Performance and accuracy assessments of an incompressible fluid solver coupled with a deep convolutional neural network—ADDENDUM

Ekhi Ajuria Illarramendi, Michaël Bauerheim and Bénédicte Cuenot

The editors and publisher of *Data-Centric Engineering* would like to include the Open Data badge in this article Ajuria Illarramendi E, et al. (2022).

Open Data Badge—indicates that data necessary to reproduce the reported results are available in an open access repository, under an open licence, with an accompanying description of the data.

The original article has been updated to include the badge for data transparency. Please refer to the Data Availability Statement to find the identifier linking to the open data or open materials.
