

Proceedings of the
CAMBRIDGE PHILOSOPHICAL
SOCIETY

VOLUME 50

CAMBRIDGE
AT THE UNIVERSITY PRESS
1954

*Printed in Great Britain at the University Press, Cambridge
(Brooke Crutchley, University Printer)
and published by the Cambridge University Press*

*London: Bentley House, N.W. 1
American Branch: New York*

Agents for Canada, India, and Pakistan: Macmillan

CONTENTS

	PAGE
Adkins, J. E. Some generalizations of the shear problem for isotropic incompressible materials	334
Bambah, R. P. Lattice coverings with four-dimensional spheres	203
Bastin, E. W. and Kilmister, C. W. The concept of order. I. The space-time structure	278
Bastin, E. W. and Kilmister, C. W. Eddington's theory in terms of the concept of order	439
Beale, E. M. L. An alternative method for linear programming	513
Bhatia, A. B. and Wolf, E. On the circle polynomials of Zernike and related orthogonal sets	40
Budden, K. G. A reciprocity theorem on the propagation of radio waves via the ionosphere	604
Buneman, O. Self-consistent electrodynamics	77
Burgess, D. C. J. Tauberian theorems in a Banach lattice, with applications to the L^p spaces	242
Chandrasekhar, S. and Elbert, Donna. The roots of $Y_n(\lambda\eta)J_n(\lambda) - J_n(\lambda\eta)Y_n(\lambda) = 0$.	266
Churchhouse, R. F. An extension of the Minkowski-Hlawka theorem	220
Clemmow, P. C. and Heading, J. Coupled forms of the differential equations governing radio propagation in the ionosphere	319
Cohn, P. M. An invariant characterization of pseudo-valuations on a field	159
Cornock, A. F. The numerical solution of Poisson's and the bi-harmonic equations by matrices	524
Davies, R. O. and Leech, J. W. The statistics of scaled random events	575
Dean, W. R. Note on the motion of viscous liquid past a parabolic cylinder	125
Dean, W. R. Note on the Green's function of an elastic plate	623
Diananda, P. H. The central limit theorem for m -dependent variables asymptotically stationary to second order	287
Domb, C. On multiple returns in the random-walk problem	586
Eden, R. J. Covariant integral equations for Heisenberg operators	592
Eggleston, H. G. A measureless one-dimensional set	391
Elbert, Donna (Joint author). The roots of $Y_n(\lambda\eta)J_n(\lambda) - J_n(\lambda\eta)Y_n(\lambda) = 0$	266
Ellis, D. On the topolattice and permutation group of an infinite set. II. (<i>Research note</i>)	485
Freedman, A. L. Elimination of waiting time in automatic computers with delay-type stores	426
Green, A. E. A note on second-order effects in the torsion of incompressible cylinders. (<i>Research note</i>).	488
Griffiths, H. B. A note on commutators in free products	178
Harrop, R. An investigation of the propositional calculus used in a particular system of logic	495
Hartree, D. R. The evaluation of a diffraction integral	567
Haselgrove, C. B. and Temperley, H. N. V. Asymptotic formulae in the theory of partitions	225
Hayman, W. K. and Stewart, F. M. Real inequalities with applications to function theory	250
Heading, J. (Joint author). Coupled forms of the differential equations governing radio propagation in the ionosphere	319

	PAGE
Higgins, P. J. Lie rings satisfying the Engel condition	8
Hilton, P. J. A certain triple Whitehead product	189
Huckemann, F. An extension of the Ahlfors distortion theorem	261
Jackson, T. A. S. Separation of angle variables for helium	298
Kemmer, N. A remark on quantum-mechanical perturbation theory. (<i>Research note</i>).	632
Kilmister, C. W. (<i>Joint author</i>). The concept of order. I. The space-time structure	278
Kilmister, C. W. (<i>Joint author</i>). Eddington's theory in terms of the concept of order	439
Klein, Martin J. A note on Wild's solution of the Boltzmann equation	293
Landsberg, P. T. On Bose-Einstein condensation	65
Leech, J. W. (<i>Joint author</i>). The statistics of scaled random events	575
Lock, R. C. Hydrodynamic stability of the flow in the laminar boundary layer between parallel streams	108
Longuet-Higgins, M. S. On Slinky: the dynamics of a loose, heavy spring. (<i>Research note</i>)	347
Luke, Yudell L. On the computation of oscillatory integrals	269
Mack, C. The expected number of clumps when convex laminae are placed at random and with random orientation on a plane area	581
Mackie, A. G. One-dimensional unsteady motion of a gas initially at rest and the dam-break problem	131
McLain, D. H. A characteristically simple group. (<i>Research note</i>)	641
Marstrand, J. M. The dimension of Cartesian product sets	198
Moran, P. A. P. The translations of linear sets of fractional dimensions. (<i>Research note</i>)	634
Nisbet, A. and Wolf, E. On linearly polarized electromagnetic waves of arbitrary form	614
Noble, M. E. The consistency of cardinal series	139
Northcott, D. G. and Rees, D. Reductions of ideals in local rings	145
Northcott, D. G. and Rees, D. A note on reductions of ideals with an application to the generalized Hilbert function	353
Obi, Chike. Researches on the equation $(E) \ddot{x} + (\epsilon_1 + \epsilon_2 x)\dot{x} + x + \epsilon_3 x^2 = 0$	26
Pack, D. C. Laminar flow in an axially symmetrical jet of compressible fluid, far from the orifice	98
Page, E. S. The Monte Carlo solution of some integral equations	414
Payne, L. E. On axially symmetric crack and punch problems for a medium with transverse isotropy	466
Pirani, F. A. E. On the influence of the expansion of space on the gravitational field surrounding an isolated body. (<i>Research note</i>).	637
Price, P. C. Gauss's formula of numerical integration and the design of experiments. (<i>Research note</i>)	491
Rankin, R. A. and Rushforth, J. M. The coefficients of certain integral modular forms	305
Rees, D. (<i>Joint author</i>). Reductions of ideals in local rings	145
Rees, D. (<i>Joint author</i>). A note on reductions of ideals with an application to the generalized Hilbert function	353
Reifenberg, E. R. Fixed points on rotating continua	1
Reynolds, J. A variety with a certain singular point	143
Roth, L. Pseudo-Abelian varieties	360
Rushforth, J. M. (<i>Joint author</i>). The coefficients of certain integral modular forms	305
Samet, P. A. Algebraic integers with two conjugates outside the unit circle. II. (<i>Research note</i>).	346

Contents

V

	PAGE
Samet, P. A. The product of non-homogeneous linear forms, I.	372
Samet, P. A. The product of non-homogeneous linear forms. II. The minimum of a class of non-homogeneous linear forms	380
Scott, D. B. Correspondences with unequal valencies. (<i>Research note</i>)	639
Slater, L. J. Some new results on equivalent products	394
Slater, L. J. The evaluation of the basic confluent hypergeometric functions	404
Slater, L. J. Expansions of generalized Whittaker functions. (<i>Research note</i>)	628
Slater, N. B. Some formulae of P. Stein and others concerning trigonometrical sums	33
Stewart, F. M. (<i>Joint author</i>). Real inequalities with applications to function theory	250
Stewartson, K. Further solutions of the Falkner-Skan equation	454
Swinnerton-Dyer, H. P. F. Inhomogeneous lattices	20
Swinnerton-Dyer, H. P. F. The inhomogeneous minima of complex cubic norm forms	209
Temperley, H. N. V. (<i>Joint author</i>). Asymptotic formulae in the theory of partitions	225
Tyabji, S. F. B. A quantum theory for non-viscous fluids in the Lagrange variables	449
Walker, A. M. The asymptotic distribution of serial correlation coefficients for autoregressive processes with dependent residuals	60
Ward, E. E. The calculation of transients in dynamical systems	49
Westlake, W. J. Conformally Kähler manifolds	16
Wilkinson, J. H. The calculation of the latent roots and vectors of matrices on the pilot model of the A.C.E.	536
Williams, W. E. Diffraction by two parallel planes of finite length	309
Wolf, E. (<i>Joint author</i>). On the circle polynomials of Zernike and related orthogonal sets	40
Wolf, E. (<i>Joint author</i>). On linearly polarized electromagnetic waves of arbitrary form	614
Wright, G. H. A geometrical factor in the variability of sensations of warmth evoked by radiation	477
<i>Proceedings</i>	643
<i>Statement of Accounts</i>	646

- The following papers have been accepted for publication and will appear shortly:
- SCOTT, J. M. C. The retardation of alpha particles when capture and loss occur.
- BAMBAH, R. P. Polar reciprocal convex bodies.
- CHANDRASEKHAR, S. The character of the equilibrium of an incompressible heavy viscous fluid of variable density.
- HIDE, R. The character of the equilibrium of an incompressible fluid of variable density: an approximate theory.
- COPPEL, W. A. The solution of equations by iteration.
- TAUNT, D. R. Finite groups having unique proper characteristic subgroups. I.
- TAUNT, D. R. Remarks on the isomorphism problem in theories of construction of finite groups.
- STEWARTSON, K. On the motion of a flat plate at high speed in a viscous compressible fluid. I. Impulsive motion.
- PATANKAR, V. N. A note on recurrent events.
- TER HAAR, D and GREEN, C. D. The Ehrenfests' wind-wood model in two dimensions.
- POLKINGHORNE, J. C. Temporally ordered graphs in quantum field theory.
- PHILLIPS, O. M. Irrotational motion outside a free turbulent boundary.
- HILTON, P. J. A note on the P -homomorphism in homotopy groups of spheres.
- PATTERSON, E. M. Note on nilpotent solvable algebras.
- SHAW, R. Spinor identities.
- GREEN, J. A. On the converse of a theorem of R. Brauer.
- HAMILTON, J. and SALAM, A. The bound state representation.
- WARD, A. J. On the relations between certain intrinsic topologies in partially ordered sets.
- RINGROSE, J. R. Compact linear operators of Volterra type.
- HARTREE, D. R. Approximate wave functions with exchange for Mn^{+2} .
- GOOD, I. J. The joint distribution for the sizes of the generations in a cascade process.
- BROWN, L. J. M. On the conformal mappings of domains of infinite connectivity.
- KUPER, C. G. Note on Ehrenfest's equations.
- LEIGH, D. C. F. The laminar boundary layer equation: a method of solution by means of an automatic computer.
- MUNN, W. D. On semigroup algebras.

CONTENTS OF BIOLOGICAL REVIEWS

Vol. 29, Part 4. November 1954

- RUDOLF FLORIN. The female reproductive organs of conifers and taxads.
- MAURICE FONTAINE. Du déterminisme physiologique des migrations.
- F. H. T. RHODES. The zoological affinities of the conodonts.
- F. D. COLLINS. The chemistry of vision.
