Bulletin of *Entomological Research*

journals.cambridge.org/ber

Aims and Scope

The aims of *Bulletin of Entomological Research* are to further our global knowledge of entomology through the generalisation of research findings rather than providing more entomological exceptions. *Bulletin* publishes high-quality and original research papers, 'critiques' and review articles concerning insects, mites, ticks or other arthropods of economic importance in agriculture, forestry, stored products, biological control, medicine, animal health and natural resource management. The scope of papers addresses the biology, ecology, behaviour, physiology and systematics of individuals and populations. This includes the interactions between species (plants, hosts for parasites, natural enemies and whole communities), novel methodological developments, including molecular biology, in an applied context. *Bulletin* does not publish the results of pesticide testing or traditional taxonomic revisions.

Bulletin of Entomological Research is published bimonthly by
Cambridge University Press

Editor-in-Chief

Professor Bill Symondson

School of Biosciences, Cardiff University, Cardiff CF10 3TL, UK

Research Papers

Iñaki Etxebeste, José L. Lencina and Juan Pajares

Saproxyl community, guild and species responses to varying pheromone components of a pine bark beetle 497

Cindy J.M. ten Broeke, Marcel Dicke and Joop J.A. van Loon

Performance and feeding behaviour of two biotypes of the black currant-lettuce aphid, *Nasonovia ribisnigri*, on resistant and susceptible *Lactuca sativa* near-isogenic lines 511

Rana M. Sarfraz, Heather M. Kharouba and Judith H. Myers

Tent caterpillars are robust to variation in leaf phenology and quality in two thermal environments 522

Sämi Schär and Christoph Vorburger

Host specialization of parasitoids and their hyperparasitoids on a pair of syntopic aphid species 530

Pedro Lorite, M. Isabel Torres and Teresa Palomeque

Characterization of two unrelated satellite DNA families in the Colorado potato beetle *Leptinotarsa decemlineata* (Coleoptera, Chrysomelidae) 538

T.P.N. Hari Prasad and N.J. Shetty

Autosomal inheritance of alphamethrin, a synthetic pyrethroid, resistance in *Anopheles stephensi* – Liston, a malaria mosquito 547

R. Asokan, G. Sharath Chandra, M. Manamohan and N.K. Krishna Kumar

Effect of diet delivered various concentrations of double-stranded RNA in silencing a midgut and a non-midgut gene of *Helicoverpa armigera* 555

Hernán Funes, Eduardo Zerba and Paola Gonzalez-Audino

Effect of release rate and enantiomeric composition on response to pheromones of *Megaplatypus mutatus* (Chapuis) in poplar plantations of Argentina and Italy 564

J.P. Michaud, Mahadev Bista, Geetanjali Mishra and Omkar Singh

Sexual activity diminishes male virility in two *Coccinella* species: consequences for female fertility and progeny development 570

Adalbert Balog

Jumping – ship – can have its costs: implications of predation and host plant species for the maintenance of pea aphid (*Acyrtosiphon pisum* Harris) colour polymorphism 578

X. Zhang, X. Liu, J. Ma and J. Zhao

Silencing of cytochrome P450 *CYP6B6* gene of cotton bollworm (*Helicoverpa armigera*) by RNAi 584

Siddharth Tiwari, Wendy L. Meyer and Lukasz L. Stelinski

Induced resistance against the Asian citrus psyllid, *Diaphorina citri*, by β -aminobutyric acid in citrus 592

K.B. Rebijith, R. Asokan, N.K. Krishna Kumar, V. Krishna, B.N. Chaitanya and V.V. Ramamurthy

DNA barcoding and elucidation of cryptic aphid species (Hemiptera: Aphididae) in India 601

James P. Hereward, Paul J. DeBarro and Gimme H. Walter

Resolving multiple host use of an emergent pest of cotton with microsatellite data and chloroplast markers (*Creontiades dilutus* Stål; Hemiptera, Miridae) 611

Corrigendum

619

Bulletin of Entomological Research is an international journal published bimonthly by Cambridge University Press in February, April, June, August, October and December.

Subscription information:

The subscription rates for Volume 103, 2013 (6 issues):
Print and electronic access: £1098 (UK), (USA, Canada and Mexico US \$1868)
Electronic-only price: £836 (UK), (USA, Canada and Mexico US \$1423)
Print only: £1040 (UK), (USA, Canada and Mexico US \$1664)
The online edition is available at www.journals.cambridge.org/ber with free table of contents alert (upon registration).

Any **supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Back Volumes are available. Please contact Cambridge University Press for further information.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

Information for Authors

Manuscripts should be submitted online at <http://www.editorialmanager.com/ber>. New users should register before submitting a manuscript. Further information about submission is available from the publisher at the given address and is printed on the inside back cover.

Offprints: The author (or main author) of an accepted paper will receive a free PDF of their paper. Paper offprints are available for a fee and should be ordered at proof stage. No page charges are levied by this journal.

Copying: This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organisations in the USA who are registered with the CCC may therefore copy material (beyond the limits permitted by sections 107 and 108 of USA copyright law) subject to payment to the CCC of the per copy fee of \$16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-4853/2013/\$16.00. Organisations authorised by the Copyright Licensing Agency may also copy material subject to the usual conditions. *For all other use*, permission must be sought from Cambridge or the American Branch of Cambridge University Press.
