Jennifer A. Widner
**BUILDING THE
RULE OF LAW**

W. W. Norton is proud to publish Jennifer Widner's *Building the Rule of Law*, a rigorous and engaging study of the essential role an independent judiciary plays in establishing a free society. Effectively integrating the biographical and theoretical perspectives, Professor Widner recounts the career of Francis Nyalali, Chief Justice of Tanzania 1976–1999, revealing the tireless struggles and intricate politics that must carry the ideals of freedom and justice.

WOMEN AND INTERNATIONAL HUMAN RIGHTS LAW

Edited by Kelly D. Askin and Dorean M. Koenig

For in-depth coverage of gender issues in human rights law, from theory and cultural practices to legal instruments and the case law of international tribunals, this major three-volume work is without peer. More than 100 leading authorities in the field offer trenchant analyses of problems and solutions, crimes and abuses, available recourses, areas of empowerment – the entire spectrum of women's rights, discussed at a level of detail and legal awareness unavailable in any other single source.

2000. 3 volumes. Set ISBN 1-57105-094-9. \$345.00/set

A MANUAL ON INTERNATIONAL HUMANITARIAN LAW AND ARMS CONTROL AGREEMENTS

Edited by M. Cherif Bassiouni

Since the Geneva Convention of 1864, the international community has consistently shown its determination to limit the use and proliferation of weapons of war through numerous multilateral and bilateral agreements. This work is the only comprehensive one-volume source for authoritative texts of these important instruments. Each chapter includes an introductory note followed by authentic English texts of all instruments relevant to the subject of the chapter. A total of 84 documents includes arms control agreements, regional peace and security agreements, and forces reduction agreements, as well as 34 instruments controlling particular weapons.

2000. 865 pages. ISBN 1-57105-145-7 \$135.00/hardcover.

SELECTED ESSAYS ON THE CONFLICT OF LAWS

By Friedrich K. Juenger

Here is a wide-ranging collection of essays on a variety of problems posed by transactions that transcend state and national borders. The essays include a comparison of jurisdiction issues in the United States and the European Communities, opinions on forum shopping, a critique of interest analysis techniques, and a plea for a comparative approach to choice-of-law issues. Here also are invaluable studies in the extraterritorial application of United States antitrust law, recognition of foreign money judgments and divorces, and regional conventions.

2000. Approx. 300 pages. ISBN 1-57105-116-3. \$125.00/hardcover.

INTERNATIONAL CONFLICT OF LAWS FOR THE THIRD MILLENNIUM

Essays in Honor of Friedrich K. Juenger

Edited by Patrick J. Borchers and Joachim Zekoll

Few scholars have contributed more to this new and important view of conflict of laws than Professor Friedrich K. Juenger of the University of California, Davis. In this Festschrift in his honor, leading scholars from North America and Europe bring their vision and expertise to bear on this core issue of private international law. The resulting volume clearly reflects the multiple facets of a fundamental doctrine as it adapts to new and unprecedented global realities.

Methyl Bromide Phase-out Strategies: A Global Compilation of Laws and Regulations

This compilation of phase-out strategies will be a helpful resource for those countries developing action plans and implementing measures to promote the phase out of the ozone depleting pesticide

methyl bromide. It provides an overview of existing laws and regulations influencing use of methyl bromide in both developing and industrialized countries. In addition, it highlights economic incentives and voluntary programmes supporting phase out; policies acting as barriers or impediments to methyl bromide use reduction; and government-supported programmes that specifically promote alternatives to methyl bromide.

American Law of Nations

◇ US\$ 50. 150 Pages. Hardcover. Index. ISBN 1-57823-099-3

Joseph D. Becker, founding Partner of Becker, Glynn, Melamed & Muffly LLP, New York.

This work describes the peculiar way in which international law, encouraged by the Constitution, has been received into the law of the United States.

Comments on "American Law of Nations"

"...It will be an educational tool for the bar, and for the bench as well, not to speak of the law student. It is a sharp tool, because Joseph D. Becker has written a lucid book that economically addresses large as well as lesser questions. Some of those questions are complex, but Mr. Becker has the talent of the experienced practitioner of making the complex clear. In so doing, he makes a substantial contribution to the elucidation of the place of international law in the life of the United States."

PRACTICE AND PROCEDURE OF THE INTERNATIONAL CRIMINAL TRIBUNAL FOR THE FORMER YUGOSLAVIA

With Selected Materials from the International Criminal Tribunal for Rwanda
by John E. Ackerman, Eugene O'Sullivan

This volume is designed to provide a quick yet comprehensive reference to the jurisprudence of both the ICTY and to some extent, the ICTR. It goes significantly beyond the Judgements of the Tribunal into the Orders and Decisions of the Trial and Appeals Chambers. The book is organized by sections, according to each Article of the Statute and Rule of procedure and evidence. Following the text of the Article or Rule, there is a Commentary section, where appropriate and a digest of Judgements, Decisions and Orders of the Appeals Chamber and the Trial Chambers.

THE REPUBLIC OF CYPRUS

A Study In International Law
With a Foreword by
Christopher Greenwood, QC
by Kypros Chrysostomides

The island of Cyprus has been the scene of one of the most tragic conflicts in post-war Europe. Since 1974, more than a third of the island has been occupied by Turkey. Attempts to find a peaceful solution to the conflict have come and gone but the status quo, branded as unacceptable by the United Nations, has remained. An understanding of how the rule of law in international society applies to Cyprus is essential to a proper understanding of the Cyprus question. In this book, Dr. Chrysostomides offers just such an analysis, examining with great care the constitutional history of the Republic of Cyprus, the legal principles applicable to the Turkish invasion of 1974 and subsequent occupation and the substantial body of case law and State practice regarding Cyprus since that date.

REFLECTIONS ON AN INTERNATIONAL ENVIRONMENTAL COURT

by Ellen Hey

This publication explores the arguments for and against the establishment of an international environmental court, examining topics such as the definition of an international environmental dispute and the concomitant expertise required on the bench, fragmentation and its root causes, access to justice and the representation of community interests. The author argues that the establishment of an international environmental court is not the most desirable option and she suggests that it might be more fruitful if we consider developments in environmental law, as well as in other relevant areas of international law, from a different perspective, namely, that of administrative law and reassess the relationship between international and national law.

ICT LAW AND INTERNATIONALISATION

A Survey of Government Views

edited by Bert-Jaap Koops, Corien Prins,
Hielke Hijmans

Legal problems abound in the information society. Electronic commerce, copyright, privacy, illegal and harmful content, taxes, wiretapping governments face an enormous challenge to meet the advent of the Internet and ICT with a flexible, up-to-date, and adequate legal framework. Yet one aspect makes this challenge even more daunting: internationalisation. This book presents the positions on these issues of the governments of the Netherlands, Germany, France, the UK, and the US, as well as of international organisations. Any legal framework that is to fit the global information society must take into account internationalisation. This volume shows to what extent governments are meeting this challenge.

KLUWER LAW INTERNATIONAL

THE ASYLUM ACQUIS HANDBOOK *The Foundation for a Common European Asylum Policy*

edited by Peter J. van Krieken

The Asylum Acquis Handbook is a unique and comprehensive tool for those who have a sincere interest in contributing to a sound, common European asylum policy. Asylum has always been an intensively debated topic, and these days even more so than in the recent past. Virtually everyone has an opinion on the subject and the general consensus is that the European Union should strive for a common asylum policy. Yet, basic information is lacking: while there is talk on an 'acquis,' talk on 'communitarization,' the various discussions, so far, miss the firm foundation on which to build the common European asylum house. It seeks to fill this gap and serves as an important reference book with in-depth information on asylum-related topics.

REPORTS OF JUDGMENTS, ADVISORY OPINIONS AND ORDERS/RECUEIL DES ARRETS, AVIS CONSULTATIFS ET ORDONNANCE

*edited by International Tribunal for the Law
of the Sea*

This annual volume contains, in both English and French texts, the Judgments and Orders delivered by the Tribunal in the previous year. The Tribunal is a central forum for the settlement of disputes relating to the interpretation and application of the United Nations Convention on the Law of the Sea under the comprehensive system for the settlement of disputes established by the Convention. The Tribunal has exclusive and binding jurisdiction in certain instances. The Tribunal's Seabed Disputes Chamber has compulsory jurisdiction over conflicts concerning seabed activities. The Tribunal is open to States, international organizations and other entities.

INTERNATIONAL LAW AND SELF-DETERMINATION

The Interplay of the Politics of Territorial Possession with Formulations of Post- Colonial 'National' Identity

by Joshua Castellino

The principle of self-determination has at heart the achievement of true representation and democracy based on the idea that the consent of the governed alone can give government legitimacy. Being a vital principle, especially in the post-colonial state, it is one factor that represents a threat to world order while at the same time holding out the promise of longer-term peace and security based on values of democracy, equity and justice. This book looks at the intricacies of the norm in its current ambiguous manifestation and seeks to deconstruct it with regard to three particularly inter-related discourses: that of minority rights, statehood and sovereignty, and the doctrine of *uti possidetis* which shaped the modern post-colonial state.

THE LAW AND PRACTICE OF THE UNITED NATIONS

Second Revised Edition

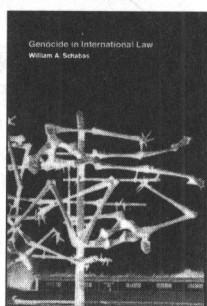

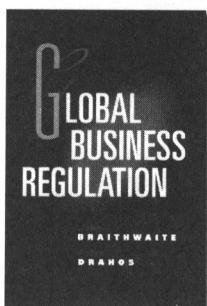

by Benedetto Conforti

The latest edition of this work provides a comprehensive legal analysis of problems concerning membership, the structure of U.N. organs, their functions and their acts taking into consideration the text of the Charter, its historical origins, and, particularly, the practice of the organs. This legal analysis, which is free of dogmatism and firmly linked to practice, describes the role played by the United Nations in the past and at present better than many lengthy and inconclusive political or sociological studies. It is very much focused on the Charter as it stands and only marginally deals with reforms that might be introduced, such as those concerning the structure of the Security Council and the General Assembly.
