

# ADVANCED REASONING FORUM

Your best source for research and teaching texts in logic

## *Computability* 3<sup>rd</sup> edition \$59.<sup>95</sup>

by Richard L. Epstein

This now standard introductory text for computability uses the history of the subject to motivate the mathematics. It includes a detailed exposition of recursive function theory and a presentation of Godel's incompleteness theorems, with a survey of their impact on the foundations of mathematics.

"The book is perfectly suited for class work and for individual study, and it successfully achieves the goal of painlessly introducing a technical matter in a readable and stimulating way."

-- Piergiorgio Odifreddi

## Timeline for Computability and Undecidability \$19.<sup>95</sup>

The acclaimed 18" x 28" wall poster now available in a new edition.

## *Predicate Logic* \$59.<sup>95</sup>

by Richard L. Epstein

This text presents the basic syntax and semantics of predicate logic. Taking formalization as a serious motive for the subject and a serious constraint on the formalism, it makes clear why predicate logic is worth studying while providing a basis for all predicate logics.

## *Propositional Logics* 3<sup>rd</sup> edition \$59.<sup>95</sup>

by Richard L. Epstein

This text surveys and unifies the major systems of propositional logics, answering the question "If logic is the right way to reason, why are there so many logics?" It is a standard reference as well as providing a clear and easy way to learn the subject. Now in a new 3rd edition.

"[Epstein's] unifying perspective of propositional logic, discussions of individual logics, and often thought-provoking exercises all make for an interesting and insightful volume."

-- Modern Logic

"Highly recommended for every specialist in logic . . . treatment is thorough and the writing is clear." -- Choice

*Articles and Communications* being submitted for publication in the BULLETIN should be sent to one (and only one) of the following editors: **Patricia Blanchette**, Department of Philosophy, University of Notre Dame, 100 Malloy Hall, Notre Dame, IN 46556, USA (blanchette.1@nd.edu); or **Thierry Coquand**, Chalmers University of Technology, Department of Computer Science and Engineering, SE-412 96 Göteborg, Sweden (coquand@chalmers.se); or **Volker Halbach**, New College, Oxford, OX1 3BN, UK (volker.halbach@philosophy.ox.ac.uk); or **Deirdre Haskell**, Department of Mathematics and Statistics, McMaster University, 1280 Main St. W, Hamilton ON L8S 4K1, Canada (haskell@math.mcmaster.ca); or **Menajem Kojman**, Department of Mathematics, Ben Gurion University of the Negev, P.O.B. 653, Be'er-Sheva 84105, Israel (kojman@math.bgu.ac.il); or **André Nies**, Department of Computer Science, University of Auckland, Private Bag 92019, Auckland, New Zealand (nies.editor@gmail.com); or **Martin Otto**, Department of Mathematics, Technische Universität Darmstadt, Schlossgartenstr. 7, 64289 Darmstadt, Germany (otto@mathematik.tu-darmstadt.de); or **Frank Wagner** (Managing Editor), Institut Camille Jordan, UMR 5208, Bâtiment Braconnier, Université Lyon I, 21, avenue Claude Bernard, 69622 Villeurbanne Cedex, France (wagner@math.univ-lyon1.fr). Submissions that are not readily categorized as either *Articles* or *Communications* should be sent to the managing editor.

Books for review in the BULLETIN should be sent to **ASL, Box 742, Vassar College, 124 Raymond Avenue, Poughkeepsie, NY 12604, USA**. The Managing Editor for Reviews is **Steve Awodey**, Department of Philosophy, Carnegie Mellon University, 135 Baker Hall, Pittsburgh, PA 15213, USA (awodey@cmu.edu). The other editors of reviews are **John Burgess** (jburgess@princeton.edu), **Mark Colyvan** (mcolyvan@usyd.edu.au), **Anuj Dawar** (Anuj.Dawar@cl.cam.ac.uk), **Steffen Lemp** (lemp@math.wisc.edu), **Rahim Moosa** (rmoosa@math.uwaterloo.ca), **Ernest Schimmerling** (eschimme@andrew.cmu.edu), **Alex Simpson** (Alex.Simpson@ed.ac.uk), **Kai Wehmeier** (wehmeier@uci.edu), and **Matthias Wille** (matthias.wille@iel.uni-koeln.de).

The editors prefer electronic submissions. The preferred formats for electronic submissions are PDF or postscript, but other formats, such as Word documents, will be accommodated as best as possible. The author should keep a complete copy of the submitted manuscript and the electronic files from which it was created. After the paper is accepted in its final form, an electronic copy will be appreciated and will advance the final publication date of the paper. It is preferred that papers be prepared in  $\LaTeX$  or other variant of  $\TeX$ , especially for manuscripts that include extensive symbolic or mathematical notation. The ASL  $\LaTeX$  style files are available at <http://www.aslonline.org>, but their use is optional. Fifty offprints of each article are supplied at no charge; additional offprints may be purchased if desired.

Postscript files of articles published in the BULLETIN may be downloaded using a Web browser from <http://www.math.ucla.edu/~asl/bsltoc.htm>. All volumes of the BULLETIN also are available online in the JSTOR database.

Requests for information, applications for membership, orders for back volumes, business correspondence, and notices and announcements for publication in the BULLETIN should be sent to the Secretary-Treasurer of the Association, **Charles Steinhorn**, ASL, Box 742, Vassar College, 124 Raymond Avenue, Poughkeepsie, NY 12604, USA. The electronic mail address of the Association's business office is [asl@vassar.edu](mailto:asl@vassar.edu). The ASL Website is located at <http://www.aslonline.org>. Links from that site provide further information on the BULLETIN and on submitting papers for publication.

All back volumes of the BULLETIN are available, from the Office of the Secretary-Treasurer who has information on prices and discounts to individual and institutional members.

The paper used in this BULLETIN is acid-free and falls within the guidelines established to ensure permanence and durability.
