

General Notes

INSTITUT GEORGES PORTMANN
CLINIQUE UNIVERSITAIRE D'OTO-RHINO LARYNGOLOGIE
DE BORDEAUX

34TH ENGLISH COURSE ON MICRO SURGERY IN OTOTOLOGY AND OTONEUROLOGY

from July 5–10, 1993

Conducted by Professor Michel Portmann, M.D.

- Participation of Jean-Pierre Bebear, M.D. and Guy Lacher M.D. (Bordeaux)
- with collaboration of A. Richards, N. Shah (London, UK) and J. Garro (Washington D.C., U.S.A.)
- and the collaboration of the Staff of the E.N.T. Department of the University of Bordeaux.

A six-day intensive course including:

- Theoretical and practical lectures: basic principles in otological surgery/pathology of the middle ear/impedance audiometry/various techniques of tympanoplasty/reconstruction of the middle ear/agenesia of the ear/ossiculoplasty/facial nerve surgery/surgery for vertigo/oto-neuro surgery (neurinoma, etc.)
- Surgical demonstrations on colour T.V.
- Temporal bone dissection (equipment provided to each participant)
- Cases presentations
- Discussion

The course will be given in English

CME CREDIT: 59 hours sponsored by the American Academy of Otolaryngology Head and Neck Surgery.

Fee: FF 5600

Institute G. Portmann members, residents in training (with a letter of certification) will benefit from a 20% discount

✉

APPLICATION FORM

to be returned as soon as possible to

Institut G. Portmann
114 avenue d'Arès—33074 Bordeaux Cedex-France

TEMPORAL BONE SURGICAL DISSECTION COURSE

OFFERED BY

THE DEPARTMENT OF OTOLARYNGOLOGY

THE UNIVERSITY OF MICHIGAN MEDICAL SCHOOL, ANN ARBOR, MICHIGAN

COURSE DIRECTOR: STEVEN TELIAN, M.D.

1993: 3-7 May, 24-28 May, 18-22 October, 8-12 November

Intensive one-week courses emphasize the surgical and anatomical approaches to the temporal bone, and are presented in a manner relevant for the otologic surgeon, utilizing lectures, videotapes, and dissection.

Mornings and afternoons are spent in the dissection laboratory, giving extensive drilling experience in temporal bone anatomy and surgical techniques. All instruments and high-speed handpieces will be provided.

Course fee: Physicians \$1,000; Residents \$750.

For further information write:

Steven Telian, M.D.,
Taubman Medical Center,
1500 E. Medical Center Drive,
Ann Arbor,
Michigan 48109-0312, U.S.A.
Tel: (313) 936-7633.

OTOLOGIA OGGI — OTOLOGY TODAY

Dept. of E.N.T., Ospedali Civili Riuniti, Venice Italy
The Regional Center for Audiology, Venice Italy
Italian Academy of Rhinology, Bologna Italy

11th INTERNATIONAL WINTER COURSE

on

Ear Surgery, Cosmetic Surgery of the Nose and Face, Endoscopic Sinus Surgery, The Cochlear Implant
(An intensive one-week Workshop with morning Seminars and afternoon invited Lectures)

Selva Gardena, Dolomites, Italy

January 16–23, 1993

Course Directors

G. Babighian and G. Sulsenti

Prospective Faculty

E. Arslan (Italy), G. Babighian (Italy), B. Fraysse (France), B. Hose (Switzerland), C. S. Kim (Korea), J. Magnan (France), D. Mecklenburg Allum (Switzerland), U. Mercke (Sweden), R. Meyer (Switzerland), R. Pujol (France), G. Rettinger (Germany), J. Sadé (Israel), S. D. Schaefer (USA), L. D. Schoenrock (USA), G. Sulsenti (Italy), M. Tos (Denmark)

Use of protein electrophoresis in the diagnosis of cerebrospinal fluid rhinorrhoea. *Orig. Art.*, 504

SUBJECT INDEX

- Abscess**
cervical, necrobacillosis. **106:** 374
- Acoustic Schwannoma**
hearing preservation. **106:** 500
tinnitus post translabyrinthine approach. **106:** 329
- Adenoidectomy**
day case surgery. **106:** 299
- Adenoids**
comparison of radiological assessment with clinical findings. **106:** 342
- Adenotonsillectomy**
day case surgery. **106:** 299
- Airway obstruction**
laryngeal candidiasis. **106:** 168
oral epulis. **106:** 444
- Anaesthesia**
epidural, hearing loss. **106:** 783
jet insufflation in microlaryngeal surgery. **106:** 42
topical, children, ventilation tubes. **106:** 427
- Angiosarcoma**
nasal cavity. **106:** 368
- Aspergillosis**
rhinocerebral. **106:** 981
- Audiology**
paediatric, oto-acoustic emissions. **106:** 301
- Bone cement**
ionomeric, neuro-otological surgery. **106:** 949
ionomeric, otological surgery. **106:** 954
- Branchial apparatus**
cleft anomalies. **106:** 137
pouch anomalies. **106:** 137
- Branchial cyst**
endoscopy. **106:** 1006
- Bronchus**
laryngo-tracheo-bronchopathia chondro-osteoplastica. **106:** 845
- Candidiasis**
laryngeal. **106:** 168
- Carcinoma**
adenoid cystic, histology. **106:** 1016
basaloid-squamous, nasal cavity. **106:** 370
head and neck, multimodality treatment. **106:** 234
thyroid gland. **106:** 932
laryngopharynx, salvage surgery following irradiation. **106:** 147
maxillary antrum, radiotherapy. **106:** 1063
maxillary sinus, pain. **106:** 804
nasopharyngeal, otological status, radiotherapy. **106:** 1055
nasopharynx, radiotherapy, evoked potential audiometry. **106:** 887
oral cavity. **106:** 127
oropharynx. **106:** 127
palate. **106:** 130
salivary terminal duct. **106:** 649
squamous cell, nasal vestibule. **106:** 332
temporal bone. **106:** 908
tongue, radiotherapy. **106:** 712
T₂ and T₃ laryngeal. **106:** 349
- Cerebrospinal rhinorrhoea**
protein electrophoresis diagnosis. **106:** 504
- Ceruminous glands**
tumours. **106:** 727
- Chlamydia pneumoniae**
in otolaryngeal disease. **106:** 208
otitis media with effusion. **106:** 490
- Choanal atresia**
endoscopic nasal surgery. **106:** 528
nasal endoscopy. **106:** 977
- Cholesteatoma**
antrum exclusion technique. **106:** 120
CT detection after 'closed cavity' surgery. **106:** 393
posterior mesotympanic management. **106:** 496
- Chondrosarcoma**
larynx. **106:** 450
- Chordoma**
parapharyngeal space. **106:** 549
- Cis-platinum**
head and neck cancer. **106:** 832
- Citation**
Dr John Shea, Jr. **106:** 1033
- Cleft palate**
otitis media with effusion. **106:** 788
- Cochlear implants**
congenital deformities. **106:** 967
- Collagen**
injectable, safety. **106:** 704
- Conference Reports**
Hong Kong and back 1991. **106:** 1105
1st European symposium on paediatric cochlear implantation. **106:** 1109
4th International Conference on cholesteatoma and mastoid surgery. **106:** 1107
- Corticosteroids**
topical, nose, adrenal suppression. **106:** 827
topical, nose. **106:** 810
- Cowden's disease**
immunophenotypes, palatal tonsil lymphocytes. **106:** 640
- Cranial nerves**
VIIth and VIIIth, vascular cross compression. **106:** 436
- CT scanning**
cholesteatoma detection after 'closed cavity' surgery. **106:** 393
pitfalls in follow up of cervical and mediastinal goitres. **106:** 65
- Cyst**
cholesterol. **106:** 465
vallecular, neonatal. **106:** 448
- Darier's disease**
external ear. **106:** 725
- Day case surgery**
tonsillectomy, adenoidectomy and adenotonsillectomy. **106:** 299
- Deafness, sudden**
eustachian tube function. **106:** 322
- Dyskeratosis congenita**
nasopharyngeal atresia. **106:** 996
- Dysphagia**
milk nasendoscopy. **106:** 525
tetanus. **106:** 923
- Ear, external**
ceruminous gland tumours. **106:** 727
Darier's disease. **106:** 725
primary neuroendocrine carcinoma of skin. **106:** 258
- Ear, middle**
aural polyp. **106:** 313
chronic disease, only hearing ear. **106:** 793
chronic suppurative otitis media, complications. **106:** 874
necrosis of incus by chorda tympani nerve. **106:** 252
persistent stapedial artery. **106:** 254
salivary gland choristoma. **106:** 630
transitional papilloma. **106:** 628
- Ear canal/meatus**
(external) Pope wick dressing. **106:** 327
- Ear canal/meatus (external)**
fistula, temporomandibular joint, otitis externa. **106:** 994
foreign bodies. **106:** 157
- Ear drops**
distribution of. **106:** 247
- Electron microscopy**
diagnosis of tumours of head and neck. **106:** 403
- Endolymphatic sac**
carbonic anhydrase isoenzymes. **106:** 98

- Endoscopy**
adenoid assessment. **106:** 342
branchial cyst. **106:** 1006
panendoscopy, complications. **106:** 903
transcanal myringoplasty. **106:** 493
- Endoscopy, nasal**
foreign body, pharynx. **106:** 709
foreign body, sphenothmoidal junction. **106:** 998
milk, dysphagia. **106:** 525
surgery, posterior choanal atresia. **106:** 528
- ENT casualty**
open access. **106:** 719
- Ephedrine**
in treatment of relapsing perichondritis. **106:** 63
- Epidemiology**
nasal and maxillary tumours. **106:** 337
- Epiglottis**
acute, nasotracheal intubation. **106:** 1072
ossification. **106:** 180
- Epistaxis**
choriocarcinoma metastasis in maxilla. **106:** 917
combined arterial occlusion. **106:** 507
comparison of calcium sodium alginate (Kaltostat[®]) and bismuth tribromophenate (Xeroform[®]). **106:** 1067
- Ethmoid sinus**
mucocoeles. **106:** 23
- Eustachian tube function**
sudden hearing loss. **106:** 322
- Evoked potential audiometry**
nasopharyngeal carcinoma, radiotherapy. **106:** 887
- External ear**
pseudocyst, histology. **106:** 103
pseudocyst, medical management. **106:** 159
- Fibrin glue**
autologous in dural repair. **106:** 356
- Fibromatosis**
head and neck. **106:** 459
- Fibrosarcoma**
antrochoanal, radiation-induced. **106:** 547
- Fistula**
inner canthus, ethmoiditis. **106:** 1076
- Flap**
pedicled musculo-fascial. **106:** 124
- Foetal warfarin syndrome**
airway. **106:** 1098
- Foreign bodies**
external ear canal. **106:** 157
suspected aspiration. **106:** 453
- Foreign body**
aspiration. **106:** 751
impacted bullet in neck. **106:** 1091
oesophagus. **106:** 556
pharynx, nasal endoscopy. **106:** 709
sphenothmoidal junction, endoscopy. **106:** 998
suspected, arytenoid calcification. **106:** 1089
- Fraser syndrome**
ENT manifestations of. **106:** 1
- Fusobacterium necrophorum**
cervical abscess. **106:** 374
- Goitre**
cervical and mediastinal. **106:** 65
- Granuloma**
cholesterol. **106:** 465
- Groningen valve**
characteristics. **106:** 521
measurements. **106:** 896
voice prosthesis. **106:** 154
- Haemangioma**
cavernous, temporal bone. **106:** 1086
- Head and neck**
cancer, cisplatin-albumin. **106:** 832
cancer, combined therapy. **106:** 412
cancer surgery, antimicrobial prophylaxis. **106:** 409
cancer surgery, quality of life. **106:** 238
fast neutron therapy for cancer of. **106:** 144
fibromatosis. **106:** 459
fine needle aspiration, cytology. **106:** 755
malignant germ cell tumours. **106:** 268
prophylactic antibiotics in surgery of advanced cancer. **106:** 621
stage IV squamous cell carcinoma, multimodality treatment. **106:** 234
teratoma. **106:** 836
tumour diagnosis with electron microscopy. **106:** 403
- Hearing**
preservation in acoustic Schwannoma surgery. **106:** 500
- Hearing aid**
prescription for elderly. **106:** 963
- Hearing loss**
epidural anaesthesia. **106:** 783
relapsing polychondritis, tracheal stenosis. **106:** 841
sudden, osteoma, internal auditory canal. **106:** 905

cystic, parotid gland. **106:** 566

- Lymphoma**
granulomatous cutaneous T-cell, neck. **106:** 563
- Malakoplakia**
neck, prediagnostic. **106:** 173
- Mastoid**
acoustic properties of cavities. **106:** 597
- Mastoid antrum**
large (mega antrum). **106:** 164
- Mastoid surgery**
antrum exclusion technique. **106:** 120
'closed cavity' cholesteatoma detection by CT. **106:** 393
distribution of topical antibiotic preparations in mastoid cavities. **106:** 247
reconstruction with pedicled musculo-fascial flap. **106:** 124
- Mastoiditis**
bilateral acute, lateral sinus thrombosis. **106:** 535
- Maxillary neoplasms**
carcinoma maxillary antrum, radiotherapy. **106:** 1063
carcinoma, pain. **106:** 804
chondrosarcoma. **106:** 53
choriocarcinoma, epistaxis. **106:** 917
epidemiology in Kenya. **106:** 337
- Maxillary sinus**
antroscore, rhinoscleroma. **106:** 697
atrophic rhinitis, endoscopy and radiology. **106:** 702
destructive false aneurysm. **106:** 1103
fusariosis. **106:** 733
- Meningocele**
cervical, neck mass. **106:** 463
- Montgomery T-tube**
inhalation of safe plug. **106:** 1004
- Montgomery t-tube**
subglottic stenosis, CO₂ laser. **106:** 829
- Mouth**
primary gingival leiomyosarcoma. **106:** 44
- Mouth neoplasms**
oral epulis, difficult intubation. **106:** 444
prognosis. **106:** 399
- Mucocoele**
ethmoid and sphenoid sinus study. **106:** 23
- Mucomycosis**
rhinocerebral. **106:** 48
- Myasthenia gravis**
laryngeal stridor. **106:** 633
stridor, **106:** 737
- Myoepithelioma**
nuclear organiser regions. **106:** 616
- Myringitis**
bullosa haemorrhagica. **106:** 162
- Myringoplasty**
endoscopic transcanal. **106:** 493
fibrous annulus in. **106:** 116
Kerr flap for anterior perforation. **106:** 14
Pope wick dressing. **106:** 327
- Nasal bone**
cavernous haemangioma. **106:** 264
- Nasal cavity**
teeth. **106:** 366
- Nasal endoscopy**
posterior nasal obstruction. **106:** 977
- Nasal injury**
external nasal nerve division. **106:** 915
measurement of nasal displacement by photography. **106:** 211
- Nasal neoplasms**
acute leukaemic infiltration. **106:** 261
angiosarcoma. **106:** 368
basaloid-squamous carcinoma. **106:** 370
benign nasal Schwannoma. **106:** 1011
epidemiology in Kenya. **106:** 337
fibromatosis, dorsum. **106:** 821
mesenchymal chondrosarcoma. **106:** 1081
- Nasal packing**
pre-op nasal preparation. **106:** 39
- Nasal polyps**
identical twins. **106:** 1084
surgery, antral washout. **106:** 695
- Nasal preparation**
pre packing and spraying compared. **106:** 39
- Nasal septum**
haematoma in Nigeria. **106:** 396
perforation, Xomed septal button. **106:** 358
perforations, repair. **106:** 893
- Nasal vestibule**
squamous cell carcinoma. **106:** 332
- Nasopharyngeal atresia**
dyskeratosis congenita. **106:** 996
- Nasopharyngeal neoplasms**
carcinoma, radiotherapy, evoked potential audiometry. **106:** 887
occult, detection of. **106:** 345
otological status, radiotherapy. **106:** 1055
- Nasopharynx**
Corynebacterium ulcerans. **106:** 824
tuberculosis. **106:** 1079
- Neck**
bilateral internal jugular phlebectasia. **106:** 753
cervical abscess, necrobacillosis. **106:** 374
cervical meningocele. **106:** 463
foreign body. **106:** 1091
infection. **106:** 455
lymphoma. **106:** 563
multiple ganglioneuroma. **106:** 279
necrotizing fasciitis. **106:** 1008
perforating injury. **106:** 925
prediagnostic malakoplakia. **106:** 173
- Neurectomy**
external nasal nerve, post-traumatic neuralgia. **106:** 915
- Neurofibromatosis 1**
cervical meningocele as neck mass. **106:** 463
- Noise**
speech in. **106:** 105
- Nose**
topical corticosteroids. **106:** 810
topical corticosteroids, adrenal suppression. **106:** 827
- Oesophagus**
ectopic thyroid mass. **106:** 744
foreign body. **106:** 556
- Oral cavity**
carcinoma of, surgery. **106:** 127
- Ornidazole**
antimicrobial prophylaxis for head and neck cancer surgery. **106:** 409
- Oropharynx**
carcinoma of, surgery. **106:** 127
neonatal vallecular cysts. **106:** 448
penetrating injury. **106:** 813
- Osophagus**
acute dilatation, stridor. **106:** 744
- Ossicles**
histology of 'stored' autologous. **106:** 17
- Ossicular chain**
ossiculoplasty with autografts and synthetic prosthesis. **106:** 692
reconstruction with autografts. **106:** 688
- Osteoma**
internal auditory canal. **106:** 905
- Otitis externa**
fistula between ear canal and temporomandibular joint. **106:** 994
malignant. **106:** 5
malignant, carcinoma temporal bone. **106:** 908
- Otitis media with effusion**
bacteria in nasopharynx. **106:** 111
Chlamydia pneumoniae. **106:** 490
cleft palate. **106:** 788
glue under pressure. **106:** 974
orthodontic perspective. **106:** 7

- Von Hippel-Lindau disease**
 temporal bone, choroid plexus tumour. **106:** 429
- Wegener's granulomatosis**
 AIDS-like disproportion of minor T-cell subsets. **106:** 133

Instructions to Authors

Review Articles. Articles of this type, preferably not exceeding 3,000 words will be considered but the author(s) are expected to be a recognised authority on the topic and have carried out work of their own in the relevant field.

Historical Articles. Articles of this type are generally encouraged, but it is obvious that they have to provide some new information or interpretation, whether it be about a well-known person or for example an instrument associated with him, but those from within a Hospital's own department who have made a hitherto less well-known contribution would be welcome.

Letters to the Editor. This feature has been re-introduced to give those who wish to comment about a paper previously published within the Journal, an opportunity to express their views. Wherever possible, the original author is asked to add his further comment, thereby adding to the value of the contribution. Such letters should be sent as soon as possible after publication of each month's issue of the Journal in the hope of including them early thereafter.

'Mini-papers, such as those which appear in the British Medical Journal, Lancet, or New England Journal of Medicine, will not be acceptable except on the rare occasion that they bring information of immediate interest to the reader.

Pathology. Articles which are of pathological interest with particular emphasis on the way the diagnosis was achieved now appear on a monthly or bi-monthly basis. It is hoped that clinicians will involve their pathologists in these reports, and all illustrations must be of first-class quality. Where a department, particularly those overseas, may not have such specialized facilities, it may be possible, if a block or several unstained sections are provided for our Adviser to produce or supplement the illustration submitted. Only contributions of particular pathological interest will be accepted.

Radiology. Short reports on cases in which the radiology has been crucial in the making of the diagnosis or the management of a particular case now appear on a monthly or bi-monthly basis. This spot is to encourage clinicians and radiologists to produce material of particular interest in the specialty and to encourage co-operation in this field. Only presentations with first-class illustrations can be accepted and these must emphasise a problem of unusual clinical interest.

Short Communications. This feature will be used on an occasional basis. Examples of material suitable for inclusion under this title would be, for example: a piece of work which was of clinical interest but had failed to produce findings which were of statistical significance; where an investigative technique has been applied to an allied field, not warranting a further in-depth description of its earlier application and methodology.

'**Silence in Court**'. Articles on medicolegal topics are welcome but a preliminary letter written beforehand is requested to ensure that the contribution would be appropriate.

Check List for Authors/Secretaries

1. Title page—Titles should be short with names of the authors, higher degrees only and the city/country. Details of the departments in which the authors work should be put lower down.
An address for correspondence should be supplied together with the author who should receive this; this will ultimately appear beneath the list of references. If the paper was presented at a meeting, the details of this must be given and will be inserted at the bottom of the first page of the printed script.
2. Abstract—No paper will be accepted without this and it adds considerably to the Editor's time to have to write and request this if the paper is accepted.
3. Key Words—only those appearing as Medical Subject Headings (MeSH) in the supplement to the Index Medicus may be used; where appropriate word(s) are not listed those dictated by common sense/usage should be supplied.
4. To follow the instructions to Authors with the way in which the paper is set out. It is preferred that each section should start on a fresh page with double spacing and wide margins.
5. References must be in the Harvard system; to submit a paper using the Vancouver system is automatically to have it returned or rejected.
6. Two sets of illustrations must be included, one of half-plate size and the other with the width of 80 mm. Illustrations must be clearly labelled with the author's name on the reverse side and where appropriate with an arrow to give orientation.
7. Authors to check manuscript and references to see that these match up particularly for dates and spelling.
8. Title of Journals must be given in full with the date, volume number and first and *last* pages.
9. Consent to be obtained from a patient if a photograph of their face is to be reproduced.
10. If the author to whom correspondence is to be directed changes his address, he should let the Editorial Office know as soon as possible.
11. Page proofs will normally be sent out one month in advance and must be returned as soon as possible.
12. Authors should provide a Facsimile number (FAX) whenever possible to speed communication. The FAX number of the Editorial office is 0483 306380.
13. Manuscripts with tables only may be transmitted by FAX; those with graphic or visual illustrations, e.g. graphs, X-rays, pathology, electrical records (ENG, BSER etc) must continue to be sent by post as the quality of reproduction does not give sufficient accuracy of detail.
