Special sales and supplements

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Sarah Maddox at Cambridge University Press for further details (email: smaddox@cambridge.org).

Subscription information

Public Health Nutrition is an international journal published 18 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

Annual subscription rates

Volume 23, 2020 (18 issues):
Internet/print package: £1391/\$2669 Americas only/€2230 EU only
Internet only: £1007/\$1911 Americas only/€1601 EU only

Any supplements to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

Advertising: The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and which are not, and will not be obliged to give reasons to prospective

advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

Back volumes will be available in due course. Please contact Cambridge University Press for further information.

US POSTMASTERS: Please send address corrections to Cambridge University Press
1 Liberty Plaza
Floor 20, New York
NY 10006
USA

Notes for Authors are available from the publisher at the given address and can be found inside the back cover.

Offprints: The author (or main author) of an accepted paper will receive a free PDF of their paper. Additional offprints are available for a fee and must be ordered at proof stage. **No page charges are levied by this journal.**

Copyright: As of 1 January 2001 the copyright of all articles submitted to *Public Health Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Editorial Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London, W6 7NJ, UK.

Disclaimer: The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

Public Health Nutrition is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS[®], Global Health, Index Medicus[®] (MEDLINE[®]), EMBASE, Excerpta Medica, BIOSIS[®] Database and CINAHL[®] Database
Public Health Nutrition participates in the following initiatives: HINARI by WHO and AGORA by FAO.

Public Health Nutrition (PHN) provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, not including the abstract, references, tables, figures and acknowledgements.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

Submission: PHN operates an online submission and reviewing system. All manuscripts should be submitted to <http://mc.manuscriptcentral.com/phnutr>. Please contact the Editorial Office on phn.edoffice@cambridge.org regarding any other types of submission.

Refereeing: Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

Copyright: At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

Preparation of manuscripts: Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

Disclosure of financial support and any competing interests.

The submission must include a statement within an Acknowledgements section reporting any competing interests (financial and non-financial), all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so. All submissions must include a statement that the research was conducted in accordance with guidelines laid down by the Declaration of Helsinki and approved by an ethics review committee.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

Proofs: Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

Offprints: The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

Monitoring and surveillance

Increase of breast-feeding in the past decade in Greece, but still low uptake: cross-sectional studies in 2007 and 2017
Zoi Iliodromiti, Irini Zografaki, Dimitris Papamichail, Theodora Stavrou, Eleni Gaki, Chryssa Ekizoglou, Eleni Nteka, Panagiota Mavrika, Spilios Zidropoulos, Takis Panagiotopoulos and Ioanna Antoniadou 961

Assessment and methodology

Models of hydration and nutrition require environmental data
Colleen X Muñoz and Michael Winerger 971

Whole-blood PUFA and associations with markers of nutritional and health status in acutely malnourished children in Cambodia
Sanne Sigh, Lotte Lauritzen, Frank T Wieringa, Arnaud Lailou, Chhoun Chamnan, Nheb Angkeabos, Duch Moniboth, Jacques Berger, Ken D Stark and Nanna Roos 974

Behavioural nutrition

Young adult nutrition and weight correlates of picky eating during childhood
Megan H Pesch, Katherine W Bauer, Mary J Christoph, Nicole Larson and Dianne Neumark-Sztainer 987

Social-ecological influences on unhealthy dietary behaviours among Moroccan adolescents: a mixed-methods study
Abdelghaffar El-Ammani, Hicham El Kazdoui, Siham Bouftini, Samira El Fakir and Youness El Achhab 996

Nutritional epidemiology

Analysis of dietary patterns and cross-sectional and longitudinal associations with hypertension, high BMI and type 2 diabetes in Peru
Carmelia Alae-Carew, Pauline Scheelbeek, Rodrigo M Carrillo-Larco, Antonio Bernabé-Ortiz, William Checkley and J Jaime Miranda 1009

Greater adherence to a Mediterranean-like diet is associated with later breast development and menarche in peripubertal girls
Elizabeth A Szamreta, Bo Qin, Zorimar Rivera-Núñez, Niyati Parekh, Emily S Barrett, Jeanne Ferrante, Yong Lin and Elisa V Bandera 1020

Characterizing energy intake misreporting and its effects on intake estimations, in the Portuguese adult population
Vânia Magalhães, Milton Severo, Duarte Torres, Elisabete Ramos and Carla Lopes, by IAN-AF Consortium 1031

The consumption of ultra-processed foods according to eating out occasions
Giovanna Calixto Andrade, Maria Fernanda Gombi-Vaca, Maria Laura da Costa Louzada, Catarina Machado Azeredo and Renata Bertazzi Levy 1041

Green tea and coffee intake and risk of cognitive decline in older adults: the National Institute for Longevity Sciences, Longitudinal Study of Aging
Yoshiro Shirai, Kiyonori Kuriki, Rei Otsuka, Yuki Kato, Yukiko Nishita, Chikako Tange, Makiko Tomida, Tomoko Imai, Fujiko Ando and Hiroshi Shimokata 1049

Association between dietary patterns and chronic kidney disease in a middle-aged Chinese population
Shan-Shan Xu, Jun Hua, Yi-Qian Huang and Long Shu 1058

High consumption of energy-dense nutrient-poor foods among low-income groups in the Mississippi Delta and Alabama
Deborah A Cohen, Laura M Bogart, Bing Han, Stephanie Williamson and Gabriela Castro 1067

Ultra-processed foods, incident overweight and obesity, and longitudinal changes in weight and waist circumference: the Brazilian Longitudinal Study of Adult Health (ELSA-Brasil)
Scheine Leite Canhada, Vivian Cristine Luft, Luana Giatti, Bruce Bartholow Duncan, Dora Chor, Maria de Jesus M da Fonseca, Sheila Maria Alvim Matos, Maria del Carmen Bisi Molina, Sandhi Maria Barreto, Renata Bertazzi Levy and Maria Inês Schmidt 1076

Inaccurate data in meta-analysis; 'A posteriori dietary patterns and metabolic syndrome in adults: a systematic review and meta-analysis of observational studies'
Roberto Fabiani, Giulia Naldini and Manuela Chiavarini 1087

Protein intake per day and at each daily meal and skeletal muscle mass declines among older community dwellers in Japan
Rei Otsuka, Yuki Kato, Chikako Tange, Yukiko Nishita, Makiko Tomida, Tomoko Imai, Fujiko Ando, Hiroshi Shimokata and Hidenori Arai 1090

Community nutrition

Sodium content of bread from bakeries in Maputo, Mozambique: trends between 2012 and 2018
Neusa Jessen, Patrícia Padrão, Olívia Pinho, Célia Novela, Pedro Moreira, Albertino Damasceno and Nuno Lunet 1098

Intake of *trans*-fats among US youth declined from 1999–2000 to 2009–2010
Brandon J Restrepo 1103

A cross-sectional study to determine the energy density and nutritional quality of primary-school children's lunchboxes
Rachel Sutherland, Nicole Nathan, Alison Brown, Serene Yoong, Renee Reynolds, Alison Walton, Lisa Janssen, Clare Desmet, Christophe Lecathelinais, Karen Gillham, Vanessa Herrmann and Luke Wolfenden 1108

Interventions

Effects of a kindergarten intervention on vegetables served and staff's food-related practices: results of a cluster randomised controlled trial – the BRA study
Anne Himberg-Sundet, Anne Lene Kristiansen, Lene Frost Andersen, Mona Bjelland and Nanna Lien 1117

Public policies

US toddler milk sales and associations with marketing practices
Yoon Y Choi, Alexis Ludwig and Jennifer L Harris 1127

The impact of replacing breakfast grains with meat/meat alternatives: an evaluation of child nutrition policy
Jennifer A Hanson, Olivia Cantrell, Paola Paez, Priscilla Brenes and Denise E Laursen 1136

Sustainability

An ethnographic study exploring factors that minimize lunch waste in Tokyo elementary schools
Betty T Izumi, Rie Akamatsu, Carmen Byker Shanks and Kahori Fujisaki 1142
