Featuring self-help
chapters

Dr Lynne Drummond
with Laura Edwards

**An accessible
guide for people
with OCD and
their loved ones,
featuring self-help
chapters based on
Graded Exposure
therapy.**

"In this book, Professor Drummond delivers authoritative guidance on how to recognise the symptoms of OCD and what to do about it, in terms of treatments that work with a particular focus on self-management. In so doing, she manages to combine the most up to date research advances with a pragmatic, common-sense approach, all articulated with the clarity and compassion for which she is renowned and illuminated by a wealth of personal 'stories' that bring the book to life."

Solitude

The Science and Power of Being Alone

Most of us spend a sizable chunk of each day alone. Whether we love it or try to avoid it, we can make better use of that time. The science of solitude shows that alone time can be a powerful space used to tap into countless benefits.

"Extremely comprehensive, accessible, and tremendously engaging. This is an absolute must read and invaluable resource on this topic from leading international experts."

Robert J. Coplan, *Carleton University*

"This book is full of wisdom. Kind, conversational, and profoundly practical."

Michael Harris, author of
Solitude and The End of Absence

"This delightful book helps you strengthen your capacity for solitude and harness the benefits of being alone."

Scott Barry Kaufman, author of *Transcendence*

"Rejuvenates the subject by sowing the seeds of reshaping our perception of solitude."

Sharon Ost Mor, *University of Haifa*

"An interesting and comprehensive read on everything you need to know about making the most of your time alone."

Marion Pauw, author of *Daylight* and
screenwriter of *In Therapy*
