2.24 (2011). Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. *International Psychogeriatrics* uses the spelling of American English. Manuscripts written by those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of both native English speakers willing to check manuscripts for style prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites (journals.cambridge.org/ipg and www.ipa-online.org).

An up to date version of the journal's instructions for contributors can be found at the *International Psychogeriatrics* website journals.cambridge.org/ipg. Please read these instructions carefully before submitting articles. **Articles that are not prepared in accordance with these guidelines will be returned to authors.**

Manuscripts should be submitted online via our manuscript submission and tracking site, <<http://mc.manuscriptcentral.com/ipg>>. Full instructions for electronic submission are available directly from this site.

Important Addresses

Office of the Editor-in-Chief
Nicola T. Lautenschlager Editor-in-Chief,
