

*Illustrations.* The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

a) Diagrams should be drawn in black ink, about twice the size of the finished block, on white paper or card, stout tracing paper or plastic film. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be avoided as far as possible but if unavoidable it should be included on a fly-leaf.

b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the editors.

c) Colour plates are unlikely to be accepted unless the authors bear the cost.

*Tables* should be as simple and as few as possible. Each table should be typed on a separate sheet.

*Abstract.* Every paper should have a short abstract (not more than 250 words) complete in itself and understandable without reference to the paper. The abstract will be printed at the beginning of the paper and preferably should be in the format of unnumbered short paragraphs.

*Keywords.* Up to a maximum of five keywords selected from the *CAB Thesaurus* (1988) or from an equivalent reference volume should be listed at the end of the Abstract.

*References.* Only papers closely related to the author's work should be referred to; exhaustive lists should be avoided. The arrangement of references should be as in recent papers in *Animal Science*; details are given in the notes for guidance.

*Proofs* are supplied once and must be returned corrected to the editors within 3 days. Only essential corrections should be made.

*Reprints.* Twenty-five reprints of each paper will be supplied free of charge to authors on request. Further copies may be purchased if the order is sent at the proof-stage.

*Annual subscription* is £140.00 (or \$255.00 in the USA and Canada) and the price for a single part is £24.00 (or \$43.00) net.

*Abstracts of papers presented at British Society of Animal Science winter meeting* are published as a separate section in the June issue of *Animal Science*.

*Correspondence* regarding subscriptions and sales (current and back numbers of the Journal) and any other enquiries, including those concerning copyright, should be addressed to: Durrant Periodicals, Winton Lea, Pencaitland, East Lothian, Scotland EH34 5AY.

*Senior editor*

T. L. J. Lawrence, University of Liverpool, UK

*Editors*

J. A. M. van Arendonk, University of Wageningen, The Netherlands

M. V. Dodson, Washington State University, USA

W. Haresign, University of Nottingham, UK

J. W. James, University of New South Wales, Australia

C. L. Johnson, University of Leeds, UK

## Papers

**Bowman, P. J., Visscher, P. M. and Goddard, M. E.**

Customized selection indices for dairy bulls in Australia

393

**Yan, T., Patterson, D. C., Gordon, F. J. and Porter, M. G.**

The effects of wilting of grass prior to ensiling on the response to bacterial inoculation. 1. Silage fermentation and nutrient utilization over three harvests

405

**Patterson, D. C., Yan, T. and Gordon, F. J.**

The effects of wilting of grass prior to ensiling on the response to bacterial inoculation. 2. Intake and performance by dairy cattle over three harvests.

419

**Caballero, A., Santiago, E. and Toro, M. A.**

Systems of mating to reduce inbreeding in selected populations

431

**Basiouni, G., Khalid, M. and Haresign, W.**

Effect of bovine follicular fluid treatment and progesterone priming on luteal function in GnRH-treated seasonally anoestrous ewes

443

**Woolaston, R. R. and Piper, L. R.**

Selection of Merino sheep for resistance to *Haemonchus contortus*: genetic variation

451

**Cockram, M. S., Kent, J. E., Goddard, P. J., Waran, N. K., McGilp, I. M., Jackson, R. E., Muwanga, G. M. and Prytherch, S.**

Effect of space allowance during transport on the behavioural and physiological responses of lambs during and after transport

461

**Fahmy, M. H.**

Growth, fertility, prolificacy and fleece weight of Romanov, Finnsheep and Booroola purebreds and their first cross and backcross with the DLS breed

479

**Ap Dewi, I., Owen, J. B., El-Sheikh, A., Axford, R. F. E. and Beigi-Nassiri, M.**

Variation in ovulation rate and litter size of Cambridge sheep

489

**Masters, D. G., Stewart, C. A., Mata, G. and Adams, N. R.**

Responses in wool and live weight when different sources of dietary protein are given to pregnant and lactating ewes

497

**Sweeney, T. and O'Callaghan, D.**

Breeding season and ovulation rate in ewes treated with long days in spring followed by a melatonin implant and exposure to a ram

507

**Rhind, S. M. and McMillen, S. R.**

Effects of methylthiouracil treatment on the growth and moult of cashmere fibre in goats

513

**Ellis, M., Webb, A. J., Avery, P. J. and Brown, I.**

The influence of terminal sire genotype, sex, slaughter weight, feeding regime and slaughterhouse on growth performance and carcass and meat quality in pigs and on the organoleptic properties of fresh pork

521

**Kerr, J. C. and Cameron, N. D.**

Genetic and phenotypic relationships between performance test and reproduction traits in Large White pigs

531

**Christensen, K., Fredholm, M., Winterø, A. K., Jørgensen, J. N. and Andersen, S.**

Joint effect of 21 marker loci and effect of realized inbreeding on growth in pigs

541

**Bradshaw, R. H., Parrott, R. F., Goode, J. A., Lloyd, D. M., Rodway, R. G. and Broom, D. M.**

Behavioural and hormonal responses of pigs during transport: effect of mixing and duration of journey

547

**Brameld, J. M., Atkinson, J. L., Budd, T. J., Saunders, J. C., Pell, J. M., Salter, A. M., Gilmour, R. S. and Buttery, P. J.**

Expression of insulin-like growth factor-1 (IGF-1) and growth hormone-receptor (GHR) mRNA in liver, skeletal muscle and adipose tissue of different breeds of pig
