# BROMURAL

( $\alpha$ -Monobrom isovalerianyl-urea).

## POWERFUL NERVE SEDATIVE

is the combination of bromides and valerian with the organic urea basis which, as regards its action, occupies a position midway between the hypnotics on one hand and the bromides and valerian preparations on the other.

"Bromural is the drug of the future as a hypnotic and sedative in many mental affections whose symptoms developed on a neurasthenic or hysterical basis, including instances of melancholia, traumatic insanity, paranoia, maniacal depression, and hallucinations. The drug is especially valuable for insanity in the female sex." (County Asylum, E.—Med. Councillor W—, Director of the Asylum.)

*A Pancreatised Food that can be made in a minute, the  
addition of boiling water only being necessary.*

**A PANCREATISED MILK AND CEREAL FOOD.**

By the use of the "Allenburys" Diet all trouble of peptonising milk and farinaceous foods is overcome. In the sick room it will be found extremely useful as the food is easily digested and assimilated, is quickly made, and only the exact quantity required need be prepared at a time.

The "Allenburys" Diet is made from pure rich milk and whole wheat, both ingredients being largely pre-digested during manufacture. It can be taken by those who cannot digest cow's milk, and provides a light and very nourishing diet for Invalids, Dyspeptics and the Aged.

For travellers by sea or land this complete food will be found exceedingly valuable.
