

THE EDINBURGH MATHEMATICAL SOCIETY

The Edinburgh Mathematical Society was instituted in 1883 for ‘the promotion and extension of Mathematical Science, Pure and Applied’.

Members may subscribe to the *Proceedings* at a reduced rate. Further information about membership can be obtained from the Secretary.

The Society’s address is

The Secretary
The Edinburgh Mathematical Society
James Clerk Maxwell Building
The King’s Buildings
Edinburgh EH9 3JZ
UK
(edmathsoc@ed.ac.uk)

Submission of papers

Papers to be considered for publication should be submitted by email (preferably) to pems@icms.org.uk (in the form of a single pdf, postscript or $\text{\TeX}/\text{\LaTeX}$ attachment). Alternatively, papers may be submitted by post to

PEMS Editorial Office
International Centre for Mathematical Sciences
15 South College Street
Edinburgh EH8 9AA
UK

Each manuscript should contain a short abstract of no more than 200 words and also a primary classification number from the American Mathematical Society’s 2010 Mathematics Subject Classification Scheme. The style and arrangement of the paper should conform to current practice in the *Proceedings*.

Authors should include in their covering note a suggestion of an appropriate subject editor from the list of board members on the inside front cover.

Authors are encouraged to use \TeX or \LaTeX to prepare their papers. \LaTeX is especially recommended, and a class file is available from <http://icms.org.uk/activities/pems> although it is not necessary to use this.

Once an article has reached its final form and is accepted for publication, authors will be asked to supply a \TeX file for the paper (if available). This should be a single file, with any relevant macros included in the preamble. Figures in PostScript form are also welcome, and should be submitted at the same time as the \TeX file for the paper (in zipped format if appropriate).

One proof is supplied, which should be corrected and returned promptly. Excessive corrections may be charged to authors. Authors will receive an electronic offprint in pdf format.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world’s forests. Please see www.fsc.org for information.

Commuting elements in central products of special unitary groups	1
<i>A. Adem, F. R. Cohen and J. M. Gómez</i>	
Spaces with Noetherian cohomology	13
<i>K. K. S. Andersen, N. Castellana, V. Franjou, A. Jeanneret and J. Scherer</i>	
S_3-free 2-fusion systems	27
<i>M. Aschbacher</i>	
The centralizer of a subgroup in a group algebra	49
<i>S. Danz, H. Ellers and J. Murray</i>	
Unfaithful minimal Heilbronn characters of $L_2(q)$	57
<i>H. Ginsberg</i>	
A pair of characteristic subgroups for pushing-up. II	71
<i>G. Glauberman</i>	
Sparse fusion systems	135
<i>A. Glessner</i>	
Nilpotence in group cohomology	151
<i>N. J. Kuhn</i>	
Supercharacters and pattern subgroups in the upper triangular groups	177
<i>T. Le</i>	
On inverse categories and transfer in cohomology	187
<i>M. Linckelmann</i>	
2-subnormal quadratic offenders and Oliver's p-group conjecture	211
<i>J. Lynd</i>	
The string of nets	223
<i>S. P. Norton</i>	
Splitting fusion systems over 2-groups	263
<i>B. Oliver</i>	
The Laitinen Conjecture for finite non-solvable groups	303
<i>K. Pawłowski and T. Sumi</i>	
On primordial groups for the Green ring	337
<i>A. G. Raggi-Cárdenas and N. Romero</i>	
Tensor structure on $k\mathcal{C}$-mod and cohomology	349
<i>F. Xu</i>
