

## GENERAL INFORMATION

<https://www.cambridge.org/core/journals/canadian-journal-of-mathematics/information>

The CMS publishes two research journals: the Canadian Journal of Mathematics (CJM) for longer papers, and the Canadian Mathematical Bulletin (CMB) for shorter papers. To be submitted to CJM, papers should be at least 18 pages long. Shorter papers should be submitted to the CMB. All submitted papers are considered subject to the understanding that they have not been published and that they are not being considered for publication elsewhere. To be accepted, papers must treat new mathematical research, be well written, and be of interest to a significant segment of the mathematical community. Papers may be written in English or French. Manuscripts must be prepared in accordance with the instructions for authors provided at <https://www.cambridge.org/core/journals/canadian-journal-of-mathematics/information/information-for-author>

## SUBSCRIPTION INFORMATION

Subscription rates can be found at <https://www.cambridge.org/core/journals/canadian-journal-of-mathematics/subscribe>

Members of the CMS are entitled to a reduced subscription rate. For more information, please contact the CMS at [memberships@cms.math.ca](mailto:memberships@cms.math.ca).

CANADIAN JOURNAL OF MATHEMATICS (USPS # 010-741) is published 6 times per year, bimonthly (February, April, June, August, October, December). Published by Cambridge University Press, One Liberty Plaza, New York, NY 10006 on behalf of the Canadian Mathematical Society. US Mailing Agent: Sheridan Press, 450 Fame Ave., Hanover, PA 17331 USA.

Periodicals postage paid at New York, NY and at additional mailing offices.

US POSTMASTER: Send address changes to Journals Fulfillment Department, Cambridge University Press, One Liberty Plaza, New York, NY 10006.

## RENSEIGNEMENTS GÉNÉRAUX

<https://www.cambridge.org/core/journals/canadian-journal-of-mathematics/information>

La SMC publie deux revues de recherche : le Journal canadien de mathématiques (JCM) qui présente des articles longs et le Bulletin canadien de mathématiques (BCM) des articles plus courts. Les articles destinés au JCM doivent compter au moins 18 pages. Les articles plus courts doivent être acheminés au BCM. Il est entendu que les articles présentés pour publication sont inédits et qu'ils ne sont pas à l'étude pour publication dans d'autres revues. Un article accepté porte sur des recherches récentes, est bien rédigé et s'avère susceptible d'intéresser bon nombre de mathématiciens. Nous acceptons les articles rédigés en langues anglaise ou française. Les articles doivent répondre aux conventions énoncés pour les auteurs au <https://www.cambridge.org/core/journals/canadian-journal-of-mathematics/information/information-for-author>

## ABONNEMENTS

Les tarifs d'abonnements sont disponibles en ligne au <https://www.cambridge.org/core/journals/canadian-journal-of-mathematics/subscribe>

Les membre de la SMC ont droits à un taux d'abonnements réduits. Pour plus amples renseignements, veuillez contacter la SMC à [adhesions@smc.math.ca](mailto:adhesions@smc.math.ca).

1	Embeddings of Müntz Spaces in $L^\infty(\mu)$	<i>Ihab Al Alam, Pascal Lefèvre</i>
11	On Deformations of 1-motives	<i>A. Bertapelle, N. Mazzari</i>
23	Squared Chromatic Number Without Claws or Large Cliques	<i>Wouter Cames van Batenburg, Ross J. Kang</i>
37	PBW Bases and Marginally Large Tableaux in Types B and C	<i>Jackson A. Criswell, Ben Salisbury, Peter Tingley</i>
55	Three Problems on Exponential Bases	<i>Laura De Carli, Alberto Mizrahi, Alexander Tepper</i>
71	Quotients of Essentially Euclidean Spaces	<i>Tadeusz Figiel, William Johnson</i>
75	Maps on Quantum States in $C^*$ -algebras Preserving von Neumann Entropy or Schatten $p$ -norm of Convex Combinations	<i>Marcell Gaál</i>
81	Factorization Tests and Algorithms Arising from Counting Modular Forms and Automorphic Representations	<i>Miao Gu, Greg Martin</i>
99	$\mathbb{C}^p$ -parametrization in O-minimal Structures	<i>Beata Kocel-Cynk, Wiesław Pawłucki, Anna Valette</i>
109	Irregular Weight One Points with $D_4$ Image	<i>Hao Lee</i>
119	Finsler Warped Product Metrics of Douglas Type	<i>Huaifu Liu, Xiaohuan Mo</i>
131	Injectivity of the Connecting Homomorphisms in Inductive Limits of Elliott-Thomsen Algebras	<i>Zhichao Liu</i>
149	One Level Density for Cubic Galois Number Fields	<i>Patrick Meisner</i>
169	The Hermite–Joubert Problem and a Conjecture of Brassil and Reichstein	<i>Khoa Dang Nguyen</i>
179	On a Property of Real Plane Curves of Even Degree	<i>Zinovy B. Reichstein</i>
183	Generalizing Hopf’s Boundary Point Lemma	<i>Leobardo Rosales</i>
199	Merge Decompositions, Two-sided Krohn–Rhodes, and Aperiodic Pointlikes	<i>Samuel J. van Gool, Benjamin Steinberg</i>
209	On Motivic Realizations of the Canonical Hermitian Variations of Hodge Structure of Calabi–Yau Type over type $D^{\text{II}}$ Domains	<i>Zheng Zhang</i>
