**A Short History
of Syriac
Christianity to the
Rise of Islam**
W. Stewart
McCullough

This book presents a short history of Syriac Christianity down to the mid-seventh century, when Islam had begun its expansion outside Arabia. The two main divisions of the subject are Syriac-speaking Christians under Roman rule, and Syriac Christians under the Parthians and Persians. As monasticism played an important role in the life of the Syriac churches, attention is directed to the various regulations which attempted to shape and control monastic life.

Unfinished Commentary
on the Epistle
to the Romans
Paula F. Landes, Editor
and Translator

The first English translation of Augustine's two early commentaries on Paul's letter to the Romans, written in the five years immediately preceding the appearance of the *Confessions*. These two commentaries are particularly important in understanding Augustine's development as a biblical exegete and a theologian and are invaluable to a complete assessment of his ultimate position on grace, human freedom, and divine predestination. An important work for historians and theologians interested in the development of biblical interpretation in the West generally and in Augustine's thought in particular.
