Abstract

Last issue of MSCS before moving to continuous publishing (first part of a collection devoted to LSFA 2021 and 2022).

This issue is the last issue published by MSCS before the journal moves to continuous publishing in 2025. It contains those papers for the special issue dedicated to extended versions of papers presented at the conferences LSFA 2021 and 2022 that were accepted and produced in 2024. Together with the other papers that will be accepted for the special issue and produced in 2025, they will be linked to a *collection*. Collections are to continuous publishing what special issues of the journal were so far.
