CHRISTIAN PERSONAL ETHICS

by CARL F. H. HENRY, TH.D., PH.D.,
evangelical theologian and author;
editor of *Christianity Today*

'A thorough evangelical study of the problems of morality . . . this monumental work fills a gap of many years' duration.' Dr. Gordon H. Clark, Professor of Philosophy, Butler University.

'An important contribution to the literature of moral philosophy. . . . It should be included in the small but indispensable library of ministers, theological students, and college students who are interested in the studies of religion and in the philosophies of religion. This book is strongly recommended for courses in Christian ethics.' Dr. Ben Kimpel, Professor of Philosophy, Drew University.

'Dr. Henry's book is comprehensive in scope, evangelical in message, and a constructive guide to Christian living . . . Rooting Christian ethical concern in the Scriptures is perhaps the real merit of this endeavour. . . . It is an ethic of the redeemed community, the Church of Jesus Christ.' Dr. Wm. A. Mueller, Professor of Philosophy of Religion, Southern Baptist Theological Seminary.

CHRIST AND ADAM

Karl Barth

In this short work Karl Barth returns to the exposition of the Epistle to the Romans and discusses Paul's so-called parallel between Christ and Adam in Chapter Five. He finds in it a scriptural basis for the Christian doctrine of man and unravels for us the complicated relationships between fallen human nature, as represented in Adam the sinner bound for death, and the new humanity which is God's gift in Jesus Christ who brings righteousness and the promise of life to sinful, dying men. *Scottish Journal of Theology Occasional Paper No. 5.*

MANY THINGS IN PARABLES

Ronald S. Wallace

This book, which contains twenty-four expositions of thirty of the main parables of Our Lord is a work of straightforward Biblical exposition relevant to the modern situation. While it should readily find a place on the preacher's bookshelves, it is also a book for the layman.

KINGDOM AND CHURCH

T. F. Torrance

A careful examination of the teaching of the Reformation in the works of three of its greatest theologians, Martin Luther, John Calvin and Martin Bucer. The three main tendencies of the Reformation are presented here in a fresh light.

CHRISTIAN FAITH AND THE SCIENTIFIC ATTITUDE

W. A. Whitehouse

Mr Whitehouse, a Cambridge mathematician, and an Oxford theologian, sets forth, with great lucidity and candour, the main contentions of the scientist and of Christian faith. The discussion is carried out in a style that is remarkably clear and easy to follow and makes an equal appeal to the scholar and the general reader.

CALVIN'S DOCTRINE OF THE WORD AND SACRAMENT

Ronald S. Wallace

'This is an altogether admirable book, clear, concise, and balanced. Mr Wallace has really got inside the thought of Calvin, and the result is that there is life and unity in the book, so that for all its detail the book reads flowingly, and you are drawn on from chapter to chapter.'—*B.B.C. Book Review Programme.*

EIGHTH EDITION

The work has been in such heavy demand in the second-hand market that the Trustees have taken the earliest opportunity to produce a new edition. This incorporates all typographical and textual corrections which have accumulated over the years since the last edition, but the work of the author has been maintained throughout except insofar as the corrections demand.

GANDHI

Edited by DAGOBERT D. RUNES

Here is one of the most comprehensive collections of philosophical writings ever to be gathered between the two covers of one book. In a text of over 1200 pages, under more than 375 separate entries, are to be found, not only the great philosophers of the West, but also the thinkers of the Orient, past and present.

The selections cover the whole span of recorded philosophy—from the Sixth Century B. C. to the present day.

Each entry begins with a biographical sketch, covering the significant events in the philosopher's life, listing his major works and including a concise, careful statement of his place and importance in the history of philosophy. This is followed by one or more representative excerpts from the man's work.

Included as a matter of course, are the greater and lesser thinkers of the classic Greek and Roman periods. Added to these are the great Jewish scholars of all periods; the Church Fathers of the Christian Era; the important Oriental teachers, and the whole prodigious line of modern philosophers, from the Renaissance to the present time. *Much of the material contained in the volume appears here in English translation for the first time.*

"A big, quick reference guide, this merits school and library use."
