

Proceedings of the
CAMBRIDGE PHILOSOPHICAL
SOCIETY

(MATHEMATICAL AND PHYSICAL SCIENCES)

VOLUME 55

PART 2

CAMBRIDGE UNIVERSITY PRESS

BENTLEY HOUSE, 200 EUSTON ROAD, LONDON, N.W.1
AMERICAN BRANCH: 32 EAST 57TH STREET, NEW YORK 22, N.Y.

Price Thirty-eight Shillings Net (U.S.A. \$6.50)

Subscription price per volume £6. 10s. net post free (\$23.50 in U.S.A.)

April 1959

CAMBRIDGE PHILOSOPHICAL SOCIETY

FOUNDED 1819; ROYAL CHARTER 1832

Session 1958–1959

President: F. P. BOWDEN

Vice-Presidents: E. J. H. CORNER, F. J. W. ROUGHTON, F. P. WHITE

Treasurer: R. C. EVANS

Secretaries: (Mathematical) H. P. F. SWINNERTON-DYER

(Physical) T. E. FABER

(Biological) S. SMITH

The publications of the Society consist of the *Proceedings* and of the *Biological Reviews*. The publication of *Transactions* was suspended at the end of Volume XXII.

Orders should be sent to: THE MANAGER, CAMBRIDGE UNIVERSITY PRESS, BENTLEY HOUSE, 200 EUSTON ROAD, LONDON, N.W.1. Enquiries from the U.S.A. should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York 22, U.S.A.

For the purchase of early parts of the *Transactions*, *Proceedings* and *Biological Reviews* application should be made to the Secretaries. All parts of the *Proceedings* and *Biological Reviews* are available, and prices of sets or single parts will be quoted on application.

Fellows and Associates of the Society are particularly requested to inform the Secretaries of any change of postal address, and to send their subscriptions to the Treasurer, CAMBRIDGE PHILOSOPHICAL SOCIETY, FREE SCHOOL LANE, CAMBRIDGE.

All correspondence regarding library exchanges and Fellows' copies should be addressed to the Secretaries at the Society's office.

PROCEEDINGS of the CAMBRIDGE PHILOSOPHICAL SOCIETY

edited by

H. P. F. SWINNERTON-DYER

in consultation with

P. C. CLEMMOW

T. E. FABER

E. R. LAPWOOD

D. V. LINDLEY

F. SMITHIES

F. URSELL

E. C. ZEEMAN

1. Four parts of the *Proceedings* are issued each year.
2. Communications for the *Proceedings* should be sent to *The Librarian, Cambridge Philosophical Society, Free School Lane, Cambridge*. Papers by Fellows and Associates of the Society should be communicated directly by the author. Other papers must be communicated by a Fellow, who in doing so should give his opinion on the suitability of the paper for publication.
3. Papers occupying more than twenty pages of print can only very rarely be accepted.
4. It is recommended that each paper be prefaced by a short abstract. Copies of a *Guide for the Preparation of Synopses*, prepared by the Abstracting Services Consultative Committee and issued by the Royal Society, may be obtained from the Librarian.
5. Drawings for illustration and diagrams should be on a large scale and on smooth white Bristol board in Indian ink.
6. References should be listed at the end of each paper. World List abbreviations for titles of journals should be used and first and last page numbers given where relevant.
7. Authors are particularly requested to prepare their manuscripts in a form suitable for printing, with adequate margins. A pamphlet on the preparation of papers may be obtained from the Librarian. If a large number of corrections are required in the proofs, the Council reserves the right to make a charge towards the cost.
8. Authors may receive, on request, fifty offprints of a paper in the *Proceedings* without charge.

Sound Pulses

F. G. FRIEDLANDER

An up-to-date description of the theory of sound pulses and its recent developments based on the theory of linear partial differential equations of hyperbolic type. There are chapters on the equations of motion, wave-fronts and their characteristics, geometrical acoustics and their application to reflection problems, and the diffraction of pulses. The book will interest students of other aspects of wave-propagation, such as electromagnetic waves, as well as those concerned with the many practical applications of sound pulses. CAMBRIDGE MONOGRAPHS ON MECHANICS AND APPLIED MATHEMATICS. 40s. net

Tables of Partitions

H. GUPTA, C. E. GWYTHYR & J. C. P. MILLER

Tables of numbers of partitions of n into at most m parts. Computed for the Mathematical Tables Committees of the British Association and the Royal Society. £3. 3s. net

TWO CAMBRIDGE MATHEMATICAL TRACTS

Convexity

H. G. EGGLESTON

An introduction to convexity written primarily for those starting research or whose main interest lies in one of the applications of the theory. 21s. net

Integral Equations

F. SMITHIES

This tract is devoted to the study of non-singular linear integral equations. The treatment has been modernised by the systematic use of the Lebesgue integral. 27s. 6d. net

THE JOURNAL

MONTHLY. Subjects of general interest, as apart from the specialised papers and discussions appearing in Parts "A" and "B" of the Proceedings, are treated in the monthly JOURNAL which is distributed free to members of the Institution but is also on sale to non-members.

THE PROCEEDINGS

Part "A". Contains papers and discussions concerning the specialised spheres of power generation, transmission, meters and instruments...and applications of electricity. Published in February, April, June, August, October, and December.

THE PROCEEDINGS

Part "B". Contains papers and discussions concerning the progress and developments in the fields of telecommunication, radio, electronics and the many allied interests. Published in January, March, May, July, September, and November.

SOCIETY FOR INDUSTRIAL AND APPLIED MATHEMATICS

Two new publications

Theory of Probability and its Applications

This is a translation of the Russian quarterly journal *Teoriya Veroyatnostei i ee Primeniya*, a leading Soviet publication on the theory and application of probability, statistics, and stochastic processes.

Translations will be available by subscription in 1959, beginning with Volume 1 (1956).

Subscriptions: \$18.00 per year (\$9.50 to university and college main and departmental libraries). Add \$3.00 for foreign subscriptions.

Siam Review

This semi-annual journal will fill the need for the publication of industrial and applied mathematics at an intermediate level, provide a forum for the development of ideas on the training of applied mathematicians, serve as an outlet for the discussion of mathematical problems arising in industry, and provide reviews of publications in industrial and applied mathematics.

Subscription: \$5.00 per year (\$5.50 for foreign orders), beginning January, 1959.

Orders should be placed with
