

The following papers have been accepted for publication and will appear shortly:

GUINAND, A. P. A note on repeated general transformations.

PESCHL, E. and MÜLLER, Cl. Zur Verallgemeinerung des Schwarzes Lemmas auf mehrere Dimensionen.

STEWARTSON, K. Supersonic flow over an inclined wing of zero aspect ratio.

EDMONDS, S. M. The Parseval formulæ for monotonic functions (papers II and III).

DE WET, J. S. A note on the relativistic invariance of quantized field theories.

MARSH, N. H. An improved approximate analytic solution of the Thomas-Fermi equation for atoms.

HEINS, A. E. A note on a singular equation.

HARTREE, D. R. A method for the numerical integration of first-order differential equations.

HEILBRONN, H. On Euclid's algorithm in cubic self-conjugate fields.

GOOD, I. J. A proof of Liapounoff's inequality.

DEAN, W. R. Note on the motion of liquid near a position of separation.

FRIEDLANDER, F. G. On the asymptotic behaviour of the solution of a class of non-linear differential equations.

CONTENTS
