

General Notes

TEMPORAL BONE SURGICAL DISSECTION COURSE

OFFERED BY

THE DEPARTMENT OF OTOLARYNGOLOGY

THE UNIVERSITY OF MICHIGAN MEDICAL SCHOOL, ANN ARBOR, MICHIGAN

COURSE DIRECTOR: JOHN L. KEMINK, M.D.

1991: 27–31 May 7–11 October 11–15 November

Intensive one-week courses emphasize the surgical and anatomical approaches to the temporal bone, and are presented in a manner relevant for the otologic surgeon, utilizing lectures, videotapes, and dissection.

Mornings and afternoons are spent in the dissection laboratory, giving extensive drilling experience in temporal bone anatomy and surgical techniques. All instruments and high-speed handpieces will be provided.

Course fee: Physicians \$1,000 Residents \$750

COMBINED UNIVERSITY FIFTH COURSE IN ADVANCED OTOLOGY

to be held at

THE LUCAS INSTITUTE, UNIVERSITY OF BIRMINGHAM

and

BIRMINGHAM DENTAL HOSPITAL

between

22 and 27 September, 1991

This course covers all aspects of advanced otological practice and includes a strong Faculty, generous time for practical procedures, symposia and discussion, covering chronic ear disease, vertigo, stapes surgery, implants, tumours and facial nerve surgery. There will be a social programme.

Cost is £708.00 including all meals, accommodation and instruction.

Further details are available from:

The Postgraduate Centre
Dudley Road Hospital
Dudley Road
Birmingham B18 7QH
Telephone Number: 021-554 3801, Ext: 4489

THE FERENS INSTITUTE OF OTOLARYNGOLOGY

University College and Middlesex School of Medicine
University College London

SPASTIC DYSPHONIA

1st European Conference July 24th & 25th, 1991

International Faculty

Subjects include:

Historical and Genetic Aspects
Medical and Imaging Investigations
Surgical and Medical Treatment
Voice Therapy Techniques
Laryngeal electromyography (E.M.G.)

The Structure and Biochemistry of Botulinum Toxin and its application to head and neck conditions, especially in Spastic Dysphonia, will be the main theme of this Conference

Fees:

Physicians and Surgeons: £125 Speech Therapists/Pathologists: £60

(cheques payable to *U.C.L. Refreshments & light lunch included*)

Low cost accommodation available

For further information please apply to:

Dr Andrew Blitzer MD, Columbia University Department of Otolaryngology,
630 W 168th Street, New York, NY 10032-3702

or

Mr D Garfield Davies FRCS, Ferens Institute of Otolaryngology, Middlesex Hospital,
Cleveland Street, London W15 5FD, UK

Fax Number: London 71 486 3782

SECOND MEDICOLEGAL CONFERENCE IN OTOLARYNGOLOGY AND OPHTHALMOLOGY

University of Durham 11th-13th September 1991

This residential conference is intended for those pursuing a career in otolaryngology or ophthalmology. All aspects of medical law relating to these specialties will be covered, including consent, NHS Indemnity, Pitfalls in surgical practice, criminal litigation against a doctor, disciplinary matters involving the GMC, the Royal Colleges and the NHS.

Course Fee: £365 or less.

Course Organisers: Maurice Hawthorne, David Smerdon, Bartley McNeela.

Further information from:

Mrs Janet Pye,
Research Secretary/Assistant,
ENTER,
North Riding Infirmary,
Middlesbrough,
Cleveland TS1 5JE.
Fax/Tel: 0642 231154.

SEVENTH ASIA-OCEANIA CONGRESS OF
OTORHINOLARYNGOLOGICAL SOCIETIES

2-5 December 1991

Sponsors

The Hong Kong Otorhinolaryngological Society
The Asia-Oceania Association of Otorhinolaryngological Societies
International Federation of Oto-rhino-laryngological Societies

Patron

His Excellency the Governor of Hong Kong, Sir David Wilson, K.C.M.G.

President

George Choa

Organising Committee

Chairman

C. Andrew Van Hasselt

Secretary

Buddy Y. K. Wong

I am interested in attending the Seventh Asia-Oceania Congress of Otorhinolaryngological Societies.

Please send further details to: Prof. Dr. Mr Mrs Miss Ms

NAMES: (Family name) (Given name)

ADDRESS: COUNTRY:

..... TELEPHONE:

..... FAX:

I am interested in (please tick the appropriate boxes)

1 Attending the Congress

2 Exhibiting at the Trade Exhibition

To: The Seventh Asia-Oceania Congress of Otorhinolaryngological Societies

Secretariat Office: International Conference Consultants Limited

1/F., 57 Wyndham Street, Central, Hong Kong.

1. TEMPORAL BONE DISSECTION COURSES:

annually in the third week of September every year. Next course—25 September to 28 September 1991. Course fee: £40. In addition various ear operations will be demonstrated using edited video tapes.

2. ADVANCED MICRO EAR SURGERY AND TEMPORAL BONE DISSECTION COURSES:

annually in the third week of February. Next course—19 February to 22 February 1992. Course fee: £50. In addition to temporal bone dissection various micro ear surgeries will be shown live using close circuit television.

3. TEMPORAL BONE DISSECTION PRIZES (THREE):

annually; Entries should be sent before 31 January. contact Course Director: Dr K. K. Ramalingam, FRCS.

Instructions to Authors

Review Articles. Articles of this type, preferably not exceeding 3,000 words min will be considered but the author(s) are expected to be a recognised authority on the topic and have carried out work of their own in the relevant field.

Historical Articles. Articles of this type are generally encouraged, but it is obvious that they have to provide some new information or interpretation, whether it be about a well-known person or for example an instrument associated with him, but those from within a Hospital's own department who have made a hitherto less well-known contribution would be welcome.

Letters to the Editor. This feature has been re-introduced to give those who wish to comment about a paper previously published within the Journal, an opportunity to express their views. Wherever possible, the original author is asked to add his further comment, thereby adding to the value of the contribution. Such letters should be sent as soon as possible after publication of each month's issue of the Journal in the hope of including them early thereafter.

'Mini-papers, such as those which appear in the British Medical Journal, Lancet, or New England Journal of Medicine, will not be acceptable except on the rare occasion that they bring information of immediate interest to the reader.

Pathology. Articles which are of pathological interest with particular emphasis on the way the diagnosis was achieved now appear on a monthly or bi-monthly basis. It is hoped that clinicians will involve their pathologists in these reports, and all illustrations must be of first-class quality. Where a department, particularly those overseas, may not have such specialized facilities, it may be possible, if a block or several unstained sections are provided for our Adviser to produce or supplement the illustration submitted. Only contributions of particular pathological interest will be accepted.

Radiology. Short reports on cases in which the radiology has been crucial in the making of the diagnosis or the management of a particular case now appear on a monthly or bi-monthly basis. This spot is to encourage clinicians and radiologists to produce material of particular interest in the specialty and to encourage co-operation in this field. Only presentations with first-class illustrations can be accepted and these must emphasise a problem of unusual clinical interest.

Short Communications. This feature will be used on an occasional basis. Examples of material suitable for inclusion under this title would be, for example: a piece of work which was of clinical interest but had failed to produce findings which were of statistical significance; where an investigative technique has been applied to an allied field, not warranting a further in-depth description of its earlier application and methodology.

'**Silence in Court**'. Articles on medicolegal topics are welcome but a preliminary letter written beforehand is requested to ensure that the contribution would be appropriate.

View from Abroad. Short reports by those have been to meetings or trained in part overseas are welcome. They should be both informative and critical but also entertaining.

Check List for Authors/Secretaries

1. Title page—Titles should be short with names of the authors, higher degrees only and the city/country. Details of the departments in which the authors work should be put lower down.
An address for correspondence should be supplied together with the author who should receive this and this will ultimately appear beneath the list of references. If the paper was presented at a meeting, the details of this must be given and will be inserted at the bottom of the first page of the printed script.
2. Abstract—No paper will be accepted without this and it adds considerably to the Editor's time to have to write and request this if the paper is accepted.
3. Key Words—only those appearing as Medical Subject Headings (MeSH) in the supplement to the Index Medicus may be used; whereas appropriate word(s) are listed those dictated by common sense/usage should be supplied.
4. To follow the instructions to Authors with the way in which the paper is set out. It is preferred that each section should start on a fresh page with double spacing and wide margins.
5. References must be in the Harvard system; to submit a paper using the Vancouver system is automatically to have it returned or rejected.
6. *Two* sets of illustrations must be included, one of half-plate size and the other with the width of 80 mm. Illustrations must be clearly labelled with the author's name on the reverse side and where appropriate with an arrow to give orientation.
7. Authors to check manuscript and references to see that these match up particularly for dates and spelling.
8. Title of Journals must be given in full with the date, volume number and first and *last* pages.
9. Consent to be obtained from a patient if a photograph of their face is to be reproduced.
10. If the author to whom correspondence is to be directed changes his address, he should let the Editorial Office know as soon as possible.
11. Page proofs will normally be sent out three months in advance and must be returned as soon as possible.
12. Authors should provide a Facsimile number (FAX) whenever possible to speed communication. The FAX number of the Editorial office is 071-224 1645.
13. Manuscripts with tables only may be transmitted by FAX; those with graphic or visual illustrations, e.g. graphs, X-rays, pathology, electrical records (ENG, BSER etc) must continue to be sent by post as the quality of reproduction does not give sufficient accuracy of detail.
