NORTH-HOLLAND

INSURANCE ABSTRACTS AND REVIEWS contains abstracts and reviews of articles and reports about insurance mathematics and economics. The journal provides an invaluable tool for researchers and practitioners in this field for whom a continuous flow of information on published work is of vital importance.

IAR cites all papers on insurance mathematics and/or insurance economics published in 41 "primary" journals, and in addition, the IAR Contributing Editors regularly screen some 53 "secondary" journals for relevant articles.

Extensive Coverage of the World's Literature:
