New from Antiquity Publications:

### MEGALITHS FROM ANTIQUITY

The third volume of reprinted classic papers explores the theme of British and European megaliths. Thirty-six papers examine four principal themes on megalithic studies. The earliest monuments – the great tombs and dolmens – reveal the extent of megalithic variety. Papers range from Daniel's early studies of British dolmens to more recent debates; the perennial interest in Stonehenge and Avebury has figured prominently in ANTIQUITY and is brought fully up to date. The presence of timber and earth circles as precursors or alternatives to megalithic structures show further variety in ancient monument building. The final section, Beyond the Megaliths, through studies of ancient engineering, archaeoastronomy and sensory archaeology demonstrates the abiding interest in interpretations of function and meaning of the ancient stones. ISBN 0-9539762-2-X

Price: £18.99 (per volume) + £3.00 (£5.00 overseas) postage.

Price to ANTIQUITY subscribers: £15.39 + £3.00 (£5.00 overseas) postage

CELTS FROM ANTIQUITY, the second volume of reprinted classic papers explores a central theme of European Archaeology. Twenty-five papers represent ancient and modern approaches to the study of the Celts; the debate over Celtic identity; key discoveries and reinterpretations in continental archaeology; fieldwork and debate in the Southern British Iron Age; fieldwork and debate in the Scottish Iron Age. Each section is introduced with a personal perspective from the editors to set the articles within current and future trends of Iron Age archaeology. ISBN 0-9539762-1-1

LANDSCAPES FROM ANTIQUITY, the first volume of reprinted classic papers explores a central archaeological theme: Landscapes from Antiquity. Twenty-four papers have been selected to represent ancient and modern landscape approaches, organized into thematic sections: Early studies of Fox and Curwen, aerial photo-graphy of Bradford, Crawford and St Joseph, survey method, integrated regional landscapes, physical, industrial, contested and experienced landscapes. ISBN 0-9539762-0-3
