# The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

A. LOGAN TURNER AND J. S. FRASER

ASSISTED BY

DOUGLAS GUTHRIE AND IRWIN MOORE

1. Original Articles are accepted on the condition that they have not been published elsewhere.
2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.
3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter should be added.
4. The order for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.
5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.
6. Editorial Communications should be addressed to "EDITORS, *Journal of Laryngology*, c/o Messrs OLIVER AND BOYD, Tweeddale Court, Edinburgh."
7. The Annual Subscription is Forty Shillings, post free, and is payable in advance.
8. Single copies of back numbers, both of the present and the previous series, are on sale at Four Shillings each.
9. An Annual Subscription can be commenced with any number of the Journal, and the preceding numbers of the current year can be purchased at Four Shillings each.

## UNITED STATES OF AMERICA

Orders for this Journal, for single parts or yearly subscriptions, can be sent either through a local bookseller, or to Messrs G. E. STECHERT & CO., 31-33 East 10th Street, New York.

*Lecturers on Diseases of the Ear, Nose, and Throat, University of Edinburgh*

*and*

**DOUGLAS GUTHRIE, M.D., F.R.C.S. (Ed.)**

*Lecturer on Diseases of the Ear, Nose, and Throat, School of Medicine of the Royal Colleges, Edinburgh*

FOR a number of years, the volume on *Diseases of the Throat, Nose, and Ear*, written by the late Dr W. G. PORTER, supplied a much-felt want, and the fact that it passed through three editions in a comparatively short space of time, was sufficient testimony of its popularity.

Seven years have now elapsed since Dr Porter fell in the service of his country, and the present volume, dedicated to his memory, is produced as the joint work of those engaged in the teaching and practice of the speciality in the Edinburgh Medical School.

While the writers have endeavoured to preserve the main object underlying Dr Porter's original book, the subject matter has been expanded along new lines, which may be justly regarded as increasing the usefulness of the volume. For this purpose, an illustrated description of the clinical anatomy of the various regions has been introduced. A further addition will be found in the detailed account given of many of the minor and major operations. A section on Endoscopy has also been added.

A special feature has been made of the illustrations, and no trouble has been spared to make these at once informative and exhaustive. It has been found necessary to almost treble them in number. Student and Practitioner alike should find it a practical, comprehensive, and up-to-date guide.
