## NOTES FOR CONTRIBUTORS

The titles of books and periodicals should be written in italics (in typing, *underlined*), the titles of articles in periodicals in Roman letters between quotation marks.

REFERENCES : The volume and date of a periodical and the publication date of a book should both be cited in the first reference to it. The number of a volume in a series should be written in capital Roman numerals.

TRANSCRIPTION : *Modern Turkish* place and personal names should always be written in the current Turkish orthography. In typing, the dotless *i* should be represented by *I* in the body of a word.

GREEK NAMES which have become established in English usage should be given in the familiar English form (e.g., Ptolemy). Greek proper names which have recognized Latin transliterations should be given in the latter form (e.g. Bœotia, not Boiotia). Otherwise the Greek form should be used in referring to the Greek period of occupation of places which were later Romanized (e.g. Taras ; later Tarentum).
