H.T. Becker's work is perceptive and clear. He uses luminescent techniques that seem to spread a diffused light over the surface of the painting. This combined with the realism in which his work is created evokes a haunting quality. Mr. Becker has won numerous awards and his works are in public and private collections nationally and abroad. Editions limited to 950 signed and numbered by the artist. Printed in full color.

To order, please send your check or money order to:
First Impressions, 6900 Grove Road, Thorofare, New Jersey 08086

"Handwashing is...important...."

But people are *impossible!* Or so it seems at times.

Welcome to the Brevis *Big of the Month Club*. With a little humor and some catchy color and graphics these cards and stickers will help prod "impossible" people into using some soap and water to club the bugs into submission.

Brevis has a very complete line of isolation cards and labels and now also many other nursing signs.

B BREVIS. The first sign of good patient care.
