

Standard Culture Media

EVANS

BACTERIOLOGICAL

PEPTONE

Standard culture media are of importance where, as for instance in the assay of Penicillin★, uniformity in bacterial growth is essential. Bacteriological Peptone (Evans) provides a reliable basis for the preparation of such culture media.

The Journal of Hygiene is now issued irregularly. A volume is issued in paper covers at the following net prices:

Volumes I-III (1901-3). 17s. 6d. net per volume.

Volumes IV-XVI (1904-18), *excepting* Vol. VI, no. 4, Plague number. 25s. net per volume

Volume XVII (1918). 31s. net.

Volumes XVIII-XXXI (1919-31). 42s. net per volume.

Volumes XXXII-XXXVII (1932-37). 47s. 6d. net per volume.

Volumes XXXVIII-XLII (1938-42). 75s. net per volume.

Quotations can be given for buckram binding cases, also for bound copies of back volumes.

Papers for publication should be sent to Dr G. S. GRAHAM-SMITH, Dept. of Pathology, Tennis Court Road, Cambridge. Other communications should be addressed to the University Press, Cambridge.

Papers forwarded to the Editor for publication are understood to be offered to *The Journal of Hygiene* alone, unless the contrary is stated.

Contributors receive twenty copies of their papers free. Twenty-five additional copies may be had at cost price: these should be ordered when the final proof is returned.

The subscription price is £3. 15s. 0d. per volume (post-free), payable in advance; single numbers 20s. net. Subscriptions may be sent to any Bookseller, or to The Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1.

The Cambridge University Press has appointed the University of Chicago Press agents for the sale of *The Journal of Hygiene* in the United States of America.
