

British Journal of Nutrition

Published online by Cambridge University Press

BJN An International Journal of Nutritional Science

Volume 102 Number 2 28 July 2009

Published on behalf of The Nutrition Society by Cambridge University Press

ISSN 0007-1145

Aims and Scope

The *British Journal of Nutrition* is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Journal recognizes the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialities involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The *British Journal of Nutrition* is published twice monthly by Cambridge University Press on behalf of The Nutrition Society.

The *British Journal of Nutrition* is available online to subscribers at journals.cambridge.org/bjn

Tables of contents and abstracts are available free at the same website.

Editor-in-Chief

P C Calder, *School of Medicine, University of Southampton, Southampton, UK*

Deputy Editors

F Bellisle, *INRA, University of Paris, Bobigny, France*

D R Jacobs Jr, *School of Public Health, University of Minnesota, Minneapolis, MN, USA*

R J Wallace, *Gut Health Programme, Rowett Research Institute, Aberdeen, UK*

S J Whiting, *College of Pharmacy and Nutrition, University of Saskatchewan, Saskatoon, Sask., Canada*

Reviews Editor

J C Mathers, *School of Clinical Medical Sciences, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Supplements Editor

C Seal, *School of Agriculture, Food and Rural Development, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Book Reviews Editor

O B Kennedy, *School of Food Biosciences, University of Reading, Reading, UK*

The Nutrition Society has as its objective the advancement of the scientific study of nutrition and its applications to the maintenance of human and animal health.

Application of membership is invited from anyone whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, and whether experimental, clinical, agricultural or statistical in nature. There is also a student membership scheme with reduced subscriptions.

Particulars of The Nutrition Society and application forms for membership are available from The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, London W6 7NJ, UK. Tel: +44 (0)20 7602 0228, Fax: +44 (0)20 7602 1756, Email: office@nutsoc.org.uk

Contents

Systematic Review

- Not all cases of neural-tube defect can be prevented by increasing the intake of folic acid.
H. B. Heseker, J. B. Mason, J. Selhub, I. H. Rosenberg & P. F. Jacques 173–180

Short Communication

- Influence of long-term consumption of a *Lactococcus lactis* strain on the intestinal immunity and intestinal flora of the senescence-accelerated mouse.
H. Kimoto-Nira, K. Mizumachi, T. Okamoto, K. Sasaki & J.-i. Kurisaki 181–185
- A 12-week lutein supplementation improves visual function in Chinese people with long-term computer display light exposure.
L. Ma, X.-M. Lin, Z.-Y. Zou, X.-R. Xu, Y. Li & R. Xu 186–190
- Clinical severity scores do not predict tolerance to enteral nutrition in critically ill children.
C. Sánchez, J. López-Herce, S. Mencía, J. Urbano, A. Carrillo & J. M. Bellón 191–194
- Impact of a lignan-rich diet on adiposity and insulin sensitivity in post-menopausal women.
A.-S. Morisset, S. Lemieux, A. Veilleux, J. Bergeron, S. J. Weisnagel & A. Tchernof 195–200
- Dihydroxylated phenolic acids derived from microbial metabolism reduce lipopolysaccharide-stimulated cytokine secretion by human peripheral blood mononuclear cells.
M. Monagas, N. Khan, C. Andrés-Lacueva, M. Urpí-Sardá, M. Vázquez-Agell, R. M. Lamuela-Raventós & R. Estruch 201–206

Molecular Nutrition

- Effect of β -carotene-rich tomato lycopene β -cyclase (*tlcy-b*) on cell growth inhibition in HT-29 colon adenocarcinoma cells.
P. Palozza, D. Bellocino, R. Simone, A. Boninsegna, F. Cellini, G. Monastra & S. Gaetani 207–214

Metabolism and Metabolic Studies

- Iron bioavailability of cocoa powder as determined by the Hb regeneration efficiency method.
K. Yokoi, A. Konomi & M. Otagi 215–220
- The α -glucosidase inhibitor miglitol suppresses postprandial hyperglycaemia and interleukin-1 β and tumour necrosis factor- α gene expression in rat peripheral leucocytes induced by intermittent sucrose loading.
Y. Tanaka, K. Mochizuki, N. Fukaya, M. Shimada & T. Goda 221–225
- Relationship between abnormal sperm morphology induced by dietary zinc deficiency and lipid composition in testes of growing rats.
K. J. Merrells, H. Blewett, J. A. Jamieson, C. G. Taylor & M. Suh 226–232
- Impact of maternal dietary fatty acid composition on glucose and lipid metabolism in male rat offspring aged 105 d.
A. Ibrahim, Ghafoorunissa, S. Basak & N. Z. Ehtesham 233–241
- The distribution and accumulation of fucoxanthin and its metabolites after oral administration in mice.
T. Hashimoto, Y. Ozaki, M. Taminato, S. K. Das, M. Mizuno, K. Yoshimura, T. Maoka & K. Kanazawa 242–248
- Clay ingestion enhances intestinal triacylglycerol hydrolysis and non-esterified fatty acid absorption.
C. Habold, F. Reichardt, Y. Le Maho, F. Angel, N. Liewig, J.-H. Lignot & H. Oudart 249–257
- Iron supplementation by intraperitoneal injection eliminates the accumulation of hepatic copper induced by excess calcium in rats.
S. Takasugi, T. Matsui & H. Yano 258–263

Nutritional Immunology

- Inhibitory effect of serotonin derivatives on high glucose-induced adhesion and migration of monocytes on human aortic endothelial cells.
R. Piga, Y. Naito, S. Kokura, O. Handa & T. Yoshikawa 264–272

Human and Clinical Nutrition

- Effects of methodological variation on assessment of riboflavin status using the erythrocyte glutathione reductase activation coefficient assay.
M. H. E. Hill, A. Bradley, S. Mushtaq, E. A. Williams & H. J. Powers 273–278

Dietary Survey and Nutritional Epidemiology

- Plasma phospholipid fatty acids and CHD in older men: Whitehall study of London civil servants.
R. Clarke, M. Shipley, J. Armitage, R. Collins & W. Harris 279–284

Fruit, vegetable and bean intake and mortality from cardiovascular disease among Japanese men and women: the JACC Study. <i>J. Nagura, H. Iso, Y. Watanabe, K. Maruyama, C. Date, H. Toyoshima, A. Yamamoto, S. Kikuchi, A. Koizumi, T. Kondo, Y. Wada, Y. Inaba, A. Tamakoshi & the JACC Study group</i>	285–292
School meals in French secondary state schools with regard to the national recommendations. <i>C. Dubuisson, S. Lioret, G. Calamassi-Tran, J.-L. Volatier & L. Lafay</i>	293–301
Energy density and 6-year anthropometric changes in a middle-aged adult cohort. <i>A.-C. Vergnaud, C. Estaquio, S. Czernichow, S. Péneau, S. Herberg, P. Galan & S. Bertrais</i>	302–309
Acute-phase response and iron status markers among pulmonary tuberculosis patients: a cross-sectional study in Mwanza, Tanzania. <i>H. Friis, N. Range, C. B. Kristensen, P. Kästel, J. Changalucha, W. Malenganisho, H. Krarup, P. Magnussen & Å. B. Andersen</i>	310–317
<i>Appetite</i>	
The effects of dietary fibre type on satiety-related hormones and voluntary food intake in dogs. <i>G. Bosch, A. Verbrugghe, M. Hesta, J. J. Holst, A. F. B. van der Poel, G. P. J. Janssens & W. H. Hendriks</i>	318–325
Book Review	326–327
