DATABASES AND THE ASSESSMENT OF COMPLICATIONS ASSOCIATED WITH THE TREATMENT OF PATIENTS WITH CONGENITAL CARDIAC DISEASE

Prepared by:

The Multi-Societal Database Committee for Pediatric and Congenital Heart Disease

Editor:

Jeffrey Phillip Jacobs, MD, FACS, FACC, FCCP

PART I – OVERVIEW

- Introduction – Databases and the assessment of complications associated with the treatment of patients with congenital cardiac disease 1
Jeffrey P. Jacobs
- Nomenclature and databases for congenital cardiac disease – an updated primer and an analysis of opportunities for improvement 38
Jeffrey P. Jacobs, Marshall L. Jacobs, Constantine Mavroudis, Carl L. Backer, François G. Lacour-Gayet, Christos I. Tchervenkov, Rodney C.G. Franklin, Marie J. Beland, Kathy J. Jenkins, Hal L. Walters III, Emile A. Bacha, Bobdan Maruszewski, Hiromi Kurosawa, David R. Clarke, J. William Gaynor, Thomas L. Spray, Giovanni Stellin, Tjark Ebels, Otto N. Kroghmann, Vera D. Aiello, Steven D. Colan, Paul Weinberg, Jorge M. Giroud, Allen Everett, Gil Wernovsky, Martin J. Elliott, Fred H. Edwards
- The improvement of care for pediatric and congenital cardiac disease across the World: a challenge for the World Society for Pediatric and Congenital Heart Surgery 63
Christos I. Tchervenkov, Jeffrey P. Jacobs, Pierre-Luc Bernier, Giovanni Stellin, Hiromi Kurosawa, Constantine Mavroudis, Richard A. Jonas, Sertac M. Cicek, Zobair Al-Halees, Martin J. Elliott, Marcelo B. Jatene, Robin H. Kinsley, Christian Kreuzer, Juan Leon-Wyss, Jinfen Liu, Bobdan Maruszewski, Graham R. Nunn, Samuel Ramirez-Marroquin, Nestor Sandoval, Shunji Sano, George E. Sarris, Rajesh Sharma, Ayman Shoeb, Thomas L. Spray, Ross M. Ungerleider, Hervé Yangni-Angate, Gerhard Ziemer

PART II – DATABASES, COMPLICATIONS, AND MORBIDITY

A. NOMENCLATURE

- Nomenclature for congenital and paediatric cardiac disease: Historical perspectives and The International Pediatric and Congenital Cardiac Code 70
Rodney C.G. Franklin, Jeffrey P. Jacobs, Otto N. Kroghmann, Marie J. Beland, Vera D. Aiello, Steven D. Colan, Martin J. Elliott, J. William Gaynor, Hiromi Kurosawa, Bobdan Maruszewski, Giovanni Stellin, Christos I. Tchervenkov, Henry L. Walters III, Paul Weinberg, Robert H. Anderson
- The nomenclature of safety and quality of care for patients with congenital cardiac disease: a report of the Society of Thoracic Surgeons Congenital Database Taskforce Subcommittee on Patient Safety 81
Jeffrey P. Jacobs, Oscar J. Benavidez, Emile A. Bacha, Henry L. Walters III, Marshall L. Jacobs

Table of Contents *continued*

The importance of nomenclature for congenital cardiac disease: implications for research and evaluation <i>Matthew J. Strickland, Tiffany J. Rieble-Colarusso, Jeffrey P. Jacobs, Mark D. Reller, William T. Mable, Lorenzo D. Botto, Paige E. Tolbert, Marshall L. Jacobs, François G. Lacour-Gayet, Christo I. Tchervenkov, Constantine Mavroudis, Adolfo Correa</i>	92
B. DATABASE	
Databases for assessing the outcomes of the treatment of patients with congenital and paediatric cardiac disease – the perspective of cardiac surgery <i>Marshall L. Jacobs, Jeffrey P. Jacobs, Rodney C.G. Franklin, Constantine Mavroudis, François G. Lacour-Gayet, Christo I. Tchervenkov, Hal L. Walters III, Emile A. Bacha, David R. Clarke, J William Gaynor, Thomas L. Spray, Giovanni Stellin, Tjark Ebels, Bobdan Maruszewski, Zdzislaw Tobota, Hiromi Kurosawa, Martin J. Elliott</i>	101
Databases for assessing the outcomes of the treatment of patients with congenital and paediatric cardiac disease – the perspective of cardiology <i>Kathy J. Jenkins, Robert H. Beekman III, Lisa Bergersen, Allen Everett, Thomas J. Forbes, Rodney C.G. Franklin, Thomas Klitzner, Otto N. Krogmann, Gerard R. Martin, Catherine L. Webb</i>	116
Databases for assessing the outcomes of the treatment of patients with congenital and paediatric cardiac disease – the perspective of anaesthesia <i>David F. Vener, Jeffrey P. Jacobs, Ebreinfried Schindler, Bobdan Maruszewski, Dean Andropoulos</i>	124
Databases for assessing the outcomes of the treatment of patients with congenital and paediatric cardiac disease – the perspective of critical care <i>Joan M. LaRovere, Howard E. Jeffries, Ramesh C. Sachdeva, Thomas B. Rice, Randall C. Wetzel, David S. Cooper, Geoffrey L. Bird, Nancy S. Ghanayem, Paul A. Checchia, Anthony C. Chang, David L. Wessel</i>	130
Databases for assessing the outcomes of the treatment of patients with congenital and paediatric cardiac disease – a comparison of administrative and clinical data <i>Karl F. Welke, Tara Karamlou, Brian S. Diggs</i>	137
C. STRATIFICATION OF COMPLEXITY AND OTHER BIOSTATISTICAL TOPICS	
Statistical issues in the analysis and interpretation of outcomes for congenital cardiac surgery <i>Sean M. O'Brien, Kimberlee Gauvreau</i>	145
Making sense of congenital cardiac disease with a research database: The Congenital Heart Surgeons' Society Data Center <i>Edward J. Hickey, Brian W. McCrindle, Christopher A. Caldarone, William G. Williams, Eugene H. Blackstone.</i>	152
Stratification of complexity: The Risk Adjustment for Congenital Heart Surgery 1 Method and The Aristotle Complexity Score – past, present, and future <i>Marshall L. Jacobs, Jeffrey P. Jacobs, Kathy J. Jenkins, Kimberlee Gauvreau, David R. Clarke, François G. Lacour-Gayet</i>	163
The assessment of complexity in congenital cardiac surgery based on objective data <i>David R. Clarke, François G. Lacour-Gayet, Jeffrey P. Jacobs, Marshall L. Jacobs, Bobdan Maruszewski, Christian Pizarro, Fred H. Edwards, Constantine Mavroudis</i>	169
D. VERIFICATION OF DATA	
Verification of data in congenital cardiac surgery <i>David R. Clarke, Linda S. Breen, Marshall L. Jacobs, Rodney C.G. Franklin, Zdzislaw Tobota, Bobdan Maruszewski, Jeffrey P. Jacobs</i>	177
E. LONGITUDINAL FOLLOW-UP	
Empowering a database with national long-term data about mortality: the use of national death registries <i>David L.S. Morales, Andrew J. McClellan, Jeffrey P. Jacobs</i>	188
PART III – ORGAN SPECIFIC COMPLICATIONS	
Cardiac complications associated with the treatment of patients with congenital cardiac disease: Consensus Definitions from the Multi-Societal Database Committee for Pediatric and Congenital Heart Disease <i>Emile Bacha, David S. Cooper, Ravi Thiagarajan, Rodney C.G. Franklin, Otto N. Krogmann, Barbara J. Deal, Constantine Mavroudis, Avinash Shukla, Thomas Yeb, Jr, Paul Barach, David Wessel, Giovanni Stellin, Steven D. Colan</i>	196
Arrhythmic complications associated with the treatment of patients with congenital cardiac disease: Consensus Definitions from the Multi-Societal Database Committee for Pediatric and Congenital Heart Disease <i>Barbara J. Deal, Constantine Mavroudis, Jeffrey P. Jacobs, Melanie Gevitz, Carl L. Backer</i>	202

Table of Contents *continued*

Complications relating to perfusion and extracorporeal circulation associated with the treatment of patients with congenital cardiac disease: Consensus Definitions from the Multi-Societal Database Committee for Pediatric and Congenital Heart Disease <i>Kenneth G. Shann, Carmen R. Giacomuzzi, Lynn Harness, Gerard J. Myers, Theron A. Paugh, Nicholas Mellas, Robert C. Groom, Daniel Gomez, Clarke A. Thuys, Kevin Charette, Jorge W. Ojito, Julie Tinius-Juliani, Christos Calaritis, Craig M. McRobb, Michael Parpard, Tom Chancy, Emile Bacha, David S. Cooper, Jeffrey P. Jacobs, Donald S. Likosky, on behalf of the International Consortium for Evidence-Based Perfusion</i>	206
Pulmonary complications associated with the treatment of patients with congenital cardiac disease: Consensus Definitions from the Multi-Societal Database Committee for Pediatric and Congenital Heart Disease <i>David S. Cooper, Jeffrey P. Jacobs, Paul J. Chai, James Jagggers, Paul Barach, Robert H. Beekman III, Otto N. Krogmann, Peter Manning</i>	215
Renal complications associated with the treatment of patients with congenital cardiac disease: Consensus Definitions from the Multi-Societal Database Committee for Pediatric and Congenital Heart Disease <i>Karl F. Welke, Joseph A. Dearani, Nancy S. Ghanayem, Marie J. Beland, Irving Shen, Tjark Ebels</i>	222
Haematological and infectious complications associated with the treatment of patients with congenital cardiac disease: Consensus Definitions from the Multi-Societal Database Committee for Pediatric and Congenital Heart Disease <i>Paul A. Checchia, Tara Karamlou, Bobdan Maruszewski, Richard G. Obye, Ronald Bronicki, Ali Dodge-Khatami</i>	226
Neurological complications associated with the treatment of patients with congenital cardiac disease: Consensus Definitions from the Multi-Societal Database Committee for Pediatric and Congenital Heart Disease <i>Geoffrey L. Bird, Howard E. Jeffries, Daniel J. Licht, Gil Wernovsky, Paul M. Weinberg, Christian Pizarro, Giovanni Stellin</i>	234
Gastrointestinal complications associated with the treatment of patients with congenital cardiac disease: Consensus Definitions from the Multi-Societal Database Committee for Pediatric and Congenital Heart Disease <i>Nancy S. Ghanayem, Joseph A. Dearani, Karl F. Welke, Marie J. Beland, Irving Shen, Tjark Ebels</i>	240
Congenital cardiac surgical complications of the integument, vascular system, vascular-line(s), and wounds: Consensus Definitions from the Multi-Societal Database Committee for Pediatric and Congenital Heart Disease <i>Henry L. Walters III, Howard E. Jeffries, Gordon A. Coben, Thomas Klitzner</i>	245
Endocrinal complications associated with the treatment of patients with congenital cardiac disease: Consensus Definitions from the Multi-Societal Database Committee for Pediatric and Congenital Heart Disease <i>Heather Dickerson, David S. Cooper, Paul Checchia, David P. Nelson</i>	256
Complications related to the transplantation of thoracic organs: Consensus Definitions from the Multi-Societal Database Committee for Pediatric and Congenital Heart Disease <i>Howard E. Jeffries, Geoff Bird, Yuk Law, Gil Wernovsky, Paul Weinberg, Christian Pizarro, Giovanni Stellin</i>	265
Anesthetic complications associated with the treatment of patients with congenital cardiac disease: Consensus Definitions from the Multi-Societal Database Committee for Pediatric and Congenital Heart Disease <i>David F. Vener, Christopher F. Tirota, Dean Andropoulos, Paul Barach</i>	271
PART IV – THE DICTIONARY OF DEFINITIONS OF COMPLICATIONS ASSOCIATED WITH THE TREATMENT OF PATIENTS WITH CONGENITAL CARDIAC DISEASE	282

Cardiology in the Young © 2008 Cambridge University Press, ISSN 1047-9511 is published bi-monthly

Subscription information: Volume 18 (6 issues) will appear in 2008. Correspondence concerning subscriptions should be addressed to: Journals Customer Services, Cambridge University Press, The Edinburgh Building, Cambridge CB2 8RU, UK. Tel: +44 (0)1223 326070; Fax: +44 (0)1223 325150; E-mail enquiries: journals_subscriptions@cambridge.org; Web: www.cambridge.org; Cambridge Journals Online: www.journals.cambridge.org. The subscription rate for 2008 Volume 18 (6 issues) is: Individual rate £290 or US\$475; Institutional rate £565 or US\$930. All prices inclusive of postage. Cheques should be made payable to Cambridge University Press. Copyright: The submission of a manuscript implies the following: (a) that the work described has not been published before, except in the form of an abstract or as part of a published lecture, review, or thesis; (b) that it is not under consideration for publication elsewhere; (c) that all co-authors approve its publication; (d) that its publication is approved by the responsible authorities at the institute where the work has been carried out; (e) that when the manuscript is accepted for publication, the authors agree to the automatic transfer of the copyright to the publisher; (f) that the manuscript will not be published elsewhere in any language without the consent of the copyright holders, and (g) that written permission of the copyright holder is obtained by the authors for material used from other copyrighted sources.
