Retirements

Martin Chancey, Kent State University, has retired as an associate professor in the Department of Political Science.

Donovan F. Emch, professor emeritus, University of Toledo.

Howard D. Hamilton, Kent State University, has retired after five years as professor of political science to resume farming in Brown County, Indiana.

Correction

In the Fall 1975 *PS*, the co-author's name of "The Practitioner's Perspective" was misspelled as "Neal." It should have been Marion Neef. *PS* regrets this error.

In Memoriam

William J. Clark

William J. Clark, Professor of Political Science at St. Mary's College, died July 1, 1975, at the age of 58.

A native of Chester, Iowa, Professor Clark graduated from Cornell College, Mt. Vernon, Iowa in 1936. After a long career in the United States Army he returned to the academic world to complete his graduate work at the University of Nebraska in Political Science in 1967.

While serving in the army as a professional soldier from 1942-63, he attended numerous language and intelligence schools in the United States and overseas. He concentrated on Russian language. For four years, from 1958 until 1961, he served in the Office of Assistant Chief of Staff for Intelligence, where in his capacity as branch chief he supervised eight country desk officers in the production of intelligence studies on Eastern Europe. Before completing his army career he was promoted to commanding officer of Strategic Military Intelligence Department where he supervised, and was responsible for, the research, analysis, writing, editing, production and disseminating of numerous strategic area and country studies. Overseas service included tours of duty and extensive travel in the Philippine Islands, Okina-

wa, Japan, Korea, Germany and Central Europe.

Just prior to joining the faculty at St. Mary's College in 1967 his interest in civil defense led him throughout the state of Nebraska as speaker and instructor on Civil Defense orientation, organization, administration and operations for local government officials.

His many students in political science were the beneficiaries of this background of travel, experience and administration. His chief interest focused on Southeastern Asian studies, but he also offered courses on state and local government. Students voted him the Best Teacher of the Year award in 1969.

In addition to traditional classwork he served many important committees where his vast experience and personal insights again furthered the interests of the college.

In his spare time he was an active worker in the Republican Party and a member of the La Crosse, Wisconsin chapter of Retired Officers.

Professor Clark's warm personality, his spirit of dedication and his sense of humor will be deeply felt by the administration, faculty, students and staff of St. Mary's College.
