# THE ROYAL INSTITUTE OF NAVIGATION

## *Aims and Objects*

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

## *Membership*

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 72, 2019, which includes print and electronic access, is £667 (USA, Canada and Mexico US \$1204) and includes delivery by air; single parts are available at £121 (USA, Canada and Mexico US \$218) plus postage. The electronic-only price available to institutional subscribers is £517 (USA, Canada and Mexico US \$942). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. *The Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8BS, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information.

# THE JOURNAL OF NAVIGATION

VOLUME 72 • NUMBER 4 • JULY 2019

## CONTENTS

<b>Information Technology in Navigation: Problems in Legal Implementation and Liability</b> <i>Michael Tsimplis and Spiros Papadas</i>	833
<b>Voronoi-Visibility Roadmap-based Path Planning Algorithm for Unmanned Surface Vehicles</b> <i>Hanlin Niu, Al Savvaris, Antonios Tsourdos and Ze Ji</i>	850
<b>Cooperative Localisation of AUVs based on Huber-based Robust Algorithm and Adaptive Noise Estimation</b> <i>Xu Bo, Asghar. A. Razzaqi and Liu Yalong</i>	875
<b>Maritime Anomaly Detection using Density-based Clustering and Recurrent Neural Network</b> <i>Liangbin Zhao and Guoyou Shi</i>	894
<b>Low-Cost Receiver and Network Real-Time Kinematic Positioning for use in Connected and Autonomous Vehicles</b> <i>Fang-Shii Ning, Xiaolin Meng and Yi-Ting Wang</i>	917
<b>Hypothesis Test-based Detection of Wi-Fi Interference on NavIC/IRNSS S-band Signal</b> <i>Priyanka L. Lineswala, Darshna D. Jagiwala and Shweta N. Shah</i>	931
<b>Uniform Star Catalogue using GWKM Clustering for Application in Star Sensors</b> <i>Farshad Somayehhee, Amir Ali Nikkhah and Jafar Roshanian</i>	948
<b>Influencing Factors of GNSS Differential Inter-System Bias and Performance Assessment of Tightly Combined GPS, Galileo, and QZSS Relative Positioning for Short Baseline</b> <i>Mingkui Wu, Xiaohong Zhang, Wanke Liu, Renpan Wu, Renlan Zhang, Yuan Le and Yuexia Wu</i>	965
<b>Improved Method for Single and Multiple GNSS Faults Exclusion based on Consensus Voting</b> <i>Qieqie Zhang, Long Zhao and Jianhua Zhou</i>	987
<b>Improving Pulse Phase Estimation Accuracy with Sampling and Weighted Averaging</b> <i>Haoye Lin and Bo Xu</i>	1007
<b>Review of Navigation and Positioning of Deep-sea Manned Submersibles</b> <i>Tongwei Zhang, Jialing Tang, Shengjie Qin and Xiangxin Wang</i>	1021
<b>Ship Heading Control with Speed Keeping via a Nonlinear Disturbance Observer</b> <i>Zhiqian Liu, Xiaoyang Lu and Diju Gao</i>	1035
<b>A Fast Rotating Partition Satellite Selection Algorithm Based on Equal Distribution of Sky</b> <i>Fangchao Li, Zengke Li, Jingxiang Gao and Yifei Yao</i>	1053
<b>A new Concentric Circles Detection method for Object Detection applied to Radar Images</b> <i>José Miguel Guerrero, Andreas Muñoz, Matilde Santos and Gonzalo Pajares</i>	1070
