

New **Tegretol**[®] **Chewtabs**[™] (carbamazepine)

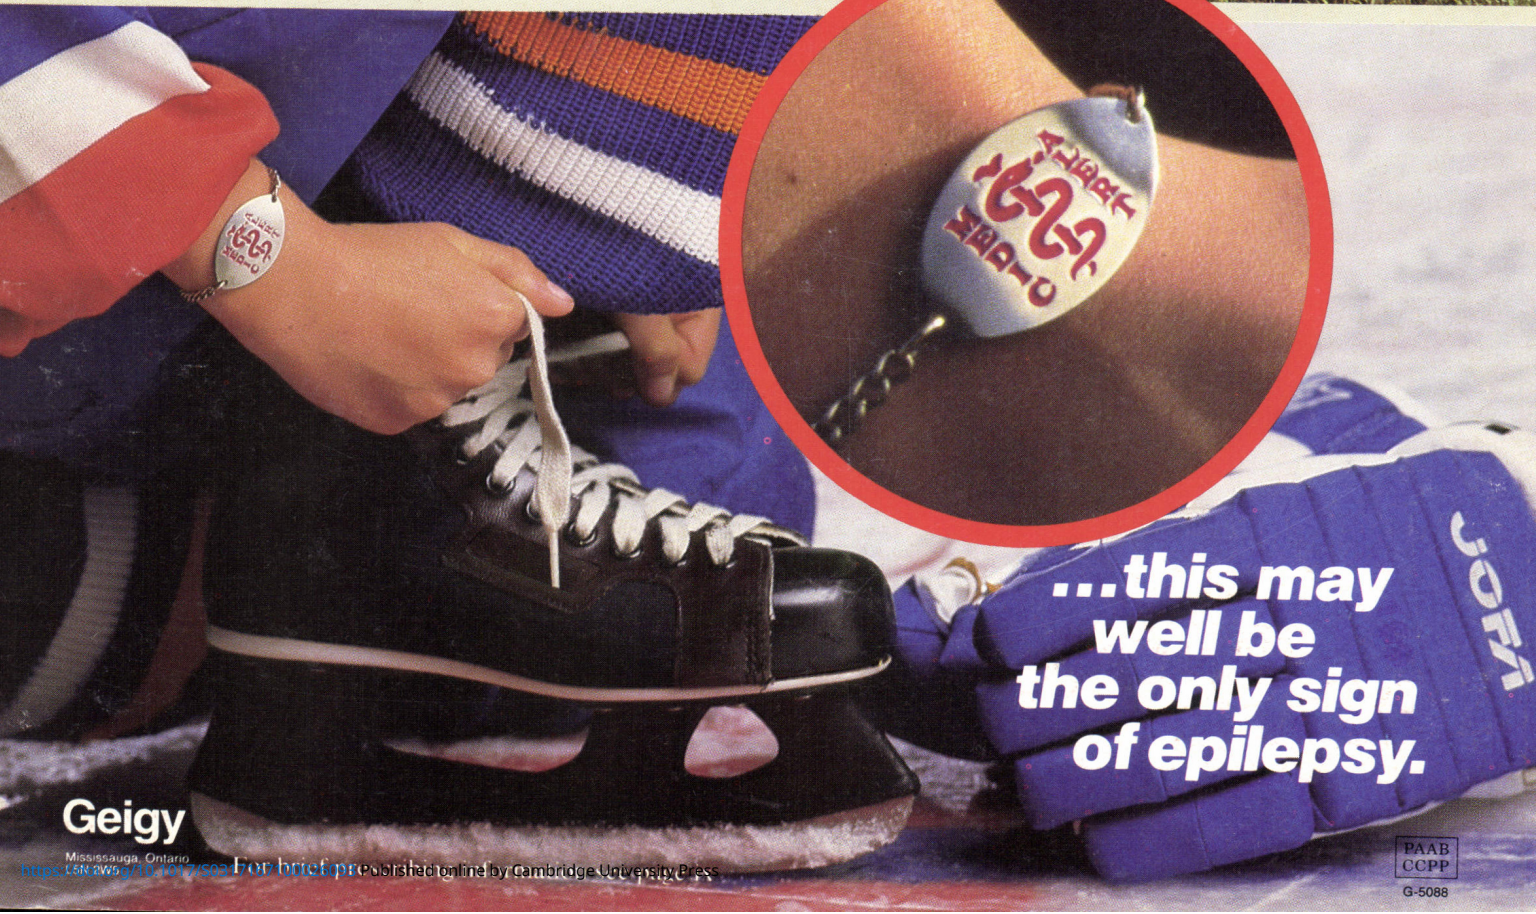

100mg and 200mg*

- the only chewable carbamazepine
- easier titration for both children and adults
- increased convenience provided by an easily administered chewable formulation
- improved compliance arising from a pleasant tasting cherry-mint flavour

Now indicated in children aged 6 years and over

**with
Tegretol
Chewtabs**

**...this may
well be
the only sign
of epilepsy.**
