PUBLIUS is a quarterly journal now in its fifteenth year of publication. It is dedicated to the study of federal principles, institutions, and processes. PUBLIUS publishes articles, research notes, and book reviews on the theoretical and practical dimensions of the American federal system and intergovernmental relations and other federal systems throughout the world.

Forthcoming issues will feature articles on state constitutional law, Canadian federalism, urban fiscal stress in the United States, state and provincial governments in international affairs, diffusions of information and innovation, Reagan's New Federalism, consociationalism and federalism, the Voting Rights Act, and much more as well as the PUBLIUS Annual Review of American Federalism.

A subscription to PUBLIUS includes membership in the Conference for Federal Studies, an international organization of scholars and practitioners who share an interest in the various aspects of federalism. Members of the Conference receive its newsletter, the CFS Notebook, and are also invited to participate in research projects, conferences, and periodic workshops.
