WEED TECHNOLOGY

Published six times a year by the Weed Science Society of America

Jason K. Norsworthy, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Technology* include all aspects of weed management in agricultural, horticultural, ornamental, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; weed resistance to herbicides; herbicide resistant crops; biological weed control agents; new weed management techniques; impacts of weed competition with crops; vegetation management with plant growth regulators; weed surveys; weed-related grower surveys; education; and extension. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Jason Bond, *Stoneville, MS* (2010)
Kevin Bradley, *Columbia, MO* (2012)
Barry Brecke, *Jay, FL* (2013)
Peter Dittmar, *Gainesville, FL* (2016)
Aaron Hager, *Urbana, IL* (2012)
Katherine Jennings, *Raleigh, NC* (2021)
Prashant Jha, *Ames, IA* (2016)

Amit Jhala, *Lincoln, NE* (2018)
David Johnson, *Des Moines, IA* (2019)
William Johnson, *West Lafayette, IN* (2007)
Vipan Kumar, *Hays, KS* (2020)
Drew Lyon, *Pullman, WA* (2018)
Scott McElroy, *Auburn, AL* (2012)
Robert Nurse, *Guelph, ON* (2016)

Sandeep Rana, *Galena, MD* (2021)

Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

Weed Technology (ISSN 0890-037X) is published by the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234. It is published bimonthly, one volume per year, six issues per year beginning in February.

Membership includes online access to *Weed Technology*, *Weed Science*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Technology* subscription page at <https://www.cambridge.org/core/journals/weed-technology/subscribe>; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Technology publishes six times a year in February, April, June, August, October, and December. Annual institutional electronic subscription rates: US \$403.00; UK £280.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/wt>). Authors are asked to pay \$85 for the first page and \$65 per page thereafter as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Technology* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique propagative materials they might possess with other workers in that area who request such materials for the purpose of scientific research.

WEED TECHNOLOGY

VOLUME 35

NOVEMBER–DECEMBER 2021

NUMBER 6

• REVIEW

- Transfer of resistance alleles from herbicide-resistant to susceptible grass weeds via pollen-mediated gene flow
Amit J. Jhala, Hugh J. Beckie, Carol Mallory-Smith, Marie Jasieniuk, Roberto Busi, Jason K. Norsworthy, Muthukumar V. Bagavathiannan, Breanne D. Tidemann and Charles M. Geddes 869

• RESEARCH ARTICLES

- Herbicide options to manage novel turf-type bahiagrass (*Paspalum notatum*)
P. Agustin Boeri, J. Bryan Unruh, Kevin E. Kenworthy, Laurie E. Trenholm and Esteban F. Rios 886
- Strategies for increased yellow nutsedge (*Cyperus esculentus*) control in turfgrass with halosulfuron, sulfentrazone, and physical removal
Luqi Li, Matthew Sousek, Zachary Reicher and Roch Gaussoin 894
- Wood vinegar for control of broadleaf weeds in dormant turfgrass
Zhikui Hao, Muthukumar Bagavathiannan, Ying Li, Mingnan Qu, Zhiyong Wang and Jialin Yu 901
- Control of glyphosate-resistant horseweed (*Conyza canadensis*) with tiafenacil mixes in corn
Nader Soltani, Christy Shropshire and Peter H. Sikkema 908
- Small-seeded false flax (*Camelina microcarpa*) management in Oklahoma winter wheat
Jodie A. Crose, Misha R. Manuchehri and Todd A. Baughman 912
- Potential wheat yield loss due to weeds in the United States and Canada
Michael L. Flessner, Ian C. Burke, J. Anita Dille, Wesley J. Everman, Mark J. VanGessel, Breanne Tidemann, Misha R. Manuchehri, Nader Soltani and Peter H. Sikkema 916
- Mesotrione: a new preemergence herbicide option for wild radish (*Raphanus raphanistrum*) control in wheat
Michael J. Walsh, Peter Newman and Paul Chatfield 924
- Evaluation of panicle removal methods and crop topping applications as supplemental tools for wild oat (*Avena fatua*) management
Breanne D. Tidemann, K. Neil Harker, Steve J. Shirliffe, Christian J. Willenborg, Eric N. Johnson, Elizabeth Sroka, Jennifer Zuidhof and Hema Duddu 932
- Palmer amaranth (*Amaranthus palmeri*) control in postharvest wheat stubble in the Central Great Plains
Vipin Kumar, Rui Liu, Amit J. Jhala, Prashant Jha and Misha Manuchehri 945
- Tomato tolerance and purple nutsedge control with sulfuryl fluoride mixes
Jialin Yu, Joshua H. Freeman and Nathan S. Boyd 950
- Characterization of carinata tolerance to select herbicides using field dose-response studies
Sandra R. Ethridge, Angela Post, Pratap Devkota, Michael J. Mulvaney and Ramon G. Leon 957
- Effectiveness of glufosinate, dicamba, and clethodim on glyphosate-resistant and - susceptible populations of five key weeds in Australian cotton systems
Jeff Werth, David Thornby, Michelle Keenan, James Hereward and Bhagirath Singh Chauhan 967
- Effect of planting time and row spacing on growth and seed production of junglerice (*Echinochloa colona*) and feather fingergrass (*Chloris virgata*) in sorghum
Caleb Squires, Gulshan Mahajan, Michael Walsh and Bhagirath S. Chauhan 974
- Rice response to sublethal concentrations of paraquat, glyphosate, saflufenacil, and sodium chlorate at multiple late-season application timings as influenced by exposure
Justin McCoy, Bobby Golden, Jason Bond, Darrin Dodds, Taghi Bararpour and Jeff Gore 980
- Response of dry beans to tiafenacil applied preemergence
Nader Soltani, Christy Shropshire and Peter H. Sikkema 991
- Palmer amaranth (*Amaranthus palmeri*) interference and seed production in dry edible bean
Joshua W. A. Miranda, Amit J. Jhala, Jeffrey Bradshaw and Nevin C. Lawrence 995
- Optimizing chloroacetamide application timing in dicamba-resistant cotton production systems for control of glyphosate-resistant Palmer amaranth (*Amaranthus palmeri*)
John T. Buol, Lucas X. Franca, Darrin M. Dodds, J. Anthony Mills, Janice L. DuBien, Ashli E. Brown-Johnson, David R. Shaw and Daniel B. Reynolds 1007
- Performance of tank-mix partners with isoxaflutole across the Cotton Belt
Delaney C. Foster, Peter A. Dotray, Todd A. Baughman, Seth A. Byrd, Alfred S. Culpepper, Darrin M. Dodds, Reagan L. Noland, Scott Nolte, Jason K. Norsworthy, Lawrence E. Steckel and Corey N. Thompson 1014

Cotton cultivar response to glufosinate plus S-metolachlor applied postemergence using two nozzle types Wykle C. Greene, Joyce A. Tredaway, Andrew J. Price and Dale Monks	1023
Extending the critical period for weed control model to better include weed succession using common sunflower as a mimic weed in high-yielding cotton Graham W. Charles and Ian N. Taylor	1029
Response of broadleaf and grass cover crop species to soil residues of glyphosate and aminomethylphosphonic acid (AMPA) Zahoor A. Ganie and Amit J. Jhala	1038
Rush skeletonweed (<i>Chondrilla juncea</i> L.) control in fallow Mark E. Thorne and Drew J. Lyon	1045
 • INTRIGUING WORLD OF WEEDS	
Sicklepod [<i>Senna obtusifolia</i> (L.) H. S. Irwin & Barneby] “Getting sleepy?” Lynn M. Sosnoskie, Sandy Steckel and Lawrence E. Steckel	1052
