BRITISH JOURNAL OF NUTRITION

Editor-in-Chief

G C Burdge, *University of Southampton, UK*

British Journal of Nutrition is a leading international peer-reviewed journal covering research on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. The journal recognises the multi-disciplinary nature of nutritional science and includes material from all of the specialities involved in nutrition research, including molecular and cell biology, and the emerging area of nutritional genomics.

NUTRITION RESEARCH REVIEWS, VOLUME 27 - ISSUE 2

Autism and nutrition: the role of the gut–brain axis <i>Marijke M. H. van De Sande, Vincent J. van Buul & Fred J. P. H. Brouns</i>	199–214	How to measure mood in nutrition research <i>Richard Hammersley, Marie Reid & Stephen L. Atkin</i>	284–294
Vitamin E–drug interactions: molecular basis and clinical relevance <i>Maren Podszun & Jan Frank</i>	215–231	Dietary fibre and the importance of the gut microbiota in feline nutrition: a review <i>Kristel Rochus, Geert P. J. Janssens & Myriam Hesta</i>	295–307
An evidence-based method for examining and reporting cognitive processes in nutrition research <i>Matthew P. Pase & Con Stough</i>	232–241	Are intact peptides absorbed from the healthy gut in the adult human? <i>Warren M. Miner-Williams, Bruce R. Stevens & Paul J. Moughan</i>	308–329
Twin studies advance the understanding of gene–environment interplay in human nutrigenomics <i>Tess Pallister, Tim D. Spector & Cristina Menni</i>	242–251	Worldwide trends in dietary sugars intake <i>Anna Wittekind & Janette Walton</i>	330–345
Biochemical markers for assessment of calcium economy and bone metabolism: application in clinical trials from pharmaceutical agents to nutritional products <i>Jean-Philippe Bonjour, Wendy Kohrt, Régis Levasseur, Michelle Warren, Susan Whiting & Marius Kraenzlin</i>	252–267		
Is there a role for vitamin C in preventing osteoporosis and fractures? A review of the potential underlying mechanisms and current epidemiological evidence <i>Henriette Finck, Andrew R. Hart, Amy Jennings & Ailsa A. Welch</i>	268–283
