## **JOURNAL OF HELMINTHOLOGY**

*(Founded by R. T. Leiper in 1923 and edited from 1946-72 by J. J. C. Buckley)*

---

**EDITOR:** Dr. R. Muller,  
Department of Medical Helminthology,  
London School of Hygiene & Tropical Medicine,  
Keppel Street, London WC1E 7HT, England.

---

Subscriptions and advertisement enquiries should be sent to:  
Bureau of Hygiene & Tropical Diseases,  
Keppel Street,  
London WC1E 7HT, England.

---

Published in 4 parts per year

Subscription £14.00 per annum  
(U.S. \$35.00)

---

# **THE SEARCH FOR SCIENTISTS TO SEARCH FOR THE TOOLS TO CONTROL THE TROPICAL DISEASES**

The search for new tools to control disease in the tropical countries requires scientists of many disciplines. Molecular and cell biologists, biochemists, immunologists, parasitologists and entomologists are among those whose contributions are needed.

The research areas covered by the Special Programme for Research and Training in Tropical Diseases are:

- malaria, schistosomiasis, filariasis, trypanosomiasis, leishmaniasis and leprosy;
- epidemiology, biomedical sciences, biological control of vectors, and socio-economic research.

Specific fields within these research areas are developed by the Programme's Scientific Working Groups. Scientists from any country are welcome to submit proposals for research grants within the specific fields. All enquiries should be addressed to:

The Special Programme for Research and Training in Tropical Diseases  
World Health Organization  
1211 Geneva 27, Switzerland

For those persons seeking contact with Special Programme participants in the United Kingdom, a Special Programme Committee has been set up by a group of interested scientists there to provide such information. The Committee also has research proposal forms available. Correspondence should be addressed to:

UK National Committee of the TDR  
c/o Mrs. J. Beard  
Medical Research Council  
20 Park Crescent, London W1N 4AL, U.K.

Specific enquiries may be addressed to the attention of the Chairman, Professor David Bradley.

Should scientists in other countries wish to organize such liaison Committees, we should be pleased to collaborate with them and to publicize their activities. Any suggestions in this regard should be addressed to the Director of the Special Programme.

BUREAU OF HYGIENE AND TROPICAL DISEASES  
Keppel Street, London WC1E 7HT, England

**TROPICAL DISEASES BULLETIN**—£16 (US \$40) per annum\*  
first published in 1912 as successor to *Sleeping Sickness Bulletin*  
(1908–1912)

**ABSTRACTS ON HYGIENE**—£24 (US \$60) per annum\*  
published originally in 1926 as *Bulletin of Hygiene*—present title  
introduced in 1968

The two monthly journals contain abstracts and reviews of articles which appear in the world's leading medical and scientific publications on a broad range of subjects concerned with all aspects of public health, including:

Environmental health—sanitation, water supplies, pollution, toxicology, food hygiene, occupational medicine

Community health—services, health education, maternity, childhood, family health, ageing, nutrition, housing, socio-economic factors, drug abuse

Epidemiology and control of diseases

These abstract journals are complementary in subject coverage, with *Tropical Diseases Bulletin* concentrating on conditions in tropical and subtropical regions and *Abstracts on Hygiene* on those generally affecting communities outside these regions and on matters of universal importance. Notwithstanding the geographical division, *Abstracts on Hygiene* deals mainly with the microbiological aspects of disease, wherever it occurs, while *Tropical Diseases Bulletin* covers medical parasitology and entomology.

---

**JOURNAL OF HELMINTHOLOGY**—£14 (US \$35) per annum\*  
first published in 1923

Original papers on all aspects of animal parasitic helminths, particularly those of medical or veterinary importance, are published in this quarterly journal which is edited in the Department of Medical Helminthology of the London School of Hygiene and Tropical Medicine.

---

\* post free by surface mail. Additional charges are made for air mail and for registered post.

---

Orders for the above publications may be placed through booksellers or sent direct to the Bureau of Hygiene and Tropical Diseases.

---

*Abstracts on Hygiene* is also available in microform. Enquiries and orders should be sent to **University Microfilms International**—18 Bedford Row, London WC1R 4EJ, England or 300 North Zeeb Road, Ann Arbor, Mich. 48106, USA.
