

CORRIGENDUM

to the paper

HOMOLOGY OPERATIONS AND POWER SERIES

by RICHARD STEINER

Peter May kindly tells me that the proof of the Nishida relations in §8 of this paper works only for E_∞ spaces, not for H_∞ ring spectra. The reason is that there is no suitable “diagonal” map d for H_∞ ring spectra. The result is correct all the same (it is not mine), and its formulation in §3 is also correct.
