The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

Edited by NEIL WEIR

Assistant Editors CAROL WENGRAF, RICHARD RAMSDEN, PETER RHÛS EVANS,
DAVID PROOPS, VALERIE LUND, HENRY GRANT, ANDREW JONES, GUY KENYON &
MICHAEL ROTHERA

Production Editors GILLIAN GOLDFARB & INGA MCKENZIE

INSTRUCTIONS FOR AUTHORS

1. Original articles which have not been published elsewhere are invited and should be sent to the Editor. They are considered for publication on the understanding that they are contributed to this *Journal* solely. Reproduction elsewhere, in whole or in part, is not permitted without the previous written consent of the Author and Editor and the customary acknowledgement must be made. Normally an original main article should not exceed 7500 words.

Longer articles or theses will be considered for publication as *Supplements*, at the expense of the authors or their employing authorities.

2. Manuscripts should be **typewritten in duplicate** on one side of the paper only (A4 297x210 mm) and double spaced, with wide margins.

Begin each component on a new page in the following sequence: title page, abstract, text, acknowledgements, references, tables and legends.

(a) **Abstract**—This should contain not more than 150 words and include a statement of the problem, the method of study, results and conclusions; a 'summary' section should **not** be included in the main manuscript.

(b) **Key Words**—only those appearing as Medical Subject Headings (MeSH) in the supplement to the Index Medicus may be used; where no appropriate word(s) are listed those dictated by common sense/usage should be supplied.

(c) **Text**—Suggested outline—(1) introduction, (2) materials and methods, (3) results, (4) discussion, (5) conclusion.

(d) **Tables** are adjuncts to the text and should not repeat material already presented.

(e) **Illustrations**—Two sets of illustrations, one with each copy of the manuscript, must be submitted and all authors should remember that the single column width is 80mm. One set of illustrations should, therefore, not exceed this width and they should ensure that the essential features are illustrated within this dimension.

Coloured illustrations will be charged to authors, unless a special grant is authorized by the Editor.

Written permission from the publisher must be provided to the *Journal* in order to republish material with copyright elsewhere and also from the senior author where necessary.

(f) **Measurements** must be in metric units, with *Système Internationale* (SI) equivalents given in parentheses.

(g) **References**—For *Journal* articles, The Harvard system of recording references should be used, e.g. Green, C. and Brown, D. (1951) The tonsil problem. *Journal of Laryngology and Otology* 65: 33–38. A paper written by more than two authors should be abbreviated in the text, e.g. Green *et al.* (1951), but **all** the authors should be given in the list of references. The titles of all Journals should be given without abbreviation. **References should be listed in alphabetical order**; use of the Vancouver system will **not** be accepted.

For single-author books, the following style should be used: Green, C. (1951) *The tonsil problem*, 2nd Edition, vol. 1, Headley Brothers Ltd., Ashford, Kent, pp 33–38.

For papers in multi-author books with one or more editors, the reference should include the title of the chapter and the names of the editors, together with the number of the edition as eg: Brown, D. (1951) Examination of the ear. In *Diseases of the Ear, Nose and Throat*. 2nd Edition. (White, A., Black, B., eds.), Headley Brothers Ltd, Ashford, Kent, pp 33–38.

It is most important that authors should verify personally the accuracy of every reference before submitting a paper for publication. The names of authors cited in the References should be given in alphabetical order.

(h) **Drugs**—The proper names of drugs must be used. One reference can be made to the brand name if it is felt to be important to the study.

(i) **Meetings**—If the manuscript was presented at a meeting, the place where it was held, and the date on which it was read must be included and should appear at the foot of the title page.

(j) **Financial disclosures**—In the submission letter to the Editor, the authors must list all affiliations with or financial involvement in, organizations or entities with a direct financial interest in the subject matter or material of the research discussed in the manuscript.

(k) **Declaration**. Each manuscript must be accompanied by a letter of declaration to be signed by each author to confirm that they have seen, read and approve the contribution bearing their name.

(l) **Rejections**—All manuscripts which are rejected will no longer be returned to the authors. Those submitting papers should, therefore, ensure that they retain at least one copy and the reference numbers, if any, of the illustrations. The only exception to this will be those manuscripts with colour illustrations which will be returned *automatically* by Surface Mail.

(m) **Facsimile (FAX)**. All authors should send a Facsimile number whenever possible to speed communication; this particularly applies to those outside the United Kingdom. Manuscripts with no visual illustrations (X-rays/pathology) may be sent by facsimile.

3. Page proofs are sent to authors for corrections, which should be kept to a minimum; they must be clearly marked, and no extra matter added. Proofs should be returned within 5 days.

4. Orders for reprints must be sent when returning page proofs, and for this purpose special forms are supplied.

5. Editorial communications may be addressed to **The Editor, Journal of Laryngology and Otology, c/o Headley Brothers Ltd., The Invicta Press, Ashford, Kent TN24 8BH or sent by FAX (0483 451874).**

6. **The annual subscription is £95.00 Institutions & Libraries US\$190.00; £85.00 Individuals US\$170.00; £45.00 Registrars, Residents and Interns.** (Those in training should submit a certificate from The Head of the Department giving details of their appointment; those who qualify must supply their *home* address for mailing direct). Claims to be made for missing issues within 6 months of each publication date.

7. Single copies of current or back numbers (when available) will be on sale at £12.00 each (including postage).

8. **SUPPLEMENTS** published at 'irregular' intervals with subscription, available separately on request.

9. All subscriptions, advertising and business communications should be sent to the publishers, or subscription agents.

THE NINTH BRITISH ACADEMIC CONFERENCE IN OTOLARYNGOLOGY

Manchester 9 – 14th July 1995

Master : Mr Andrew W Morrison, FRCS

The next conference will be held in the University of Manchester Institute of Science and Technology. Distinguished invited international contributors will present and discuss recent developments in otolaryngology, head and neck surgery. Main topic sessions will include :

- Sensorineural deafness
- Controversies in Head and Neck Surgery
- Otitis media with effusion
- Skull base surgery
- Controversies in Otolaryngology
- ORS main topic session
- Chronic rhinosinusitis
- Facial plastic surgery
- Controversies in Rhinology
- Phoniatics and voice surgery
- Carcinoma of the larynx
- Facial palsy

Instructional Sessions will be held in small seminar groups, and there will be six Mini-Symposia :

- Allergy
- Cochlear and osseointegrated implants
- Molecular biology and ENT
- Education and training in ENT
- Swallowing, aspiration and dysphagia
- Electrophysiology in ENT

There will be temporal bone dissection demonstrations, a continuous programme of video films, and both Scientific and Trade Exhibitions, together with a full social programme for delegates and spouses. Further details and a copy of the Preliminary Notes may be obtained from the Conference Secretary :

J.L.O. (1984) LIMITED

Company limited by Guarantee

Reg No: 1865175 England

In 1984, The Journal ceased to become a Limited Company with shareholders and instead became a registered charity under the Companies Act, limited by guarantee and without having a share capital. A Memorandum of Association was drawn up and the Association acquired the assets of the Journal of Laryngology and Otology Limited. Former shareholders were invited to become members of the Association and all those who undertook to do so, gave a Guarantee that should the association need to be wound up, they would contribute a sum not exceeding £20.

Annual General Meeting. This is normally held each year in early November, and it is to the Members of the Association that invitations are issued. Any individual paying a full subscription who would like to become a member of the Association is asked to write to the Editor, c/o Headley Brothers, confirming that he or she will make such a guarantee of £20 if the occasion were to arise. Applications for membership may be made at any time. It is hoped that more full subscribers will take up this offer and attend the Annual General Meeting so that there can be a more lively exchange of views between them, and the Editorial staff and publishers.

The Journal of Laryngology and Otology

An international journal founded in 1887.

A leading international journal, published monthly, and containing original scientific articles and clinical records in all fields of Otology, Rhinology and Laryngology.

Distributed by subscription to Surgeons, Consultants and Students throughout the United Kingdom and to many overseas countries.

VERTIGO

CONTROL

NON-SEDATIVE* CONTROL

*Aantaa E. Acta Otolaryngol (Stockh) 1991; Suppl.479: 44-47.
Presentation A white, flat round tablet imprinted '267' on one face, 'DUPHAR' on the reverse, each tablet containing 16mg betahistine dihydrochloride. Available in packs of 84 tablets. Basic NHS price £18.03. PL0512/0088.

Indications Vertigo, tinnitus and hearing loss associated with Ménière's syndrome.

Dosage and Administration Adults (including the elderly): Initially one tablet three times daily, taken preferably with meals.

Maintenance dose: 24-48mg daily. **Children:** No dosage recommendations are made for children.

Contra-indications, Warnings, etc. **Contra-indications:** Phaeochromocytoma. **Precautions:** Caution is advised in the treatment of patients with a history of peptic ulcer. Clinical intolerance to Serc in bronchial asthma patients has been shown in a relatively few patients and therefore caution should be exercised when administering betahistine to patients with bronchial asthma. The usual precautions should be observed when

Serc-16[®]

betahistine 16mg

FOR VERTIGO due to Ménière's syndrome

administering Serc to patients in pregnancy. **Side-effects:** Relatively few side-effects have been reported, they include gastro-intestinal upset, (including dyspepsia), headache, skin rash and pruritus.

Legal Category POM.
