# NEW CDC GUIDELINES FOR **TARGETED** TB TESTING

## GUIDELINE HIGHLIGHTS

The **T-SPOT®.TB** test may now be used in place of the tuberculin skin test (TST) in all situations in which the CDC recommends tuberculin skin testing.<sup>1</sup>

### **Targeted Testing Specific Recommendations:**

- ▶ “An IGRA is **preferred** for testing persons who have received BCG.”<sup>1</sup>
- ▶ “An IGRA is **preferred** for testing persons from groups that historically have low rates of returning to have TSTs read.”<sup>1</sup>

### **Are you challenged by:**

- BCG vaccinated individuals?
- Two-step new hire testing?
- TST non-returners?
- TST reliability?

Eliminate these headaches  
with a new, **SIMPLE** solution.

## American Journal of Infection Control

EDITOR: **Elaine L. Larson, RN, PhD, FAAN, CIC**

**AJIC** covers key topics and issues in infection control and epidemiology. Infection control professionals, including physicians, nurses, and epidemiologists, rely on **AJIC** for peer-reviewed articles covering clinical topics as well as original research. As the official publication of the *Association for Professionals in Infection Control and Epidemiology, Inc. (APIC)*, **AJIC** is the foremost resource on infection control, epidemiology, infectious diseases, quality management, occupational health, and disease prevention. **AJIC** also publishes relevant infection control guidelines. **AJIC** is included in Index Medicus and CINAHL.

## Clinical Governance

*An International Journal*

*Clinical Governance: An International Journal* aims to address the doubts, queries, triumphs and practical applications of introducing quality assurance mechanisms into the delivery of care.

The journal takes an international stance and covers key developments worldwide which can inform best practice in health care. Efficiency, effectiveness and economics are the main factors in the assessment of best practice and all are addressed in the research- audit- and evidence-based papers published. All papers are peer reviewed to ensure their validity and value to current debates.

### The journal publishes:

- Research articles which illustrate clear implications for practice
- Results-focused case studies which discuss problems and successes in clinical governance techniques
- Special issues on topical themes
