A BLACK BYZANTIUM

The Kingdom of Nupe in Nigeria

By S. F. NADEL. 25s. net

The West African society dealt with in this book is half a million strong. It is far from being either 'simple' or 'primitive'. Its social and economic complexity is comparable only with the civilization of Imperial Rome, Byzantium, or Medieval Europe. But very few historical records exist; the people of Nupe have not yet risen to the stage of education which can produce written records of important events or institutions.

The book contains maps and illustrations.
