

# Politics & International Relations

Books and Journals from  
Cambridge University Press

The politics list at Cambridge is one of unparalleled quality and range.

Our books list routinely tops surveys of political scientists for the calibre of its output, which includes field-defining series such as Cambridge Studies in Comparative Politics, Cambridge Studies in International Relations and Cambridge Texts in the History of Political Thought.

*American Political Science Review* and *International Organization* are widely recognised as the leading generalist journals in political science and international relations, while the likes of *British Journal of Political Science* and *World Politics* remain essential reading for researchers worldwide.

For students and scholars across the breadth of political enquiry, Cambridge is the resource of choice.

## Notes for Contributors

All manuscripts should be submitted via our on-line system, ScholarOne Manuscripts at: <http://mc.manuscriptcentral.com/psrm>

Other forms of submission will not be accepted by the editors.

The journal publishes two types of articles:

- a) full length manuscripts that present original, well researched, and fully developed empirical or theoretical work
- b) research notes

Normal length articles that should not exceed 9,000 words in length, including tables, figures, footnotes, references and printed appendices, but excluding any supporting material that can be relegated to an online appendix.

Research notes that should not exceed 4,000 words in length, including tables, figures, footnotes, references and printed appendices, but excluding any supporting material that can be relegated to an online appendix.

Research notes should contain original work and present a new method or methodology (particularly useful if related software components are included) to solve an important problem in applied data analysis, present a new theoretical idea or argument, or comment on other articles published in the journal. *PSRM* welcomes comments to as well as replications of published articles. These will undergo the usual peer review process and if accepted will be published in the research notes section of the journal.

*PSRM* uses a single-blind peer review process, thus anonymizing your manuscript is not necessary.

**Replication Policy:** *PSRM* has a strict replication policy which adheres to the Data Access and Research transparency (DA-RT) statement subscribed to by many Political Science Journal Editors in 2015. Authors are required to make replication material publicly available at time of publication of the article. The replication materials must be sufficient to replicate results in all tables and figures printed in the article, including simulation material for both theoretical (e.g. agent based models) and empirical (e.g. Monte Carlo experiments) work. Data and replication code for your article, as well as a log demonstrating smooth running of all the replication files, must be uploaded in a single .zip file to the *PSRM* Dataverse at <https://dataverse.harvard.edu/dataverse/PSRM>. (See the *PSRM* Dataverse Guide for a step-by-step walkthrough for uploading your material, which is also linked to on the *PSRM* Dataverse homepage). This is a necessary condition for publication of the manuscript. All manuscripts are accepted contingent on their replicability, which will initially be assessed by *PSRM* staff. Manuscripts that are not replicable will be rejected for publication. If your analysis relies on simulation techniques (MCMC, MC experiments) we require authors to set and communicate a seed, so that exact results can be replicated. If this is impossible due to the design of the analysis, replication results need not deviate by more than 5 per cent from published results in the manuscript.

Authors are responsible for obtaining permission to reproduce any material they do not own the copyright for and for ensuring appropriate acknowledgment of such material.

All manuscripts should follow the manuscript preparation guidelines available online in the full instructions for contributors.

Full Instructions for Contributors can be found online at <http://www.journals.cambridge.org/psrm/ifc>

## Rights and Permissions info

All rights reserved. No part of this publication may be reproduced, stored or transmitted in any form or by any means without the prior permission in writing from the copyright holder. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with the C.C.C. may, therefore copy material (beyond the limits permitted by, sections 107 and 108 of U.S. Copyright law) subject to payment to the C.C.C. of the appropriate fee per copy. This consent does not extend to multiple copying for promotional or commercial purposes.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

## Subscriptions

*Political Science Research and Methods* is published four times a year in January, April, July, and October. The 2019 subscription price (excluding VAT) of a volume, which includes print and electronic access, is £474.00 (US \$675.00 in USA, Canada and Mexico); £39.00 (US \$60.00) for individuals, which includes print and electronic access, ordering direct from the publishers and certifying that the journal is for their personal use. The electronic-only price available to institutional subscribers is £406.00 (US \$649.00 in USA, Canada and Mexico). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. Prices include delivery by air when appropriate. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan. Orders, which must be accompanied by payment, may be sent to a bookseller, subscription agent or direct to the publisher: Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK; or in the USA, Canada and Mexico: Cambridge University Press, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Periodicals postage paid at New York, NY and additional mailing offices.

## Contents

### ORIGINAL ARTICLES

- 393 Platforms, Portfolios, Policy: How Audience Costs Affect Social Welfare Policy in Multiparty Cabinets  
**Despina Alexiadou and Danial Hoepfner**
- 411 Mobilizing Voters with Aggressive Metaphors  
**Nathan P. Kalmoe**
- 431 African American Turnout and African American Candidates  
**Luke J. Keele and Ismail K. White**
- 451 Property Rights Regimes, Technological Innovation, and Foreign Direct Investment  
**Mark David Nieman and Cameron G. Thies**
- 471 Giving Advice Versus Making Decisions: Transparency, Information, and Delegation  
**Sean Gailmard and John W. Patty**
- 489 Voting Behavior in the Council of the European Union: The Effect of the Trio Presidency  
**Philippe van Gruisen, Pieterjan Vangerven and Christophe Crombez**
- 505 Why Legislative Networks? Analyzing Legislative Network Formation  
**Stefan Wojcik**
- 523 Comparing Dynamic Pies: A Strategy for Modeling Compositional Variables in Time and Space  
**Christine S. Lipsmeyer, Andrew Q. Phillips, Amanda Rutherford and Guy D. Whitten**
- 541 Practical and Effective Approaches to Dealing With Clustered Data  
**Justin Esarey and Andrew Menger**
- 561 How Does Media Influence Social Norms? Experimental Evidence on the Role of Common Knowledge  
**Eric Arias**
- 579 Government instability and the state  
**Daniel Walther, Johan Hellström and Torbjörn Bergman**
- 595 Democracy for All: Conceptualizing and Measuring Egalitarian Democracy  
**Rachel Sigman and Staffan I. Lindberg**
- 613 Generalizing from Survey Experiments Conducted on Mechanical Turk: A Replication Approach  
**Alexander Coppock**

### RESEARCH NOTES

- 629 Theory and Methods in the Study of Distributive Politics  
**Michael Albertus**
- 641 The Prevalence and Severity of Underreporting Bias in Machine- and Human-Coded Data  
**Benjamin E. Bagozzi, Patrick T. Brandt, John R. Freeman, Jennifer S. Holmes, Alisha Kim, Agustin Palao Mendizabal and Carly Potz-Nielsen**
- 651 Bayesian Versus Maximum Likelihood Estimation of Treatment Effects in Bivariate Probit Instrumental Variable Models  
**Florian M. Hollenbach, Jacob M. Montgomery and Adriana Crespo-Tenorio**
