Cambridge Quarterly of Healthcare Ethics

A partner journal of the American Society for
Bioethics and Humanities

Editors

Thomasine Kushner, *University of California, Berkeley, USA*

Steve Heilig, *San Francisco Medical Center, USA*

Matti Häyry, *University of Manchester, UK*

Cambridge Quarterly of Healthcare Ethics is designed to address the challenges of biology, medicine and healthcare, and to meet the needs of professionals serving on healthcare ethics committees in hospitals, nursing homes, hospices and rehabilitation centres. The aim of the journal is to serve as the international forum for the wide range of serious and urgent issues faced by members of healthcare ethics committees, physicians, nurses, social workers, clergy, lawyers and community representatives.

Health Economics, Policy and Law

Published in association with LSE Health

Editor-in-Chief

Adam Oliver, *London School of Economics and Political Science, UK*

International trends highlight the confluence of economics, politics and legal considerations in the health policy process. *Health Economics, Policy and Law (HEPL)* provides a forum for inter-disciplinary health policy studies, and will be of use to academics, policy makers, health care managers and professionals. *HEPL* is international in scope, publishing both theoretical and applied work, with articles on all aspects of health policy. *HEPL* is particularly interested in publishing innovative ideas that promise to contribute to improving health and healthcare policy. Considerable emphasis is placed on rigorous conceptual development and analysis, and on the presentation of empirical evidence that is relevant to the policy process. Review articles and debate sections bring readers in touch with current research developments and issues.

Palliative & Supportive Care

Editor-in-Chief

William Breitbart, *Memorial Sloan-Kettering Cancer Center, USA*

Editors

Harvey Max Chochinov, *University of Manitoba, Canada*

Simon Wein, *Rabin Medical Centre, Israel*

Managing Editor

Donna Cassetta, *Memorial Sloan-Kettering Cancer Center, USA*

Palliative & Supportive Care is an international journal of palliative medicine that focuses on the psychiatric, psychosocial, spiritual, existential, ethical, and philosophical aspects of palliative care. Its aim is to serve as a resource for practitioners and researchers, from a wide array of disciplines, engaged in the care and study of those with life-threatening illnesses along the entire continuum of care from diagnosis to the end of life. The journal's scope is broad and relates to all aspects of palliative medicine that do not exclusively deal with the administration of palliative care or hospice services, or with the primary management of pain and physical symptoms in palliative care.

International Journal of Technology Assessment in Health Care

Instructions for Contributors

The Journal welcomes submissions of articles that evaluate health technologies to support health policy or practice decisions, or discuss methods of assessing such technologies; please see Journal Aims and Scope for details. Manuscripts are screened by the Editors and members of the Editorial Board. Those that pass proceed to an international review process, which usually is completed within 4 to 10 weeks. Accepted manuscripts will be published within 4 to 6 months. Articles must be in English. Spelling, capitalization, and punctuation should conform to the 15th Edition of *The Chicago Manual of Style* (University of Chicago Press).

MANUSCRIPT SUBMISSION AND REVIEW. All manuscript submissions to the *International Journal of Technology Assessment in Health Care* must be made electronically via ScholarOne Manuscripts, at the website:

<http://mc.manuscriptcentral.com/thc>

Please follow the detailed instructions on the website to avoid delays. The authors are asked to provide contact information and they may suggest reviewers. The website automatically acknowledges receipt of the manuscript and provides a manuscript reference number. Every effort will be made to provide the author with a rapid review. Correspondence must quote manuscript reference number and should be sent by email to the Editorial Office at IJTAHC@thl.fi.

PREPARATION OF MANUSCRIPT. The manuscript, including all references, must be provided in Word or RTF format, double spaced on 8½ × 11 inch or A4 page sizes, with at least 1-inch (2.54 cm) margins. Manuscripts should typically have less than 4,000 words, including the abstract of 250 words maximum, and usually no more than 25 references. Manuscripts should be arranged as follows:

- 1) cover sheet with title and short title;
- 2) abstract and keywords;
- 3) acknowledgments, including source of funding;
- 4) text;
- 5) references;
- 6) tables with titles; and
- 7) figures, with captions on a separate page.

The Journal accepts no more than four tables or figures altogether for the print version. Tables and figures exceeding these limits may be posted on the Journal's web site (www.journals.cambridge.org/thc) as supplementary materials. Supplementary tables and figures should be numbered separately from the tables and figures in the printed issue, beginning with Supplementary Table 1 and Supplementary Figure 1. The Journal does not accept footnotes or appendices.

Where relevant, manuscripts should include a paragraph on the policy implications of the findings of the study. Acronyms should be clearly spelled out on first use. The use of product trade names should be avoided; generic names should be used except where discussion of proprietary brands is essential to the manuscript.

COVER SHEET AND COVER LETTER. A cover letter, signed by all authors, must attest that 1) each author contributed to the conception and design or analysis and interpretation of data and the writing of the paper; 2) each has approved the version being submitted; and 3) the content has not been published nor is being considered for publication elsewhere.

As relevant to the content of the paper, the letter should also attest to the fact that any research with human or animal subjects conforms to the legal and ethical standards of the country in which it was performed. *All authors must disclose any financial arrangements with companies whose products are discussed in the paper or their competitors*; such information will not be revealed to reviewers but may be included in a suitable format in the final publication if the manuscript is accepted.

Access the Conflict of Interest disclosure form at http://www.icmje.org/coi_instructions.html. The cover letter should also provide all authors' full names, professional degrees, and institutional mailing addresses.

The cover sheet should list

- 1) the article's full title,
- 2) a short title (50 characters or less) for the running head
- 3) the name of the corresponding author and her/his
- 4) complete mailing address,
- 5) telephone number, and
- 6) e-mail address.

ABSTRACT AND KEYWORDS. A 100- to 250-word abstract, submitted on a separate page, should *summarize* the objectives of the study or analysis, the article's major arguments and/or results, and its conclusions/recommendations. *Abstracts must be submitted in four sections:* Objectives; Methods; Results; and Conclusions, except where the subject or format of the article does not permit. Three to five key words, using terms from the Medical Subject Headings from *Index Medicus*, should follow the abstract.

REFERENCES AND NOTES. *The references must be arranged according to the ICMJE Uniform Requirements for Manuscripts (URM): numbered consecutively in order of appearance in the text, identified by Arabic numerals in parentheses.* Bibliographic citations in the text should be indicated by Arabic numerals in parentheses. When authors are mentioned in the text, the citation number should immediately follow the name(s) as follows:

In-text citations: "Jones and Smith (7) maintained that. . ."

If a work has more than five authors, the first three authors should be listed, followed by et al. Abbreviate journal titles according to the listing in the current *Index Medicus*.

Book: 1. Jones AB, Smith JK. *Computer diagnosis and results*. New York: Penta Publishers; 2011.

Journal: 1. Jones AB, Smith JK. The relationship between health needs, the hospital, and the patient. *J Chron Dis*. 2012;49:310-2.

Article in edited work: 1. Jones AB, Smith JK. The diagnostic process. In: Brown R, Wilson T, eds. *New technology and its medical consequences*, vol. 1. New York: Apple Publishers; 2013:101-34.

In the reference list, do not include material that has been submitted for publication but has not yet been accepted. This material, with its date, should be noted in the text as "unpublished data" as follows: **Unpublished data:** "Similar findings have been noted by L. W. Smith (unpublished data, 2013)."

See http://www.nlm.nih.gov/bsd/uniform_requirements.html for details.

TABLES AND FIGURES. Tables and figures should be numbered consecutively. All tables and figures must have a caption and must be cited in the text. Abbreviations in tables and figures should be avoided, except in the case of acronyms already used in the text. Table footnotes appear directly after the table; table references follow the footnotes. Tables must be submitted in Word or RTF and figures in tif, jpg or eps format.

PERMISSIONS. Authors are responsible for obtaining written permission to publish material for which they do not own the copyright. Contributors will be asked to assign their copyrights to Cambridge University Press.

OPEN ACCESS. Our standard copyright forms allow Open Access Archiving (for instance posting the Accepted Manuscript in an Institutional Repository or on a personal webpage). Authors can also choose to publish Open Access (making articles freely available for non-commercial use) in a large number of our Journals by using Cambridge Open Option. For complete information on all the options available please visit

<http://journals.cambridge.org/OpenAccess>

COPYEDITING AND PROOFREADING. The publishers reserve the right to copyedit and proofread all accepted articles. Page proofs will be sent to the lead author for final review.

REPRINTS. Reprints may be purchased if ordered at proof stage.
