Contents volume 89, No. 1

The interactions between Quaternary Geology and Archaeology Wim Z. Hoek	1
Mid-Holocene water-level changes in the lower Rhine-Meuse delta (western Netherlands): implications for the reconstruction of relative mean sea-level rise, palaeoriver-gradients and coastal evolution O. van de Plassche, B. Makaske, W.Z. Hoek, M. Konert & J. van der Plicht	3
Settlement and land use on crevasse splay deposits; geoarchaeological research in the Rhine-Meuse Delta, the Netherlands M. van Dinter & W.K. van Zijverden	21
Middle Palaeolithic artefact migration due to periglacial processes; a geological investigation into near-surface occurrence of Palaeolithic artefacts (Limburg-Eastern Brabant coversand region, the Netherlands) J. Deeben, H. Hiddink, D.J. Huisman, A. Müller, J. Schokker & J. Wallinga	35
A molluscan perspective on hydrological cycle dynamics in northwestern Europe E.A.A. Versteegh, H.B. Vonhof, S.R. Troelstra & D. Kroon	51
Lithological analysis of 45 presumed pingo remnants in the northern Netherlands (Friesland): substrate control and fill sequences S.J. Kluiving, A.L.L.M. Verbers & W.J.F. Thijs	61
Human presence in the central Netherlands during early MIS 6 (~170-190 Ka): evidence from early Middle Palaeolithic artefacts in ice-pushed Rhine-Meuse sediments R.T. van Balen & F.S. Busschers	77

Contents volume 89, No. 2

Geo-perspective Oil and Gas in the Netherlands – Is there a future? R. Herber & J. de Jager	91
Stratigraphy of the upper Vijlen Member (Gulpen Formation; Maastrichtian) in northeast Belgium, the southeast Netherlands and the Aachen area (Germany), with special reference to belemnite cephalopods N. Keutgen, J.W.M. Jagt, P.J. Felder & E.A. Jagt-Yazykova	109
A striated, far travelled clast of rhyolitic tuff from Thames river deposits at Ardleigh, Essex, England: evidence for early Middle Pleistocene glaciation in the Thames catchment J. Rose, J.N. Carney, B.N. Silva & S.J. Booth	137
The youngest Maastrichtian ‘true’ inoceramids from the Vijlen Member (Gulpen Formation) in northeast Belgium and the Aachen area (Germany) I. Walaszczyk, J.W.M. Jagt & N. Keutgen	147
Geo(Im)pulse An unexpected fossil crinoid from the ‘Kor en Bot’ trawling trips on the Oosterschelde (Zeeland, the Netherlands) J.W.M. Jagt & J.W.F. Reumer	169

Contents volume 89, No. 3/4

The timing of aeolian events near archaeological settlements around Heidebos (Moervaart area, N Belgium) C. Derese, D.A.G. Vandenberghe, A. Zwertvaegher, M. Court-Picon, P. Crombé, J. Verniers & P. Van den haute	173
Palaeoecological study of a Weichselian wetland site in the Netherlands suggests a link with Dansgaard-Oeschger climate oscillation B. van Geel, J.A.A. Bos, J. van Huissteden, J.P. Pals, H. Schatz, J.M. van Mourik, G.B.A. van Reenen, J. Wallinga & J. van der Plicht	187
Lower Cretaceous of the southern North Sea Basins: reservoir distribution within a sequence stratigraphic framework J.M. Jeremiah, S. Duxbury & P. Rawson	203
Geo(Im)pulse The echinoid <i>Holaster laevis</i> from the Albian (Lower Cretaceous) of the Winterswijk area, eastern Netherlands J.W.M. Jagt & H.W. Oosterink	239
