STUDIES IN SECOND LANGUAGE ACQUISITION

Information for Contributors

For guidelines and requirements regarding manuscript submission, please consult the *SSLA* website at http://journals.cambridge.org/sla. Click on the Journal Information tab which will lead you to Information for Contributors. Potential authors are advised that all manuscripts are internally reviewed for both content and formatting/style in order to determine their suitability for external evaluation.

Research Article. These manuscripts may be essays or empirical studies, either of which must be motivated by current theoretical issues in second and subsequent language acquisition or heritage language acquisition, including methodological issues in research design and issues related to the context of learning. Maximum length is 11,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 11,000 word limit).

Research Report. These manuscripts are shorter empirical studies motivated by current theoretical issues in second and subsequent language acquisition or heritage language acquisition, including methodological issues in research design. Very often, these are narrowly focused studies or they present part of the results of a larger project in progress. The background and motivation sections are generally shorter than research articles. Maximum length is 6,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 6,000 word limit).

Replication Study. These manuscripts are shorter empirical studies motivated by a previously published study (not necessarily one published in *SSLA*). The background and motivation sections will necessarily be shorter compared to research articles as the maximum length is 6,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 6,000 word limit).

State-of-the-Scholarship Article. These manuscripts are essays that review the extant research on a particular theme or theoretical issue, offering a summary of findings and making critical observations on the research to date. Manuscripts in this category typically fall within the 11,000-word limit of regular research articles; however, longer manuscripts may be considered on a case-by-case basis.

Critical Commentary. These manuscripts are shorter essays (i.e., non-empirical) motivated by current theory and issues in second and subsequent language acquisition or heritage language acquisition, including methodological issues in research design and issues related to the context of learning. Maximum length is 6,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 6,000 word limit).

All manuscripts in all categories are peer reviewed and subject to the same high standards for publication in *SSLA*.

RESEARCH ARTICLES

The Effects of Processing Instruction and Traditional Instruction on L2 Online Processing of the Causative Construction in French: An Eye-Tracking Study
Wynne Wong and Kiwako Ito 241

Exposure Frequency in L2 Reading: An Eye-Movement Perspective of Incidental Vocabulary Learning
Ayman A. Mohamed 269

Production and Comprehension in Processability Theory: A Self-Paced Reading Study
Patti Spinner and Sehoon Jung 295

Differences in Visual Word Recognition between L1 and L2 Speakers: The Impact of Length, Frequency, and Orthographic Neighborhood Size in German Children
Pauline Schröter and Sascha Schroeder 319

Contextual Word Learning during Reading in a Second Language: An Eye-Movement Study
Irina Elgort, Marc Brysbaert, Michaël Stevens, and Eva Van Assche 341

The Syntax-Semantics of Adjectival Distribution in Adult Polish-Spanish Childhood Bilinguals
Tiffany Judy 367

Word Frequency, Collocational Frequency, L1 Congruency, and Proficiency in L2 Collocational Processing: What Accounts for L2 Performance?
Brent Wolter and Junko Yamashita 395

STATE OF THE SCHOLARSHIP

The Generative Approach to SLA and its Place in Modern Second Language Studies
Jason Rothman and Roumyana Slabakova 417

RESEARCH REPORT

Linguistic Dimensions of L2 Accentedness and Comprehensibility Vary across Speaking Tasks
Dustin Crowther, Pavel Trofimovich, Kazuya Saito, and Talia Isaacs 443

REPLICATION STUDY

Online and Offline Effects of L1 Practice in L2 Grammar Learning: A Partial Replication
Kevin McManus and Emma Marsden 459
