The Journal of the Australian Mathematical Society began publication in 1959, and from 1975 appears in two series, Series A (Pure Mathematics and Statistics) and Series B (Applied Mathematics). Information about Series A may be found on the inside back cover.

**SERIES B APPLIED MATHEMATICS**

This series is published in volumes, comprising four parts, starting with Volume 19 Part I in 1975. From 1980, four parts are published annually. Subscriptions may be arranged through the Business Manager (see inside back cover). The annual cost for 1982 is A\$76 (Members A\$12).

It is the editorial policy of Series B to accept papers in any field of applied mathematics and related mathematical sciences. Novel applications of mathematics in real situations are welcomed. Authors are encouraged to write an introduction accessible to the whole applied mathematical community. Every effort will be made to publish suitable material with a minimum of delay.
